INDEPENDENT COMMUNICATIONS AUTHORITY OF SOUTH AFRICA

NO. 1957

31 March 2022

**DISCUSSION DOCUMENT ON THE OPTIMIZATION OF THE FREQUENCY
MODULATION SOUND BROADCASTING**

1. The Authority hereby gives notice of its intention to conduct an inquiry in terms of section 4B of the Independent Communications Authority of South Africa Act no. 13 of 2000 ("ICASA Act").
2. The purpose of the Inquiry is to solicit the stakeholders' views and inputs on the frequencies identified through the GE84 Optimization process in the FM band (87.5 -108 MHz) allocated for sound broadcasting in the National Radio Frequency Plan, with the view to categorise these for public, commercial and community sound broadcasting in order to update the assignments as per Annexure A: VHF/FM Table of the Terrestrial Broadcasting Frequency Plan ("TBFP") 2013¹. Furthermore, to seek stakeholder views and inputs on the update to the VHF/FM Table of the TBFP.
3. Interested parties are hereby invited to make written representations on the attached Discussion Document with relation to the proposed categorisation of

¹ Published in the Government Gazette No. 36321 on 02 April 2013 read together with Government Gazette No. 41362 published on 29 December 2017

the newly identified FM frequency assignments and the updated Annexure A: VHF/FM Table of the TBFP.

4. Interested parties must submit an electronic version of the representation in PDF format, by no later than 16h00 on 08 June 2022.
For the attention of Mr D. Kgosimolao Moshweunyane and may be emailed to fmsoundbroadcasting@icasa.org.za. Enquiries should be directed to Mr D. Kgosimolao Moshweunyane, email address: dmoshweunyane@icasa.org.za, telephone number: 012 568 3497, between 10h00 and 16h00, Monday to Friday.
5. A copy of the Discussion Document will be made available at the Authority's Head Office library situated at: Block B, 350 Witch-Hazel Avenue, Eco Point Office Park, Eco Park, Centurion, and on its website at www.icasa.org.za.
6. Interested parties wishing to participate in oral presentations/hearings must indicate their willingness to do so in their submission.
7. Interested parties may request that specific information of their written representation be treated as confidential as envisaged in section 4D of the ICASA Act. In adhering to the provisions of section 4D (1)(b) and (4) of the ICASA Act², Interested parties must provide a detailed explanation(s) how such information is likely to cause harm if it were to be in the public domain. A confidential and non -confidential version of the written representation must be submitted with the confidentiality request, and clearly marked as such.

1. BACKGROUND

The Regional Administrative Radio Conference held in Geneva, convened under Articles 7 and 54 of the International Telecommunication Convention (Nairobi, 1982) to establish a plan for sound broadcasting in the 87.5 - 108 MHz band in accordance with Resolution No. 510 of the World Administrative Radio Conference (Geneva, 1979), and No. 584 of the Radio Regulations. The agreement was adopted in the Regional Radiocommunications Conference in Geneva in 1984 by member states of the ITU. The agreement came into force on 1 July 1987³.

The fourth African Preparatory Meeting 2019 (APM19-4), the highest decision-making body of ATU was held in East London from 26 to 30 August 2019 to prepare for the next WRC 19 meeting and propose for the new agenda items. The Minister of the Department of Communications and Digital Technologies in APM19-4 launched the ATU Optimization of the Geneva 84 FM Plan for Africa as an important initiative for broadcasting sector as it seeks to maximise efficient use of FM spectrum used by broadcast radio services. She concluded her address by imploring upon the ITU to continue working with the ATU and African member states on initiatives and goals designed to bridge the digital divide and accelerate digital transformation in Africa. South Africa is a member of the ITU and has acceded to the GE84 Plan.

Amongst others, the outcome of the APM19-4 launched the Project on the optimization of the GE84 Plan for Africa. Subsequently, the project is led by the ITU's BR, in collaboration with the ATU. The main purpose of the optimization is to achieve an efficient use of the VHF 87.5-108 MHz ("FM") band for analogue sound broadcasting and to allocate new frequencies for assignment to meet the increasing need for additional frequencies in African countries. Moreover, the project is consistent with GE84 Plan which provides for a Plan modification procedure described in Article 4. The procedure allows a frequency assignment's characteristics to be modified or a new assignment to be entered.

In September 2020, the ITU BR in collaboration with the ATU, organised a series of online workshops aimed at supporting the African administrations in preparing for the

frequency coordination meetings to be held for the GE84 Plan Optimization project for African countries.

