

Chairperson's Review and Highlights of the Year

Chairperson, Paris Mashile
(1 July 2005 - 30 June 2010)

I hereby present to Parliament the Annual Report of the Independent Communications Authority of South Africa (ICASA) for the financial year 1 April 2005 to 31 March 2006.

Suffice to say that the period under review has been eventful, with gigantic challenges and daunting tasks. This notwithstanding, we at ICASA believe that we rose to the occasion as perusal of the detailed annual report will testify.

Despite the setback of losing senior managers in the past year, the Authority has not just managed to keep afloat, but went on to deliver convincingly on its mandate to licence and regulate the communications sector.

Top of the list of achievements, was the eventual licensing of the Second Network Operator (SNO). The introduction of competition and choice in the public switched telecommunications market should augur well for both consumers and the country's economy.

On the broadcasting front, ICASA amended SABC licences to reflect the re-organisation of the corporation into public and commercial entities, and licensed 12 Community Radio Stations in the Nodal Points of the government's Integrated Sustainable Rural Development and Urban Renewal Programme. ICASA also invited interested parties to apply for broadcasting licences to provide commercial radio services in Limpopo, North West and Mpumalanga. More choice in content is expected from the licensing of Satellite Broadcasting Services as well.

Milestones in the policy development arena include the Community Radio Policy Review, the Numbering Policy Framework, Number Portability and the regulation of Standards. Public comment and input is being received and analysed in areas of Handset Subsidy, Fixed Wireless Access and Mobile Pricing, to mention but a few.

At the time of the compilation of this report, a new regulatory framework for the communications sector was being outlined in the form of the Electronic Communications Act and the ICASA Amendment Act.

The former provides the basis for a licensing and regulatory environment for converging services and technologies, and the latter for the incorporation of the Postal Regulator from the Department of Communications (DoC) into ICASA and an increase in the number of Councillors from seven to nine.

In the new financial year, ICASA will be pre-occupied with implementing the two Acts of parliament, and the creation of a new regulatory environment for the converging communications sector – over and above on-going Medium-Term Expenditure Framework (MTEF) regulatory projects initiated in the previous financial years.

The two Acts of Parliament bring in their trail cost implications, as well as organisational re-alignment in terms of their implementation. ICASA welcomes this new mandate with open arms, and looks forward to implementing it with renewed vigour and determination.

Despite the challenges of implementing the new regulatory environment, ICASA's key focus areas are to:

- Regulate the communications sector in the public interest;
- Regulate the communications sector in support of national economic and social goals;
- Position communications as a sector of choice for both local and international investors;
- Promote innovation, competition and choice within the communications sector; and
- Promote universal service and access, as well as affordability of services.

I would like to express my greatest appreciation and thanks to:

- His Excellency the President for taking me into his confidence and trust in appointing me as the skipper of the organisation;
- The Minister, Deputy Minister and the Director-General of the DoC for their sustained support; and
- The Portfolio Committee on Communications for its continued oversight role, advice and support.

I would also like to pay my gratitude to the broader public and consumers of communication services, as well as industry players and all other stakeholders for their forbearance and understanding.

From ICASA's side, I would like to thank my predecessor, Mandla Langa, for anchoring and laying the foundation for this organisation as well as the outgoing Councillors for the legacy they have bequeathed.

I am indebted to fellow Councillors, management and staff at ICASA for their sacrifice, endurance and support – without them, delivery on the Authority's mandate would not be possible.

Finally, I would like to point out that the terms of office of Councillors Bulbulia and Mohlala were extended by 45 days to 14 August 2006, pending the appointment of new Councillors.

Paris Mashile
Chairperson

Highlights of the Year

In summary, the Authority has delivered on its mandate with regard to the following licensing and regulatory projects:

- Community Radio Policy Review;
- Licensing 12 Community Radio Stations in the Nodal Points of the Integrated Sustainable Rural Development and Urban Renewal Programme;
- Granting Radio 702 an FM licence;
- Amendment to the KAYA FM licence;
- Amendment of the P4 licences, in Cape Town and Durban;
- Amendment of the Orbicom licence;
- Publication of Regulation and Invitation to Apply for Subscription Broadcasting Services;
- Analysis of Commercial Radio Secondary Market Applications;
- Self Help Regulations;
- Granting of Special Events Licences;
- Code of Practice for Telecommunications and Broadcasting sectors;
- Licensing the Second Network Operator;
- Amendment to the WBS licence;
- Approval of several telecommunication operators' tariff lodgements;
- Licensing of Value Added Network Services (VANS);
- Processing Cell C's Third Generation (3G) application;
- Licensing Frequency Spectrum Operators;
- Facilitating the Square Kilometer Array (SKA) bid;
- Numbering Plan Framework;
- Mobile Number Portability;
- Mobile Chart of Accounts and Cost Allocation Manual (COA/CAM);
- Type Approval; and
- Regulation on Standards.

The Authority is currently processing the following regulatory projects:

- Under-Served Area Licences (USALs) for Phase 3;
- Secondary Markets Broadcasting Applications;
- Invitation to Apply on Community Sound Broadcasting;
- Invitation to Apply on Subscription Broadcasting;
- Interconnection and Facilities Leasing Guidelines;
- Handset Subsidy Regulations;

- Mobile Pricing;
- Telkom Licence amendment process;
- Swiftnet Licence amendment process;
- Proposal before the Minister to amend Broadcasting Ownership and Control regulations;
- Invitation to Apply on Community Television; and
- Broadcasting licence renewals.

Meanwhile, the Authority has invited public comments on:

- 5.725 – 5.875 GHz for Broadband Fixed Wireless Access;
- Broadcasting and non-broadcasting operators;
- Asymmetric Digital Subscriber Line (ADSL) Satellite Licensing Framework;
- Possible Sharing of the 800 MHz Frequency Spectrum between broadcasting and non-broadcasting operators;
- ADSL Draft Regulations;
- Draft Regulations and Guidelines on Interconnection and Facilities Leasing;
- Handset Subsidy Enquiry; and
- Mobile Pricing Enquiry.

Acting Chief Executive Officer's Overview

Acting Chief Executive Officer, Bruce Jooste
1 July 2006 – present

Acting Chief Executive Officer, Eric Nhlapo
November 2005 – June 2006 (Resigned)

Chief Executive Officer, Jackie Manche

I hereby present the Independent Communications Authority of South Africa's 2006 Annual Report.

The past financial year has indeed been challenging to the Authority with numerous staff resignations and resultant vacancies, cautionary suspensions of some staff members, as well as our internal processes being scrutinised in the public domain.

Financial Performance

The Auditor-General's audit qualification highlights the shortcomings which occurred in the management of the Authority's finances during the period under review. Whilst Council took corrective action during the latter part of 2005, the knock-on effect on financial commitments manifested itself towards the end of the financial year.

The Authority has, however, instituted legal action in certain matters relating to contracts that have been entered into irregularly. These matters have already been identified and provided for in the annual financial statements.

The delay in redrafting and implementation of policies and procedures, especially in the procurement process, also contributed to the poor control environment.

Human Capital

The Authority implemented a new salary structure in the past financial year for employees up to management level, with the intention that a similar exercise would be undertaken for senior management as part of the organisational transformation process. However, this exercise has not been completed due to problems identified in the initial process. A new job evaluation exercise is therefore currently under way, covering all levels of employees in the organisation, including the Postal Regulator staff members joining the Authority as a result of the promulgation of the Independent Communications Authority of South Africa Amendment Act 3 of 2006 and the Electronic Communications Act 36 of 2005 on 19 July 2006.

