ANNEXURE A

1. Background and Scope

The purpose of the consumer education campaigns is to deliver on ICASA's mandate that requires it to regulate in the interest of South African consumers, educate consumers on their rights and responsibilities and protect consumers against harmful business practices.

The Regions division educates and informs consumers daily basis through face-to-face interactions, presentations at public places and fora. The Liaison Officers also partake in exhibitions in partnership with provincial stakeholders and use Ministerial Imbizo's and other events to educate consumers. This proposed campaign will supplement these activities and reach a greater number of consumers that a single Liaison Officer in each province cannot reach.

1.1. A recent study on consumer awareness levels found amongst other things that:

- Top of mind awareness has increased, from 14% to 16% between 2016 and 2017, this is being driven primarily by the urban segment. This can be attributed to the increased levels of consumer awareness and education activities such as the #get2knowicasa campaign and the face-to-face consumer engagements in the Regions and educational interviews on community radio stations that took place in the 2016/17 financial year.
- In 2016 only 75% of respondents felt that ICASA regulated the Broadcasting sector, in 2017 the number grew to 83% whereas 28% of respondents felt ICASA regulated the Postal Services, this year the number grew by 11% to 39%. Even those consumers that have heard of ICASA are either unaware of ICASA's full responsibilities or are confused about ICASA's mandate. This is evidence that the role of ICASA is not yet known by the public, which necessitates increased consumer education and awareness activities.
- Higher income respondents and those with tertiary education are more likely to be aware of ICASA and respondents in the more rural provinces are the least likely to be aware of ICASA. There is therefore a need to not only focus on the more urban areas, where awareness is high, but to also increasingly target the more rural areas which are also characterized by higher levels of unemployment and education.

In this consumer campaign the intention is to go a level deeper into the space of education of consumers on different platforms and across provinces. This will be done in a focused education platforms and various stakeholders at various levels of the society

1.2. Consumer educational challenge:

ICASA has done a lot of work on the ground but still appears to have low visibility in the Provinces. The challenge is to increase Province-specific consumer education projects and vigorously promote the work of ICASA in all the nine (9) Provinces;

2. The primary objectives of the campaign are to:

- To empower various segments of consumers through education of their rights and responsibilities within the ICT sector

3. Specifications

The campaign must be interactive, exciting, bring the ICASA brand alive and must be integrated to include:

- Events in core focused areas: The service provider is required to conceptualize, plan and manage the execution of the following events across the country:
 - ICASA Townhall – introduction to ICASA #Regulatinginthepublicinterest followed by activations as stated below – 150 stakeholders to be invited to ICASA Townhalls
 - 2 activations in **each province** at shopping malls – in areas where there's only one mall shopping mall there should be an extended activation
 - Partner with a community radio station to do live broadcast from the Townhalls in select provinces
- Print advertising
 - Generic print advertising supported by consumer education content
 - Print advertisements to promote Townhall events as well as mall activations
 - Design and prepare artwork for placement in print publications in line with consumer education (placement excluded)
- Radio advertising
 - Generic consumer education advertising
 - Advertisements to promote Townhall events as well mall activations
 - Script and recording of ads in all official languages (placement excluded)
 - Design a consumer education focused competition that will encourage listeners to the station and answer questions related to ICASA to win a prize (in each province depending on radio medium)

3.1. Target audience

A survey conducted in the 2016/17 financial year to ascertain the levels of awareness of ICASA has shown that urban consumers are more likely to be aware of ICASA and our offerings as opposed to consumers in more rural areas. This is depicted in Figure 1 below.

Figure 1: ICASA Unprompted Awareness

Furthermore, the study showed that women, and those with a lower level of education are also less likely to know about the organization and its services.

This has led to the identification of the following target consumer segments who will be reached through various channels of communication:

- All end-users of ICT products and services (consumers who use telephone, mobile phones, radio, TV and postal services)
- Urban and Rural based consumers (with an increased focus on consumers residing in more rural areas)
- Youth
- Persons with disabilities
- Women
- Licensees or industry stake-holders

3.2. Messages

The overarching theme of the education campaign will be “ICASA, Regulating in the Public Interest”.

Other, more focused messages will be around the following matters:

- Consumer protection
 - Consumer complaints processes
 - Role of the CCC
- Data management / bill shock
- Type Approval regulations – consumer and retailer rights and responsibilities
- Job & career opportunities in the ICT Sector
- Broadcasting (radio and television) content and how it impacts on the interests of the consumers

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancels a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