The 1st frequency coordination meeting on the GE84 Plan Optimization took place, virtually, from 15 to 19 February 2021. The meeting agreed on the general criteria to facilitate the coordination as summarised in Table 1 between the neighbouring countries.

Table 1: Summarised General Criteria for coordination⁴

Criteria	Agreement	Comments
Maximum acceptable Nuisance Field Strength (NFS) value allowed between the neighbouring countries.	54 dB μ V/m	Accepted interference level can be agreed upon over and above 54 dB μ V/m depending on coordination agreements between affected neighbouring countries without prejudice. South Africa agreed on a bilateral agreement with other administrations to use 60 dB μ V/m
Min/Max number of additional requirements per site	- Min: 1 (in difficult areas such as borders, coastal areas etc.) - Max: 2 or more (when possible)	This requirement was to ensure that countries acquire equitable assignments along the borders.
Consider the polarization discrimination	10 dB	
To stop any new submission for modification of the GE84 Plan.	20 Feb 2021 to the end of the last coordination meeting.	To suspend the recording of changes and/addition of new assignments to the GE84 plan to give way

⁴ <https://www.itu.int/en/ITU-R/terrestrial/broadcast/africa/Pages/default.aspx>

Criteria	Agreement	Comments
		for the optimization project to run.

The 2nd frequency coordination meeting subsequently took place from 28 June – 2 July 2021 with the 3rd and final coordination meeting taking place from the 24-28 January 2022.

2. LEGISLATIVE AND REGULATORY FRAMEWORK

The Independent Communications Authority of South Africa (hereinafter referred to as “ICASA” or “the Authority”) derives its mandate to regulate the South African broadcasting sector from the Constitution of the Republic of South Africa, 1996⁵ (“the Constitution”), the Independent Communications Authority of South Africa Act, 2002 (Act No. 13 of 2000)⁶, as amended (“the ICASA Act”), the Electronic Communications Act, 2005 (Act No. 36 of 2005)⁷, as amended (“the ECA”) and the Broadcasting Act, 1999 (Act No 4. of 1999)⁸, as amended (“the Broadcasting Act”). Read with section 34 (1) (c) of the ECA.

Section 30 (1) of the ECA stipulates that *“In carrying out its functions under this Act and the related legislation, the Authority controls, plans, administers and manages the use and licensing of the radio frequency spectrum except as provided for in section 34”*.

Section 30 (2)(a) of the ECA stipulates that *“In controlling, planning, administering, managing, licensing and assigning the use of the radiofrequency spectrum, the Authority must comply with the applicable standards and requirements of the ITU and its Radio Regulations, as agreed to or adopted by the Republic, as well as with the national radiofrequency plan contemplated in section 34 ...”*

⁵ See section 192 of the Constitution which states that national legislation must establish an independent authority to regulate broadcasting in the public interest, and to ensure fairness and a diversity of views broadly representing South African society.

⁶ See section 2 (a) of the ICASA Act which states that the object of the ICASA Act is to establish an independent authority which is to regulate broadcasting in the public interest and to ensure fairness and a diversity of views broadly representing South African society, as required by section 192 of the Constitution.

⁷ See section 2 of the ECA.

⁸ See section 2 of the Broadcasting Act.

Section 30 (2) of the Electronic Communications Act No. 36 of 2005, mandates the Authority to control, plan, administer, manage, license and assign the use of radio frequency spectrum. In executing the aforementioned mandate, the Authority must ensure compliance with applicable standards and requirements of the International Telecommunications Union's (ITU) Radio Regulations, and the National Radio Frequency Plan.

Further, section 2 (f) of the ECA mandates the Authority to promote competition within the ICT sector, in order to fulfil this mandate, the plan allows for frequency assignments with similar coverage areas (commercial, public and community) in shared licence areas. This allows for effective competition between different broadcasters due to equal potential audience and viewership.

Section 2(s) of the ECA promotes diversity of services. The TBFP contributes to diversity by ensuring audience have access to different categories of broadcasting services within geographical areas.

3. CATEGORISATION OF NEW SPARE FREQUENCIES

South Africa has submitted thirty-two (32) Iterations in total during the project. Iterations 0, 1, and 2 were submitted during the 1st frequency coordination meeting held from 15 to 19 February 2021. Iterations 13, 14, and 15 were submitted during the 2nd frequency coordination meeting. Iteration 30, 31, and 32 were submitted during the 3rd and final frequency coordination meeting. All other iterations were submitted on a bi-weekly basis.