The implementation of a performance management system was also delayed.

Strategic Overview

The current changes to the legislative environment, accompanied by new roles and responsibilities, resulted in ICASA changing its

strategic formulation during the year 2004/2005 to being a functionally effective, continually relevant and credible regulator of the South African Communications sector as well as developing the following three drivers of value, viz:

- In-depth understanding and effective regulation of the communications sector;
- Functional effectiveness; and
- World-class execution of all its functions.

To this end, the Executive Management and the staff of ICASA will ensure that the above value drivers are the cornerstones of the Authority's interaction with all stakeholders.

Corporate Governance

Council is acutely aware and sensitised to ensuring that corporate governance values are being upheld at the Authority. Regular meetings are therefore held at Executive Management, Committee and Council level. Meeting decisions are recorded and effected by way of resolutions.

An internal audit function has also been fully operational and effective as highlighted by the numerous internal audit reports and *ad hoc* investigations that were undertaken during the year under review. An external fraud-hotline has been operational since June 2006 and is being managed by an external service provider, Whistle Blowers (Pty) Ltd.

Current Objectives

In addition to ensuring compliance with the new legislative imperatives, the following operational initiatives are currently under way:

- Concluding the successful incorporation of Postal Regulator staff into ICASA;
- Improved systems to ensure the efficient management of ICASA's finances;
- Finalising and implementing the revised job grading evaluation exercise;
- Recruitment of staff to fill all the vacancies and new positions identified;
- Review of existing policies;
- Implementation of both existing and new policies and procedures;
- Implementing a performance management system; and
- Improved roll-out of the Fraud Prevention Plan.

Appreciation

I would like to express my sincere appreciation to the staff of ICASA who, despite all the challenges surrounding the Authority during the past year, have shown their mettle in performing and still achieving delivery on the Authority's mandate. Their commitment and participation in tackling the challenges facing the Authority bode well for the future.

I also wish to thank the ICASA Chairperson and Council for their continued support to the Executive Management in addressing the immediate challenges facing the Authority. In addition, my gratitude goes to the Minister, Deputy Minister, Director-General as well as staff in the DoC and the National Treasury.

Bruce Jooste
Acting Chief Executive Officer

Council Members

Chairperson, Paris Mashile
(1 July 2005 - 30 June 2010)

Nadia Bulbulia
(1 July 2002 - 30 June 2006)

Tracy Cohen
(1 July 2004 - 30 June 2008)

Mamodupi Mohlala
(1 July 2002 - 30 June 2006)

Zolisa Masiza
(1 July 2004 - 30 June 2008)

Lumko Mtimde
(1 June 2002 - 30 June 2006)

Mthobeli Zokwe
(1 July 2005 - 30 June 2009)

The Telecommunications Division consists of two departments, namely: Policy Analysis and Development, as well as Licensing, Enforcement and Numbering Administration. The responsibility of this division, *inter alia*, is to: review the inter-corporate activities of the telecommunications service licensees and their regulatory accounting practices; assess the rates, terms and conditions of licensed telecommunications services; oversee the evolution of competition within the regulated telecommunication services; issue licences to telecommunication service providers and monitor and ensure compliance with the Telecommunications Act, Regulations and licence conditions by telecommunications service providers.

Rule Making

Policy Analysis and Development

The Policy Analysis and Development Department is responsible for all regulatory policy initiatives undertaken by the Telecommunications Division of ICASA. During the year under review this department was primarily responsible for reviewing and updating the following:

- Chart of Accounts and Cost Allocation Manual (COA/CAM) for Mobile Communications Services licensees;
- Interconnection Guidelines;
- Facilities Leasing Guidelines;
- Review of Fees and Charges for Public Switched Telecommunication Services (PSTs) (Rate Regime);
- Number Portability Regulations;
- Telecommunications Tariffs;
- Universal Service Fund and Licence fees; and
- Interconnection Agreements.

COA/CAM for Mobile Operators Volume 2

Chairperson Mashile addresses the Closing of the Numbering Plan press conference

The Authority undertook a review of COA/CAM for mobile operators, as promulgated by the Minister in July 2004.

COA/CAM is a reporting framework by telecommunications operators that provides the underlying costs of providing a particular service, such as a local or national long-distance call. Such costs can then be compared to the charges for the service levied by the operator and a determination made as to the reasonableness of the charges, taking into account the relevant costs. In this way, the Authority ensures that customers are not overcharged for services.

In March 2005, the Authority started the process of engaging the mobile operators to comply with COA/CAM Volume 2 regulations. The reporting requirements on COA/CAM Volume 2 are currently only applicable to MTN and Vodacom. Cell C, as a late entrant, has been granted an extension of two years for submitting its COA/CAM. Consultation with Cell C will resume in September 2006 as the two year waiver comes to an end at that time. Mobile operators (MTN and Vodacom) have submitted draft versions of their procedures manual which the Authority has approved. MTN and Vodacom are expected to file with the Authority Current Cost Accounting (CCA) Audited Regulatory Financial Statements in September 2006.

(COA/CAM) for Public Switched Telecommunication Service (PSTs) Operators Volume 3

COA/CAM for PSTS operators was finalised in July 2002, and Telkom submitted its first set of audited Regulatory financial statements in September 2004. The said financial statements were prepared on the historic cost basis. In terms of the existing regulations, Telkom is expected to submit to the Authority, six months after its financial year end, the audited Regulatory financial statements which are prepared on the Current Cost Accounting (CCA) and the Long Run Incremental Cost (LRIC) methodologies.

Telkom is therefore expected to submit LRIC regulatory financial statements by 30 September 2006.

With the application of COA/CAM regulations, ICASA will be equipped to determine the following:

- Ensure that operators do not exploit market power to earn excess monopoly profits;
- Ensure that operators do not engage in predatory pricing;
- Ensure that operators do not engage in anti-competitive cross-subsidisation;
- Ensure that operators do not price on an unduly discriminatory basis;
- Ensure that prices are cost orientated and sufficiently unbundled;
- Protect consumers by monitoring and approving tariffs and pricing regimes; and
- Monitor the financial status of operators.

Fees and Charges for PSTS Services ('Rate Regime')

The Fees and Charges Regulations¹ provide the basis for the level of charges and fees; including monthly rental; local, national, long-distance and international call charges for services offered by Telkom. The Rate Regime Regulations allow for restrictions on price adjustment proposals by Telkom² and are necessary to ensure that consumers are not unduly burdened in markets where there is minimal or no competition.

Rate Regime utilises a price cap methodology, where the overall increase in a basket of services is restricted to inflation minus a productivity factor set at 3.5% for the period 2005-2008. The maximum single price movement allowed for any item in the basket is CPI + 5%. The Rate Regime Regulation is effective for a period of three years. The first review commenced in September 2005 and the next review will commence in September 2007. The current regulations have set the level of tariffs in respect of services offered by Telkom at an efficiency factor of 3.5% over a period of three years. Telkom will file its annual tariffs 30 business days before 1 August each year.

Number Portability

Vodacom making a presentation during the Number Portability hearings

Number Portability affords telecommunications users the right to choose operators and to change location without losing their number. Ultimately this leads to the operator satisfying the telecommunications user's needs and an improved provision of cost effective services to the public by providers of telecommunications services. The Number Portability Regulation and Mobile Functional Specification Regulation have been finalised through the regulation-making process and were promulgated by the Minister in September 2005. The Authority is currently finalising the Mobile Order System Specification and Consumer Code of Practice in consultation with the Mobile Cellular Telecommunications Services (MCTS) licensees.

