INDEPENDENT COMMUNICATIONS AUTHORITY OF SOUTH AFRICA

# Part A Matters previously raised by the Committee

On 22 September 2015, the Authority issued a moratorium in respect of applications for class community sound broadcasting service licences and for associated radio frequency spectrum licences. The moratorium was necessitated by:

- A scarcity of analogue radio frequencies;
- The review of the Licensing Processes and Procedures Regulations to include a requirement for the Authority to process registrations for class community broadcasting licences in two intervals per year; and
- The need to develop a new regulatory framework to facilitate a sustainable community broadcasting sector.

Moratorium on community broadcasting services (2)

The Authority has made progress towards the lifting of the moratorium:

- The review of the Licensing Processes and Procedures Regulations was concluded in March 2016. The Regulations require that the Authority process registrations for class community broadcasting licences on a biannual basis
- The review of the regulatory framework for community broadcasting services licences commenced during the 2016/17FY In March 2018, the Authority published Draft Regulations for Community Broadcasting Services (Radio and Television). This document is presently out for public comment. The final regulations will be issued in the current 2018-19FY

The moratorium will be reviewed upon the finalisation of the aforementioned process.

Complaint regarding the Multichoice / ANN7 relationship

## Chronology of events and status update

- **<u>29 Nov 2017</u>** Authority received complaint from DA MP against Multichoice on its relationship with ANN 7 / SABC. The allegation was that there are suspicions of illegality in the said relationships (N.B. ICASA had to consider the compliant and also seek external legal advice as to the process to follow to deal with the matter)
- □ <u>26 Jan 2018</u> ICASA sent letter to DA requesting clarity on certain aspects of its complaint letter. DA responded on 29 Jan 2018.
- □ <u>02 Feb 2018</u> ICASA sent letter sent to Multichoice requesting its response to the complaint. Multichoice sought and was granted an extension to 28 Feb 2018.
- □ 28 Feb 2018 Multichoice responded essentially objecting to the process and arguing that the complaint is flawed. Notwithstanding the objection, Multichoice offered to allow ICASA to view the contracts / documentation in question at their premises.

# Complaint regarding the Multichoice / ANN7 relationship (2)

Chronology of events and status update

- **<u>16 March 2018</u>** ICASA responded to Multichoice stating that the offer is unacceptable and stating that ICASA is entitled in law to undertake the process it is undertaking.
- **<u>29 March 2018</u>** Multichoice wrote letter to request a meeting with Council.
- **<u>29 March 2018</u>** ICASA received a letter (from an unrelated party) regarding Multichoice / Naspers 'undue influence on encryption policy in order to protect its dominance'. The issues raised in the letter overlap with some of the issues raised in the complaint.

ICASA is currently considering both of the letters it received on 29 March 2018 in order to determine how to proceed with the matter

Chronology of events and status update

- A Composite Invitation To Apply for an Individual Commercial Free To Air Television Broadcasting Service and Radio Frequency Spectrum Licence for Mux 3 Frequencies was issued on 28 February 2017.
- The Authority convened workshops in all 9 provinces between 29 May 2017 and 8 June 2017 to help prospective applicants better understand the ITA and provide an opportunity for them to engage the Authority on any issues on which they sought clarity
- The closing date of the ITA was 16 November 2017 and the Authority received 5 applications, but one was disqualified for non payment of the prescribed application fee. All received applications (4) are available for inspection by any interested parties at the Authority's library and on the website.

### Chronology of events and status update

- A notice inviting public comment on the received applications was published 13 March 2018. The closing date for receipt of written representations is 16 April 2018. Applicants have until 17 May 2018 to respond to the written representations.
- All written representations and responses will be made available in the Authority's library and on the website (except where confidentiality is requested and granted)
- □ The Authority will hold public hearings with respect to the received applications by 30 September 2018
- □ A final decision on the licensing process is expected by 31 March 2019

## Vacancy rate as of 31 March 2018 is 5.9%

# PART B Matters raised by the AG and progress in implementing the Audit Action Plan

The CEO has implemented adequate controls to ensure thorough review of the indicators as set out in the strategic plan and annual performance plan to ensure compliance with the Framework for Programme Performance Information.

Regular training and workshops have been scheduled for all members of management and SCM staff on SCM requirements, applicable laws and regulations including Instruction Notes and Circulars issued by National Treasury.

Updated the SCM Policy, as well as Subsistence and Travel Policy to comply with current National Treasury regulations and circulars.

Divisional heads are held to a high quality assurance at Programme level (Divisions) to ensure that reporting is consistent with the plan. Internal Audit performing a more stringent and proactive quality assurance of performance information.

Timeous payment of suppliers is now part of the Finance APP. In addition, divisional heads are held accountable for timeous acceptance and or review of deliverables to facilitate ease of the payment process.

INDEPENDENT COMMUNICATIONS AUTHORITY OF SOUTH AFRICA

# Part C

# **Strategic Overview**

## **Delivery Environment**

ICAJE

## □ Cost to communicate

- focused regulatory interventions to promote competition (and lower prices)
- OTT versus traditional services (voice, SMS, broadcasting)
- changes in consumption patterns & operating models in the sector

## ☐ Technological developments

- 4G is rapidly superseding 3G and 2G
- 5G on the horizon ... impacting entire ICT sector value chain
- Rapid increase in device to device communication (Internet of Things)
- these technological developments mean there is need for more radio frequency spectrum (for coverage, capacity and speed)

## **Delivery Environment...**

## Postal Sector

- a significant decline in mail volumes
- government digitising SAPO (embracing new technologies and product diversification)
- mandate for universal services and access (loss of subsidy)

## Broadcasting Sector

- vibrant sector comprising public, commercial and community sound and television broadcasters
- digital migration by June 2019
- moratorium on community broadcasting service licences to be lifted during 2018-19FY
- almost all Individual Sound Commercial Broadcasting Services Licences due for renewal during 2018-19FY
- Pending policy review (Whitepaper on Audiovisual and Digital Content Policy; Discussion Document on Digital Sound Broadcasting)

## **Governance Structure**

- full complement of Council since December 2017
- no new governance committees have been established

## **Operational Structure**

- no changes to the organisational structure since 2014 realignment. However, structural validation currently underway
  - there was a slight increase in employee numbers from 357 at the beginning of 2017-18FY to 359 at the beginning of 2018-19FY
  - the increase in employee numbers reduced vacancy rate from 8.4% at the beginning of 2017-18FY to a desirable 6.2% at the beginning of 2018-19FY. A target of 5% is set for 2019/20

A total amount of **R124** 734 391.49 was surrendered to National Revenue Fund as required by National Treasury Instruction note 6 of 2017/18. Included in this transfer was **R61 997 549** which was allocated to cover relocation cost and **R36** 661 798.00 which was allocated to ICASA as a Start-up Fund. These budget cuts left the Authority with a huge budget deficit which will have a negative impact on the implementation of the Mandate.

The Authority is reviewing the 2018-19FY APP with a view to motivating for amendments to remove projects that could be unfunded.

Due to the challenges indicated above, the Authority will not be able to afford the following over the MTEF period:

#### **1. Operational Costs**

Regional Office Relocation and Tenant installation cost

#### 2. Equipment and Projects

- Procurement of critical equipment required for:
  - Execution of NATJOINTS operations
  - Execution of Quality of Services (QoS) monitoring
  - Elections Monitoring
  - Protection of SKA against interference