During the process of identifying new frequencies for FM broadcasting, South Africa took the opportunity to add existing frequency assignments that are on Annexure A of the TBFP⁹, which were not on the GE84 Plan. To date, South Africa has identified 29 new frequency assignments and added 809 existing frequency assignments to the Iteration files of the GE84 Plan for consideration by the ITU.

The new frequency assignments identified must be categorised for Public Broadcasting Services, Commercial Broadcasting Services, and Community Broadcasting Services.

⁹ Government Gazette no. 41362 of 29 December 2017

Table 2 below lists the frequency assignments that have been newly identified and added into GE84 plan.

The public is invited to provide its comments in relation to the proposed categorisation of the frequencies for Public, Commercial and Community provided in **Table 2**. The proposed categorisation takes into consideration the existing categorised assignments and spare frequencies of each transmitter as provided in Annexure A of the TBFP.

Table 2: Frequency Assignments Identified and Added to GE84 Plan

4. SUPPRESSION AND WITHDRAWAL IN THE GE84 PLAN

Suppression/withdrawal in this process, is the act of removing frequency assignments from the GE84 plan due to interference caused and/or received from other transmitting stations and assignments not appearing on the TBFP. The optimization project allowed for the suppression and withdrawal of assignments recorded in the GE84 plan that degrades the performance of the existing network. During the project, the Authority took the opportunity to identify all frequency assignments that needs to be suppressed and withdrawn from the GE84 plan and removed from the TBFP as indicated in Table 3 below. These frequency assignments will cause harmful interference to the existing licensed assignments.

Table 3: Frequency assignments identified for suppression in the GE84 Plan

Transmitter site name	Geo-Coordinates		Frequency	Comments
	Lat	Long		
ALICE	32°40'00"S	26°50'00"E	88.2 MHz	Suppression required. It causes interference to Forte Community Radio at King Williams Town 88.2.
ALICE	32°40'00"S	26°50'00"E	94.5	Suppression required. It causes interference to Tru FM at Grahamstown 94.5.
CALA	31°33'00"S	27°45'00"E	96.6 MHz	Suppression required. It causes interference to Engcobo Community Radio at Engcobo.
DULLSTROOM	25°34'00"S	30°11'00"E	107.6 MHz	Suppression required. In the TBFP and Info DB is listed as 107.7 Ikwewezi.
DEVILS BELLWOS	32°25'00"S	26°39'00"E	97.8 MHz	Suppression required. It causes interference to Tru FM at Queenstown 97.8.
GA RANKUWA	25°36'00"S	28°02'00"E	107.5 MHz	Suppression required. It causes interference to Bosveld Stero at BRITS1 107.5 MHz
JOHANNESBURG	26°12'00"S	28°00'00"E	107.9 MHz	Suppression required. Appears as 107.8 in the TBFP and on Info DB
KOMATTIEPOORT	25°13'00"S	31°47'00"E	100.2 MHz	Suppression required. It causes interference to Nkomanzi at Mbuzini 100.2 MHz
STEYTLERVILLE	33°19'00"S	24°22'00"E	91.5 MHz	Suppression required. It causes interference to Umhlobo Wenene at PATENSIE 91.6 MHz
STEYTLERVILLE	33°19'00"S	24°22'00"E	94.7 MHz	Suppression required. It causes interference to Algoa at PATENSIE 94.8 MHz
TAUNG	27°32'00"S	24°37'00"E	95.1 MHz	Suppression required. It causes interference to Bophirima at CHRISTIANA 95.1
UNIONDALE	33°43'00"S	23°03'00"E	99.9 MHz	Suppression required. This frequency is already used by Kouga FM at Kareedouw.
ALICE	32°40'00"S	26°50'00"E	91.3MHz	Suppression required. It causes interference with Alicedale at 91.3 licensed to Umhlobo wenene
PTLANESBERG	25°21'00"S	27°06'00"E	93.3 MHz	Suppression required. It causes interference to Mafisa at Rustenberg1 93.4 MHz
BLOUBERG	23°04'00"S	28°59'00"E	89.2 MHz	Suppression required. Sentech is switching off this site. Deleted from the TBFP and Info DB
BLOUBERG	23°04'00"S	28°59'00"E	92.3	Suppression required. Sentech is switching off this site. Deleted from the TBFP and Info DB
BLOUBERG	23°04'00"S	28°59'00"E	102.3	Suppression required. Sentech is switching off this site. Deleted from the TBFP and Info DB
BLOUBERG	23°04'00"S	28°59'00"E	105.9	Suppression required. Sentech is switching off this site. Deleted from the TBFP and Info DB
STEYTLERVILLE	33°19'00"S	24°22'00"E	101.5	Suppression required. It causes interference to Patensie 101.5 licensed to RSG.