1. Government Gazette 22870, Notice 1248, of 26 November 2001 (Rate Regime Regulations)
2. The methodology used to restrict the increases is the price cap mechanism where the overall increase in a basket of services is restricted to inflation minus a productivity factor set at 3.5% for the period 2005-2008. The maximum single price movement allowed for any item in the basket is CPI + 5%.

The Number Portability Regulations require the introduction of mobile number portability by July 2006. At the request of mobile network operators, the implementation date for mobile number portability has been extended to 18 September 2006.

The licensing of the SNO to provide PSTS services has necessitated the commencement of the Fixed Line Block-Number Portability regulation-making process. The Authority published the draft functional specifications for PSTS in March 2006 to ensure implementation of fixed line number portability.

Mobile Pricing

Mobile Pricing hearings chaired by Councillor Cohen

In July 2005, the Authority published a Discussion Document in respect of the appropriateness of prices generally levied by Mobile Cellular Telecommunications Service Providers on consumers. The objective of the Discussion Document was amongst others to assess whether Mobile Cellular Telecommunications Services prices are excessive and whether there is a need for ICASA to intervene. A Findings and Conclusions Document will be published by the end of September 2006.

Enquiry into Handset Subsidies

In May 2005, the Authority published a Discussion Document on handset subsidies and the effect they have in the growth of the mobile market. The basis of the Discussion Document was to establish if handset subsidies were a potential barrier to consumers changing mobile operators. The Authority published the Findings and Conclusions Document in March 2006, the outcome of which was to develop draft regulations.

Interconnection and Facilities Leasing Guidelines

The Authority undertook a process of consolidating the Interconnection and Facilities Leasing Guidelines. Consolidated guidelines were published for comment and hearings were held in March 2006. Due to the awaited proclamation of the Electronic Communications Act, these projects need to have a market study

completed before regulations may be formulated. During the year under review, the following interconnection agreements were filed and approved:

• **MTN and Vodacom Interconnection Amendment Agreement No. 4**

On 6 March 2006, MTN lodged Amendment No. 4 with the Authority in terms of section 43(2) of the Telecommunications Act (Act 103 of 1996) as amended. Amendment No. 4 deals with two issues, namely an insertion of Video Telephony Call in the definition section of the agreement and an interconnection rate for Video Telephony Calls. Video Telephony Calls constitute a new service. Interconnection rates will be applicable as of 1 May 2006 or any date that the parties to the agreement may agree to.

Broad Based Black Economic Empowerment (BBBEE) Analysis of Telkom, Vodacom and MTN

ICASA is analysing the contribution of Telkom, Vodacom and MTN to black economic empowerment. The aim is to assess their compliance with the applicable BBBEE legislation.

Market Intelligence and Market Study

ICASA intends to conduct market intelligence and market studies by gathering information on the telecommunications industry. The study will inform regulatory intervention in order to determine the Significant Market Power (SMP) status and subsequently impose applicable conditions.

Licensing, Enforcement and Numbering Administration

The primary function of the Licensing, Enforcement and Numbering Administration (LENA) Department is to analyse and process applications for telecommunications service licences; monitor compliance of licensees and non-licensees against applicable regulations, legislation and their respective telecommunications service licence conditions, namely payment of licence fees and delivery on universal service obligations and administer the numbering plan to ensure fair and efficient use of telecommunications numbers for present and future generations.

During the period under review, ICASA managed a number of licensing, enforcement and numbering administration activities. (See Appendix A) Highlights included the following:

Second National Operator (SNO)

The Telecommunications Act makes provision for the granting and issuing of a licence to the SNO to provide PSTS.

The Minister of Communications granted the SNO a PSTS licence in September 2004. The integration of the SNO entity was, however completed in August 2005, comprising of Communitel, Two Consortiums, Eskom Enterprises, Transtel, Nexus Connection and TATA Communications. It was only in August 2005 that ICASA was required to proceed with the issuing of the PSTS licence to the SNO. The terms and conditions of the SNO licence were negotiated between ICASA and the SNO. On 9 December 2005, the SNO was issued with a PSTS licence.

The SNO continues to interact with the Authority on, amongst others, issues relating to the Frequency Spectrum Bands and application for numbering. The SNO has also been in consultation with ICASA with regard to the commencement date of its operations.

Second National Operator Licence hand over

Telkom Licence Amendments

The Authority embarked on a licence amendment process in terms of the Telecommunications Act, in relation to the PSTS licence held by Telkom. Telkom also applied for access to the 1800 MHz Frequency Spectrum Bands. It is envisaged that these amendment processes will be undertaken simultaneously.

Value Added Network Services (VANS)

In September 2004, the Minister of Communications promulgated Ministerial Determinations that changed the regulatory framework for VANS licensees. In line therewith, ICASA proposed a new regulatory framework for VANS and conducted public hearings in this regard. As a result of the Ministerial Determination, VANS are able to provide voice services, interconnect with other telecommunications services licensees, assign or sub-let telecommunications facilities and they also have a choice regarding whom they may obtain such facilities from. The Authority has, to date, issued 331 VANS licences.

Private Telecommunications Network (PTN)

The authority has, to date, issued 41 PTN licences.

Under-Served Area Licences (USALs)

USALs Applications Submissions

It is the aim of the government of South Africa to improve the lives of people living in under-served areas by enhancing their access to telecommunications services and creating job opportunities in these areas. This objective was enacted in section 40A of the Telecommunications Amendment Act of 2001. This section provided for a new category of telecommunications licence called Under-Served Area Licences (USALs).

The Minister of Communications declared 27 areas as under-served in a government gazette published on 18 December 2001. These are areas defined in the legislation as having teledensities of less than 5%. The licences are aimed at providing services in accordance with the provisions of the Telecommunications Act which requires that the USAL shall provide telecommunications services, including Voice over Internet Protocol (VoIP), fixed mobile services, public pay telephones and long distance calls to be transported through the trunk networks of any operators licensed to carry international traffic.

Councillors Mohlala and Zokwe during a USAL hearing

In the first phase of licensing, the following seven entities were awarded licences to service these under-served areas:

1. Bokone Telecomms (Pty) Ltd – Capricorn District – Limpopo Province;
2. Kingdom Communications (Pty) Ltd – Zululand District – KwaZulu-Natal Province;
3. Thinta Thinta Telecommunications (Pty) Ltd – Ugu District – KwaZulu-Natal Province;
4. Ilizwi Telecommunications (Pty) Ltd- OR Tambo District – Eastern Cape Province;
5. Karabotel (Pty) Ltd – Central District – Northwest Province;
6. Bokamoso Consortium (Pty) Ltd – Lejweleputswa District – Free State Province; and
7. Amatole Telecommunications (Pty) Ltd – Amatole District – Eastern Cape.

In the second phase, the Minister of Communications published an Invitation to Apply (ITA), in January 2005. The ITA listed 14 districts where applications were invited. In April 2005 the Authority

received a total of 42 applications, and public hearings were conducted in the 14 areas. These hearings were conducted until the end of March 2006.

In February 2006, the Minister published another ITA for the third phase of the USAL licensing process as per the determinations made in 2001. The closing date for submissions of applications was 28 April 2006.

New Numbering Plan

In terms of section 89 of the Telecommunications Act, the Authority developed a Numbering Plan Regulation which was promulgated by the Minister on 15 May 2006. The draft Numbering Plan was revised in order to reflect both the existing and future South African Numbering Framework. A further consideration was the licensing of the SNO, USALs, and VANS for providing VoIP. The Authority also noted the need for number relief mechanisms, and therefore the Numbering Plan will be geared to meet these numbering requirements.

Chairperson Mashile during the Numbering Plan press conference

The key benefits of the Numbering Plan are that it is neutral, non discriminatory and clearly structured. It assists in identifying various number ranges for specific telecommunication services. The benefit of the implementation of this Numbering Plan is that the Authority will be able to reserve the number ranges not in use for future growth and thereby accommodate new service demands. A proper allocation and numbering procedure, commonly referred to as the Numbering Convention is included to allow for the efficient use of numbers and the effective management of numbering capacity for the South African telecommunications industry.

Central Number Database (CNDB)

The Authority has installed a CNDB. This database houses all the numbering data applicable to the South African telecommunications industry. The objectives of the database are to:

- Manage and administer the numbering spectrum;

- Allow and enable the telecommunications industry to interact with ICASA on number related matters more effectively;
- Create a transparent numbering environment by publishing it on the ICASA website; and
- Produce Number Allocation certificates and Number Withdrawal certificates.

Access to the 1800 MHz/3G Frequency Spectrum Bands by the Mobile Cellular Telecommunication Service (MCTS) Licensees

In terms of sections 30A and 30B of the Telecommunications Act, the Authority is authorised to issue radio Frequency Spectrum licences to MCTS licensees in the 1800 MHz and 3G Frequency Spectrum bands, subject to the fulfilment of certain procedures, fees and conditions in terms thereof.

The Authority issued radio Frequency Spectrum licences in the 1800 MHz Frequency Spectrum band to Vodacom and MTN subject to them providing 5 000 000 Subscriber Identity Module (SIM) Card Connection Packages and 250 000 sets of Terminal Equipment. Both licence conditions are to be satisfied according to an implementation time-table approved by the Authority.

Vodacom and MTN also made applications for access to the 3G Frequency Spectrum bands. ICASA issued the two operators with 3G licences, subject to the condition that they each provide:

- Internet access to 5 000 public schools;
- Internet access to 140 institutions for people with disabilities; and
- Terminal equipment to 1 400 institutions for people with disabilities.

The Authority is currently considering an application by Cell C for access to the 3G Frequency Spectrum band.

Collection of the Universal Service Fund (USF)

MTN making a Presentation to ICASA

The Telecommunications Act requires all licensees to pay an annual contribution of 0.2% of their annual turnover to the USF.

Enforcement

The Enforcement Department is responsible for enforcing telecommunications licence conditions.

S v CAPETEL

This matter emanated from Cape Town as a result of the alleged provision of illegal telecommunication services by Capetel. A case had been opened with the South African Police Services (SAPS) and the matter was subsequently set down for trial wherein the defence requested to make representations to the Director of Public Prosecutions (DPP), outlining reasons why charges should be withdrawn against Capetel. A decision on whether or not to prosecute is being awaited from the DPP.

S v Avion

This matter was lodged with the Bloemfontein SAPS after allegations of illegal provision of telecommunication services by Avion. Avion has since closed its operations after becoming aware of the investigations.

S v T-SOL

This matter was lodged with the Durban Central Police Station pursuant to information of alleged illegal provision of telecommunication services by T-SOL. After the investigations had ensued, the equipment used for providing illegal telecommunication services was seized in terms of the Telecommunications Act. The police have referred the docket to the Public Prosecutor for a decision as to whether or not to prosecute.

Internet Solutions v Telkom

Internet Solutions lodged a complaint against Telkom about a refusal to enter into interconnection negotiations. Prior to the adjudication of the complaint, the parties reached an agreement on the matter without the Authority having to intercede.

Broadcasting

The Broadcasting Division is responsible for developing policy and regulations, issuing licences, and monitoring the activities of all Broadcasters. The role of the Broadcasting Division is to provide advice and support to ICASA in its legislative function and role as the Regulator of the communications sector. The Broadcasting Division licenses broadcasting services and broadcasting signal distributors; monitors compliance with licence conditions; develops standards for the content of programmes; determines limitations on advertisements; and encourages programming diversity by Public, Commercial and Community Broadcasters.

The daily activities of the Division are also influenced by the desire to promote language diversity at national and regional level in broadcasting, to set appropriate local content quotas, keep broadcasting rules up to date in the face of technological change and to promote BBBEE - in terms of ownership and control in the Broadcasting Industry. The Broadcasting Division ensures levelling the "playing fields" where rules are applied equally to all industry players. This is done against the background of the framework set by international and regional bodies to which the Authority is affiliated. There is also awareness that in order to ensure sustainable development and empowerment there is a need to harmonise regulations with other broader national government initiatives.

Policy Development and Research Department

The Policy Development and Research Department (PDRD) consists of two Units, namely, Policy Development and Projects. The responsibility of the Policy Development Unit is to conceptualise and research policies for the regulation of the Broadcasting Industry. As the process of developing policies includes public participation and consultation as one of its key features and elements, the Policy Development Unit is responsible for compiling discussion papers based upon the research conducted, which through the Projects Unit, are put into the public domain for comment and discussion. Once consultations have closed and comments are collated, the Projects Unit consolidates all information received and makes policy recommendations to Council. Once approved by Council, these policy recommendations are compiled, by the Projects Unit, into a Position Paper. The Projects Unit is also responsible for drafting broadcasting regulations.

In the year under review PDRD was engaged in the following policy development and regulatory projects:

- **Enquiry into Commercial Subscription Broadcasting Services**

The Position Paper on the regulation of Commercial Subscription Broadcasting Services was published in June 2005. The Authority

Councillors Masiza and Cohen during the launch of the Subscription Position Paper

believes that the regulation of Commercial Subscription Broadcasting Services and the introduction of more Commercial Subscription Broadcasting Services will result in a marked increase in investment opportunities in the broadcasting industry.

The ITA for Commercial Subscription Broadcasting licences, and the Commercial Subscription Broadcasting Services Regulations were published in January 2006. The deadline for the submission of applications was July 2006. The Authority hopes to finalise the licensing process by the end of March 2007.

- **Review of Community Sound Broadcasting Policy**

The Discussion Paper on the Review of Community Sound Broadcasting Policy was published in September 2005. The primary objective of the enquiry was to solicit public participation and input in reviewing the regulatory framework for Community Sound Broadcasting in South Africa, and to generate discussion on the appropriate policy and licensing framework for existing and new Community Sound Broadcasting services. The review was also aimed at growing and sustaining the Community Sound Broadcasting sector.

The Authority invited interested parties, stakeholders, and the public to respond to the issues and questions raised in the Discussion Paper. The Authority received eleven submissions. Oral hearings were held in February 2006.

- **Review of Self-Help Stations Policy**

The Position Paper on the Review of Self-Help Stations Policy was published in February 2006. The Position Paper sets a new policy and licensing framework on the regulation of Self-Help Stations in South Africa.