5. MODIFICATION OF GE84 PLAN

The modification procedure is provided in the GE84 Plan agreement. The procedure allows a frequency assignment's characteristics to be modified. The initiation of the modification procedure indicates that any administration proposing to modify the characteristics of an assignment appearing in the GE84 Plan or to add a new assignment to the GE84 Plan shall obtain the agreement of any other administration whose services are likely to be affected.

Table 4 list the frequency assignments that require modification in the GE84 Plan. The modification required in these assignments includes the site name change and location change. For each frequency assignment that requires modification, the reason is provided in the comment section. The modification of these assignments can only be done once the FM optimization project has been completed as per the agreed general criteria for coordination.

Table 4: Modification of frequency assignments identified and added to GE84 Plan

Transmitter site name	Geo-Coordinates		Frequency	ERP (KW)	Comments
	Lat	Long			
BARKLY EAST	30°57'00"S	27°33'00"E	87.8 MHz	0.5	Mod Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	90.9 MHz	0.5	Mod Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	94.1 MHz	0.5	Mod Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	97.4 MHz	0.5	Mod Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	100.9 MHz	0.5	Mod Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	104.5 MHz	0.5	Mod Required. Site location/ coordinates changed - see the TBFP and Info DB
CONSTANTIABERG	34°03'00"S	18°23'00"E	89 MHz	10	Mod Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	92.1 MHz	10	Mod Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	95.3 MHz	10	Mod Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	98.6 MHz	10	Mod Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	102.1 MHz	10	Mod Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	105.7 MHz	10	Mod Required. Site name to be changed to Cape Town
PUNDA MILIA	22°44'00"S	30°59'00"E	89.3 MHz	5	Mod Required. Name correction to "Punda Maria"
PUNDA MILIA	22°44'00"S	30°59'00"E	92.4 MHz	5	Mod Required. Name correction to "Punda Maria"
PUNDA MILIA	22°44'00"S	30°59'00"E	95.6 MHz	5	Mod Required. Name correction to "Punda Maria"
PUNDA MILIA	22°44'00"S	30°59'00"E	98.9 MHz	5	Mod Required. Name correction to "Punda Maria"
PUNDA MILIA	22°44'00"S	30°59'00"E	102.4 MHz	5	Mod Required. Name correction to "Punda Maria"
UPINGTON	28°53'00"S	21°44'00"E	98.2 MHz	1	Mod Required. Change coordinates and the name to Upington Rosedale

6. AMENDMENT PROCESS FOR ASSIGNMENTS THAT ARE NOT PART OF THE GE84 PLAN

The Authority must ensure that all the licensed assignments are reflected in the GE84 plan, so to ensure that they are protected. The licensing process is to always consider the coordinated assignments that are part of the Annexure A of the TBFP. In instances that a new assignment that is not part of Annexure A of the TBFP is proposed for licensing, the Authority is to follow the process as provided in Figure 1. It should be noted that this process may take longer period than the 60 days as provided in the ECA to conclude the licensing.

Figure 1: Licensing process for new assignment requirement that are not in GE84 plan and TBFP

7. DRAFT UPDATE OF THE VHF/FM TABLE OF THE TERRESTRIAL BROADCASTING FREQUENCY PLAN

The proposed updated Annexure A: VHF/FM Table of the TBFP is provided in **Table 5**. The table includes the existing frequency assignments, the newly identified frequency assignments, and frequencies that are to be removed in the TBFP for reasons provided in the comment's column.

In addition, the comment's column also indicates the newly identified frequencies, existing assignments that were not the part of the TBFP and frequency assignments that are not part of the GE84 Plan and require further coordination engagements with the affected neighbouring countries.

The public is invited to provide its comments in relation to the proposed update of Annexure A: VHF/FM Table of the TBFP in Table 5 below

Keys

Newly identified frequencies and existing frequency assignments that were not part of TBFP.

Existing frequency assignments that need suppression and removed from TBFP because of harmful interference.

Frequency assignments that are part of TBFP and remain unchanged.

Frequency assignments that are not added to GE84 Plan due to further coordination engagements with the affected countries required.

Table 5: Proposed update to the VHF/FM table in the TBFP