- **Digital Migration/ Transition Strategy**

PDRD participated in initiatives to draft and support the DoC strategy for the transition process from analogue broadcasting to digital broadcasting in South Africa. In addition, the Authority has participated in the International Telecommunication Union (ITU)

processes to develop a digital plan for Europe and Africa. Trips were undertaken to the UK, Senegal, Switzerland, and Belgium. The aim is to ensure access to both analogue and digital broadcasting services during the period of transition.

Public audience at the SABC hearings

• World Cup 2010

South Africa won the right to host the FIFA 2010™ Soccer World Cup. The government of the Republic of South Africa has signed guarantees to FIFA to ensure the success of the tournament. The DoC pledged and signed Government Guarantees in terms of Telecommunications, Information Technology, the International Broadcast Centre (the IBC), and Media.

Coverage for the World Cup is said to comprise 70% telecommunications and 30% broadcasting. This means that a substantial amount of energy and resources will have to be put in place to successfully deliver on this guarantee.

PDRD represents the Authority in the DoC-led committee that is tasked with preparing for South Africa 2010. The Authority has to look at, amongst others, the guarantee issued, satellite news gathering services (SNGs), restrictions on the import and use of transportable earth stations, the impact of the Authority's Sports Broadcasting Rights Regulations, usage of high definition television (HDTV), and all issues pertaining to the IBC and the Media Centre.

In preparation for coverage of the 2010 World Cup ICASA's team has so far taken tours to Germany and the Netherlands. The team also attended the South African Business and Investors Congress in the run-up to the 2006 World Cup in Moggengladbach, Düsseldorf, Germany in September 2005.

• Development of South African Music

PDRD continues to play a role in the development and promotion of South African music. The Authority is a member of the South African Music Industry Cooperative Initiative (SAMICI). SAMICI is made up

of representatives from the music and recording industries, ICASA, the Department of Arts and Culture (DAC), the South African Music Rights Organisation (SAMRO), the South African Recording Rights Association Limited (SARRAL), the Musicians Union of South Africa (MUSA), the Recording Industry of South Africa (RISA) and other organisations. SAMICI is responsible for organising the annual Moshito Music Conference and Exhibition.

Licensing, Monitoring and Complaints Department

The Licensing, Monitoring and Complaints Department (LMCD) consists of two Units, namely, the Licensing Unit and the Monitoring and Complaints Unit. The Licensing Unit is responsible for processing applications for Signal Distribution and Broadcasting licences for Sound and Television Broadcasting Services. This also includes applications for amendments and renewal of licence conditions.

The Monitoring and Complaints Unit is essentially responsible for protecting the public interest by ensuring that licensed broadcasters and signal distributors comply with their licence conditions. This includes control, ownership, programme content and funding. The unit, together with the Authority's Engineering Division, also ensures that broadcasters use the assigned frequencies and comply with the technical standards stipulated in their licence conditions.

The Monitoring and Complaints Unit is also responsible for receiving complaints from the public and may initiate complaints for adjudication by the Broadcasting Monitoring and Complaints Committee (BMCC). The BMCC is a standing committee, established under sections 21 and 22 of the Independent Broadcasting Authority (IBA) Act.

ICASA Panel during the SABC hearings

Licensing Unit

In the year to date the licensing unit completed the following projects. (See Appendix B for a list of licences granted):

Public Broadcasting Services

• SABC amendment process

In March 2004 the SABC applied to the Authority for an amendment to its licence conditions. The purpose of the application was to enable the SABC to reflect the reorganisation as required in terms of the Broadcasting Act. The Broadcasting Act, as amended, requires the SABC to reorganise itself into a Public Service Division and a Commercial Service Division.

The Authority published the applications and invited the public to submit representations in respect of the amendment. The Authority received 11 representations. The representations were received from, among others, e.tv, Primedia Broadcasting Limited, the Media Monitoring Project, the Media Institute of Southern Africa, Academy Movies, Y-FM, Kagiso Media, the Mafikeng Community Radio Initiative, Ingram Radio Sport Network and the Freedom of Expression Institute.

The Authority also received the SABC's response to the representations in July 2004. The public hearings in respect of the application and representations were held in September and October 2004. The draft licence conditions were published for comment in February 2005. The final amended licence conditions were issued in June 2005. With these new licence conditions, the Authority brought the SABC in line with all other broadcasters by providing them with detailed conditions, that address the mandate of all the SABC stations, be it public or commercial.

The SABC's amended licence conditions came into effect on 23 March 2006. The Monitoring and Complaints Unit is tasked with monitoring of the SABC's compliance with the new licence conditions. This Unit will publish an annual report on the SABC's compliance with the new licence conditions.

• SABC Regional Television Application

The Broadcasting Act provides that the SABC must, in compliance with its mandate, apply to the Authority within nine months of the commencement of the Broadcasting Amendment Act, to licence it to provide additional television services which are broadcast regionally. In November 2003 the Authority released the Position Paper on Regional Television. The policy framework outlined in the Position Paper paved the way for the licensing of Public Regional Television services. The Position Paper further stated that the regional television services would promote the use of marginalised languages. Programming in English would be prohibited in these services.

*SABC Board member Christine Qunta accepts
SABC Licences from ex-ICASA Chairperson Mandla Langa*

Pursuant to the Broadcasting Act and the Position Paper on Regional Television, the SABC submitted its application for two regional television channels namely SABC 4 and SABC 5 in December 2003. The Authority published the applications for comments in January 2004. The Authority received representations from e.tv and Sentech. The SABC was given an opportunity to respond to the representations. The Authority conducted hearings in the Limpopo Province and the Western Cape during October 2004. Regional Television Licences for SABC 4 and 5 were granted but not issued to the SABC in June 2005 on condition that the SABC furnishes the Authority with sufficient proof of funding.

• SABC Amendments

The Authority received four amendment applications for Lotus FM, Lesedi FM, SABC 3 and SABC Self-help stations.

Lotus FM

The Authority granted SABC an amendment application to increase the Lotus FM coverage area to include the greater Port Elizabeth area, Eastern Cape Province. In this respect the Authority approved the proposal by the SABC that a spare PBS frequency 98.3 MHz be drawn from Suurberg and be allocated to Port Elizabeth. SABC further proposed that should 98.3 MHz spare PBS frequency be granted, it could in turn be replaced with 103.9 MHz as a spare frequency in Suurberg. The ultimate objective of the amendment was to enable Lotus FM to broadcast to the largest part of the Indian community in Port Elizabeth.

Lesedi FM

The Authority granted SABC an amendment application to increase the Lesedi FM coverage area in the greater Durban area, KwaZulu-Natal Province. In this respect, the Authority approved the proposal by SABC to use a spare PBS frequency 106.6 MHz as listed in the 2004 draft ICASA Terrestrial Broadcasting Frequency Plan. The

SABC submitted that a large Sesotho speaking community resides within the greater Durban community and that the use of frequency 106.6 MHz would increase listenership of the station by 17 883 Sesotho speaking people.

SABC 3

The Authority approved an amendment application from the SABC to expand SABC 3's coverage in the area of Bethlehem and Ulundi and to upgrade the power of its Nelspruit transmitter. With respect to Bethlehem and Ulundi, the Authority approved the following additional frequencies for SABC 3: 839.25 MHz with an Effective Radiated Power (ERP) of 100 kW at Bethlehem and 231.25 MHz with an ERP of 50 kW at Ulundi. The Authority further approved the increase of ERP for SABC 3 in Nelspruit on the existing frequency, 591.25 MHz from 15 kW to 151.4 kW.

The SABC submitted that the proposed amendment was primarily aimed at the expansion of SABC 3's coverage in order to make its service available to emerging audiences in Bethlehem, Ulundi and Nelspruit areas, which according to the SABC did not have access to SABC 3.

SABC Self-help Stations

The Authority approved the establishment of 37 new television Self-help Stations in order to achieve its mandate for universal service with respect to SABC 1, SABC 2 and SABC 3 in Herschel, Mount Fletcher, Maclear, Niekerkshoop, Leliefontein, Cookhouse, De Rust, Graafwater, Kuruman, Paulshoek, Petrusville, Slang Rivier, Steinkopf, Victoria West and Wemmershoek.

Broadcasting stakeholders at a public hearing

Commercial Broadcasting Services

• M-Net amendment process

The Authority indicated, when renewing M-Net's licence in June 2002, that it had identified certain aspects of M-Net's licence

conditions that might warrant amendment in terms of the IBA Act. Accordingly, the Authority stated, in its reasons to renew M-Net's licence, that it proposed to initiate the necessary proceedings for that purpose.

The proposed amendments included, among others, deleting all reference to the "open window" therefore requiring M-Net to provide a purely encoded service available to its subscribers only. The purpose of the amendment was to ensure fair competition between licensees and compliance with such terms, conditions and obligations, as the Authority may generally impose on all licences issued in this category.

In June 2004 ICASA gave notice of its intention to effect various amendments to M-Net's licence in terms of the IBA Act, and called on interested parties to make written submissions on the proposed amendments. The Authority received representations from a number of interested parties. Hearings were held in January 2005 and again in April 2005.

Taking into account the written and oral representations made in June 2004 and March 2005, ICASA decided that M-Net's "open window" would be terminated with effect from 1 April 2007.

• Commercial Sound Broadcasting licences in Secondary Markets

The Authority is required, in terms of the IBA Act, to promote investment in the South African broadcasting industry. In 1996/7, the first phase of privatisation and issuing of new commercial licences saw licences being issued in the Gauteng, Free State, KwaZulu-Natal, Western Cape and Eastern Cape Provinces. The Authority decided, after a review of commercial broadcasting in 2003/4, that through regulated consolidation and the granting of additional Commercial Sound Broadcasting Licences, there would be a marked increase in investment opportunities in the broadcasting industry.

In line with its commitment to boost investment opportunities within the broadcasting industry, the Authority published the ITA for commercial sound broadcasting services in the secondary market in April 2005 for the Northern Cape, Mpumalanga, North West and Limpopo Provinces. The deadline for submission was set at 30 September 2005. The Authority received 11 applications for the licence in respect of the ITA. It is anticipated that hearings and decisions will be finalised by November 2006.

• Amendments

Subject to approval by the Authority, licence conditions may be amended at the request of broadcasters in terms of the IBA Act. The following amendment applications were granted during the year under review:

Midi TV (Pty) Ltd

In July 2005 the Authority granted the application by Midi TV to establish 40 Self-help Stations in order to increase access to the signal of e.tv.

Radio Oranje (Pty) Ltd

In October 2005 the Authority received an amendment application for the name change of Radio Oranje (Pty) Ltd to Seyalemoya Communications (Pty) Ltd and the shareholding amendment of Radio Oranje. Both applications were approved by the Authority in January 2006.

• Prior Approvals

Applications for prior approval to licence conditions are normally granted where the section 52 amendment application is not necessary. During the year under review the following prior approval applications were granted:

P4 Radio Cape Town (Pty) Ltd and P4 Radio Durban (Pty) Ltd

Makana Investment Corporation (Pty) Ltd owns both P4 Radio Cape Town (Pty) Ltd and P4 Radio Durban (Pty) Ltd through Makana Radio Communication (Pty) Ltd, its wholly own subsidiary. In 2005 the Authority approved an application by Makana Investment Corporation (Pty) Ltd for prior written approval for the acquisition by Tiso Group (Pty) Ltd and Kagiso Media Limited of 41.77% and 24.9%, respectively, of shares in Makana Radio Communication.

Orbicom (Pty) Ltd

Orbicom is the holder of a broadcasting signal distribution licence issued in 1999. The Authority renewed the signal distribution licence in June 2004. In 1999 MultiChoice, through MIH Holdings Limited, a 100% subsidiary of Naspers Limited sold its 100% shareholding in Orbicom to MTN. In 2005 MTN, Orbicom and MultiChoice entered into an agreement in terms of which MultiChoice was to purchase 100% shares of MTN in Orbicom. As a result Orbicom

had to apply for prior written approval in terms of clause 4 of its Signal Distribution Licence Conditions. The Authority granted the prior written approval.

Community Broadcasting Services

• Community Sound Broadcasting licences in Nodal Point areas

In November 2004, the Authority issued an ITA for four-year community sound broadcasting licences in the Nodal Point Areas in terms of the IBA Act. The ITA set out the material aspects of the application process, including the closing dates for the submission of applications, the provincial frequency plans and the application form. The ITA was published in November 2004.

The invitation for applications in the Nodal points was in line with the urban renewal strategy and integrated sustainable rural development strategy of the South African government. The deadline for submission was set at 1 June 2005 for urban applications and 30 October 2005 for rural applications. Four applications were received for stations in urban areas and 15 applications for stations in rural areas. The hearings were held in March and April 2006.

• Special Event Applications

Special Event Licences are granted to non-profit entities for purposes of broadcasting community events or festivals over a short period of time not exceeding 30 days. Special Event Licences are not renewable.

During this period the Licensing Unit received 49 applications for special event licences. Of these 40 were granted and nine applications were refused. (See Appendix B)

Four Year Licences

• Review Application Process

The Authority granted one Four-year Community Sound Broadcasting Licence to Link FM. Link FM applied in 1997 for a Four-year Community Broadcasting Licence in respect of

frequency 97.1 MHz in licence area 170 and the application was refused by the Authority. Link FM subsequently instituted review proceedings in the High Court of South Africa, the Eastern Cape Division. The High Court found in favour of the applicant and directed the Authority to hear the matter afresh. After considering the application the Authority decided to grant Link FM a Four-year Community Sound Broadcasting Licence, as it then met the necessary requirements.

• **Renewal**

The Authority received and granted renewal applications for Four-year Community Sound Broadcasting to Radio Alpha, Radio KC, Graaff-Reinet, UCT Radio and New Pan-Hellenic.

In terms of the IBA Act, the term of validity of a Community Sound Broadcasting Licence is four years. The broadcaster must apply for the renewal of its licence not earlier than six months and not later than three months before the expiry of such a licence. The IBA Act provides that the Authority shall refuse an application for the renewal of a broadcasting licence only if the licensee has failed to materially comply with the licence conditions, and the Authority is satisfied that the applicant would not so comply if its licence were renewed.

Stakeholders during the launch of the Community Radio Invitation to Apply

• **Amendments**

The Authority received and granted amendment applications from the following community sound broadcasting licensees: Greater Middelburg Community Radio and Radio Shimla. Radio Hindvani's application was refused.

Greater Middelburg Community Radio

Greater Middelburg Community Radio applied for an amendment to use Sentech Ltd as its signal distributor as opposed to providing its own Category 3 Signal Distribution Licence. The licensee submitted that its signal was poor or could not be received in the South Eastern parts of its licence area in areas such as Witbank/Emalahleni, Clevers, Lemmerkop, Hendrina, Loskop Mosesdal and some newly built up areas.

Radio Shimla

Radio Shimla applied for an amendment to use Sentech as its signal distributor as opposed to providing its own Category 3 Signal Distribution licence and to change its transmission site from the Sasol Library Building at the University of the Free State's main campus to a Sentech transmitter site at Naval Hill, Bloemfontein. The licensee further applied for an increase of its ERP from 20 Watts to 100 Watts and to change the station's name from Radio Shimla (RSFM) to Kopsie FM.

Radio Hindvani

Radio Hindvani applied for an amendment to relocate its transmitter from the Durban site to the Durban North site as well as an increase of its ERP from 0.25 kW to 3kW. Radio Hindvani further applied for an additional frequency (97.0 MHz) at the Pietermaritzburg site, which was refused. The licensee submitted that the amendment would assist Radio Hindvani in carrying out its mandate to provide a service to the Hindu community and to ensure that there is access to its services by their target community within the Durban Metropole and surrounding areas.

• **Low Power Licences**

The Authority invited applications for Low Power Sound Broadcasting Licences in February 2005. Subject to the approval of the Authority, Low Power Sound Broadcasting Licences are issued to cover small areas. The IBA Act defines a low power sound broadcasting service as a community, private or public sound broadcasting service which radiates power not exceeding 1 watt.

During the year under consideration the Authority granted Low Power Sound Broadcasting Licences to Kriel Info Radio, Voice of Wits and Radio Puk.

• **Test Licences**

The Authority receives and considers applications for Test Licences from any person, natural or juristic, for the purposes of testing new technologies or technology innovation within the broadcasting sector. This is in line with the provisions of the IBA Act which, amongst others, encourages the promotion of research into broadcasting policy and technology. The duration of the test licence is limited to twelve months and the licensees are obliged to furnish the Authority with a report that captures the test results.

Applications for Test Licences were granted to M-Net/MultiChoice for a DVB-H Test Licence and Q Digital Cable Vision for a Cable Television Test Licence.

M-Net

The Authority granted M-Net the Test Licence to conduct Experimental Mobile Television Transmissions (DVB-H) in August 2005 for a period of twelve months.

Q-Digital Cable Vision

In 2005 the Authority granted Q-Digital Cable Vision a licence to test a combination of Hybrid Fibre Coaxial Television technology system solutions to deliver video and data services. The network would also allow the system to have high spectral efficiency, a robust resistance to noise, and exceptional flexibility to deliver a multitude of premium digital services such as video on demand, voice and commercial data transport.

Monitoring and Complaints Unit

ICASA's Monitoring and Complaints Unit (MCU) is divided into two sections. The Monitoring Section is responsible for monitoring compliance by licensed broadcasters with the IBA Act; the Broadcasting Act, as amended, relevant regulations and licence conditions. The Complaints Section is responsible for the receipt, processing and prosecution of complaints. This section further plays the role of Registrar of Complaints for the BMCC.

*Election Monitors during the 2006
Local Government Elections*

• Monitoring

A major component of the Monitoring Unit's work is the monitoring of licensed broadcasters and compilation and publication of monitoring reports. The monitoring process involves the comparing of the actual performance of a broadcaster with the criteria set out in the licensing conditions, regulations and the applicable legislation. Reports on the performance of licensees are sent to Council and the Licensing Unit on a regular basis. They are also used when considering renewal or amendment of applications. Monitoring visits are undertaken when a broadcaster is experiencing difficulties with compliance or has just commenced its broadcasting services. During the period under review, monitoring officers produced and published 163 reports.

In addition to publishing monitoring reports the monitoring section conducted 35 monitoring visits during this period.

Monitoring visits

Province	Commercial	Community
Gauteng	2	6
Mpumalanga		1
KZN	2	5
Eastern Cape	1	6
North West		2
Free State		3
Western Cape		7
TOTAL	5	30

• Complaints

The Complaints Section manages about 10 - 15 complaints a month. On receipt of any complaint, the unit either investigates the complaint or refers it to another relevant authority such as the Broadcasting Complaints Commission of South Africa (BCCSA) or the Advertising Standards Authority (ASA). The average time for assessing a complaint from receipt to finalisation is between three to four weeks.

During the period under review, the Complaints Section received 69 complaints.

• **Broadcasting Monitoring and Complaints Committee (BMCC)**

The BMCC is a standing committee of Council established in terms of the IBA Act, 153 of 1993. The BMCC adjudicates complaints that have been referred to it by the MCU and considers matters of policy relating to compliance of broadcasters. The membership of the BMCC now comprises of Advocate Jules Browde, SC (Chairperson); Ms Irene Baloyi; Mr Yaswant Gordhan; Advocate Fayeeza Kathree; Ms Irene Menell; Ms Keneiloe Mohafa; Dr Sophia Mosime; Prof Nomvula Mtetwa; Advocate Mhlaliseni Mthembu; Prof Nomvula Mosime; Ms Renee Smith and Prof Tina Uys. The Councillor representing ICASA is Councillor Nadia Bulbulia.

Ms Keneiloe Mohafa resigned in November 2005.

A BMCC hearing in session

On receipt of a complaint the broadcaster involved is requested to respond to the complaint within three working days. In the event that the complainant is not satisfied with the response given by the broadcaster, the matter is referred to the Chairperson of the BMCC to decide whether it warrants a BMCC hearing or not. Should the Chairperson decide that the matter warrants a formal hearing, the BMCC, represented by no less than three members, convenes to adjudicate the complaint.

The BMCC normally meets on a quarterly basis or at such intervals as it may deem necessary. During the year under review, the BMCC held meetings in April, August, September, November 2005 as well as in February 2006. Hearings were held in respect of the following broadcasters:

Radio Lichtenburg

On 21 September 2005 the BMCC heard a submission made by the Association of Voluntary Workers of Radio Lichtenburg which lodged a complaint against the station. The complaint included allegations relating to failure by Radio Lichtenburg to convene an AGM, lack of community participation, failure to keep programme recordings, lack of gender equity on the Board, broadcasting of

Radio Pretoria's programmes and refusal by the Board to hold meetings with the Voluntary Association.

The BMCC found that Radio Lichtenburg had contravened its licence conditions and recommended to the Authority that a fine of R2 000.00 be imposed, payment thereof would be suspended until September 2006 on condition that no further contraventions of the allegations take place during that period.

Radio Lichtenburg BMCC hearings

Radio Grahamstown

On 22 September 2005 the BMCC held a formal hearing against Radio Grahamstown for alleged failure to furnish its audited Financial Statements in terms of its licence conditions and furnish log sheets of all programmes broadcast in a form acceptable to the Authority.

The BMCC recommended that the station be called upon to furnish the required log-sheets and the audited Financial Statements for the last financial year by the last day of September 2005. Since the contraventions were seen in a serious light and prevented the MCU from properly monitoring the station, a fine of R2 000.00 was imposed. However, the fine was suspended pending the submission of financial statements and log sheets to the Authority by the station.

South African Jewish Board of Deputies vs. Voice of the Cape

On 22 September 2005 the BMCC held a formal hearing on a complaint lodged against Voice of the Cape by the South African Jewish Board of Deputies.

The South African Jewish Board of Deputies complained that on 10 September 2004 a programme entitled "Religion on Friday" contained a number of deeply offensive and hurtful attacks on Jews and Jewish religion.

The BMCC ruled that the station apologise unreservedly and unequivocally on air for any offence caused to the Jewish community as a result of the broadcast.

Radio Graaff- Reinet

On 22 December 2005 a BMCC hearing was held in respect of a complaint relating to non-compliance by Radio Graaff-Reinet with its licence conditions. The MCU alleged that the station failed to furnish the Authority with an agreement from Sentech to provide the station with its signal distribution. The station failed to submit audited Financial Statements in accordance with Generally Accepted Accounting Practice (GAAP) and failed to hold an AGM to ensure community participation.

The BMCC recommended the immediate suspension of the licence issued to Radio Graaff-Reinet. The suspension was effective until the end of January 2006. Radio Graaff-Reinet was ordered to conclude a signal distribution contract with Sentech and to convene a Special General Meeting. It further ordered that the community be properly informed of the meeting, its date, time and venue, and that the community must elect a competent Board to replace that which had demonstrated incompetence. These conditions were to be met before the end of January 2006. In the event that the station fail to comply with these conditions within the stipulated period, the BMCC recommended that the licence be revoked.

Maritzburg Radio

On 12 December 2005 a hearing took place into the broadcaster's admitted breach of its licence conditions which state that, the licensee must broadcast for 24 hours per day or such lesser period as may be approved by the Authority and that the licensee must broadcast continuously during the licensed programming hours and may not stop broadcasting unless due to factors beyond its control or with the written consent of the Authority.

The station was given a final opportunity to solve its problems by the end of January 2006. The condition imposed was that the Golden Horse Casino, potential funder of the station, must provide a satisfactory written undertaking that would convince Sentech to resume its signal distribution services to the station, to assist the station to restore the working conditions of the broadcast equipment and also to provide the station with its necessary running expenses until the end of June 2006. Should the station fail to achieve this agreement by the end of January 2006 its licence would be revoked.

• 2006 Local Government Elections

The 2006 Municipal Elections were held on 1 March 2006. ICASA is empowered in terms of the IBA Act to monitor Party Election Broadcasts (PEBs), Political Advertisements (PAs), and the equitable treatment of political parties by broadcasting licensees during the election period.

The MCU was tasked with the monitoring of the broadcasters' coverage of the elections. The MCU employed 23 temporary

monitoring officers for the purposes of this project. The monitoring of elections commenced on 23 January 2006 and was completed on 10 March 2006.

Drawing of lots for Political Parties

Law, Communications, Consumer Protection and Council Support

This division comprises Law, Communications, Consumer Protection and Council Support (LCCC).

Law

With the core function of the Authority being licensing and rulemaking, the Legal Department plays a key support role. This role is mainly in the form of provision of legal advice on various issues ranging from broadcasting law, telecommunications law, constitutional and administrative law, drafting and/or vetting of regulations and contracts and management of litigation.

The Legal unit also provides legal support to Council, BMCC, management and committees of Council.

Islamic Unity Convention v ICASA and the South African Jewish Board of Deputies (Constitutionality)

In June 1998, the Jewish Board of Deputies lodged a complaint against the Islamic Unity Convention, broadcasting as Radio 786, in which it was alleged that a certain broadcast contravened the Code of Conduct for broadcasters in that amongst others, it denied the occurrence of the holocaust of Jewish people by the German Third Reich. Radio 786 then instituted various proceedings which ultimately led to the Constitutional Court ruling that the provision of the Code of Conduct for broadcasters under which the complaint was lodged was unconstitutional in that it offended the provisions of section 16 of the Constitution which deals with the right to freedom of expression. The Constitutional Court held that in adjudicating the complaint, the BMCC must use the test contained in section 16(2) of the Constitution, which deals with unprotected speech. The BMCC subsequently made the necessary arrangements for the adjudication of the complaint, which was scheduled to be heard from 13 to 17 March 2006. Radio 786, however, subsequently instituted a constitutional attack against various provisions of the IBA Act. A hearing date has not yet been allocated by the Registrar of the Witwatersrand Local Division.

Islamic Unity Convention v ICASA and the South African Jewish Board of Deputies (Urgent Application)

Subsequent to the BMCC setting the hearing for the complaint lodged by the Jewish Board of Deputies in June 1998, which was scheduled to be heard from 14 to 17 March 2006, the Islamic Unity Convention launched an urgent application at the Witwatersrand Local Division to have the hearing postponed primarily for the reason that there was a pending constitutional attack on the provisions of the IBA Act under which the complaint was to be adjudicated and that it was not in a position to defend itself against the complaint as it did not have the "charge sheet" or allegation of contravention.

On 9 March 2006 the court dismissed the application with costs and directed that the BMCC hearing should proceed as previously scheduled. The Islamic Unity Convention has applied for leave to appeal against the decision. The BMCC proceeded with the hearing as scheduled but the Convention "walked out" of the proceedings and the complaint was adjudicated in their absence. The BMCC has reserved its judgment.

Otherchoice v ICASA and MultiChoice

The declaratory application in which Otherchoice t/a Don't Panic TV sought an order from the High Court, Transvaal Provincial Division *inter alia*; that it is not required to hold either a broadcasting licence or broadcasting signal distribution licence, in terms of the broadcasting legislations, was dismissed with costs. Otherchoice then launched an application for leave to appeal against the decision, which was later abandoned.

Goodnews Community Radio v ICASA and Izwi Lomzantsi

Goodnews Community Radio (GNCR) review application against ICASA's decision not to grant it a Four-year Community Sound Broadcasting Licence at the Durban Local and Coastal Division of the High Court was dismissed with costs. Goodnews Radio then applied for and was granted leave to appeal to the full bench of the Natal Provincial Division held at Pietermaritzburg. The appeal was dismissed with costs. GNCR has since filed a notice for condonation for appealing after being out of time and a special leave to appeal to the Supreme Court of appeal.

Muslim Community Broadcast Trust v ICASA and RAU Radio

The Trust instituted review proceedings against ICASA's decision not to grant it a Four-year Community Sound Broadcasting Licence at the Witwatersrand Local Division. The court dismissed the Trust's review application with costs and upheld the Authority's decision to grant the licence to RAU radio.

IFM 102.2 v ICASA v Kathorus

IFM instituted review proceedings against ICASA's decision to refuse the granting of a Four-year Community Sound Broadcasting Licence at the Witwatersrand Local Division. The court set aside the decision of ICASA to grant the licence to Kathorus Community Radio and directed that ICASA must reconsider both IFM and Kathorus's applications afresh.

Radio Rippel v ICASA

Radio Rippel instituted review proceedings against ICASA's decision to refuse the granting of a Four-year Community Sound Broadcasting Licence, at the Transvaal Provincial Division. A hearing date has not yet been allocated on the matter.

Vaal Community Radio (VCR) v ICASA

VCR instituted review proceedings against ICASA's decision to refuse the granting of a Four-year Community Sound Broadcasting Licence at the Transvaal Provincial Division. The parties reached an out of court settlement, which was subsequently made an order of court.

Radio Pretoria v ICASA

Radio Pretoria instituted review proceedings against ICASA's decision to refuse the granting of a Four-year Community Sound Broadcasting Licence at the Transvaal Provincial Division. Subsequent to the hearing date, the court re-opened written arguments on the matter. The court dismissed Radio Pretoria's review application with costs and upheld the Authority's decision. Radio Pretoria applied for leave to appeal against the court's decision. The Authority decided not to oppose the appeal by Radio Pretoria so as to expedite the hearing of the matter at the Supreme Court of Appeal. The parties are in the process of filing the relevant court papers.

Impact Radio v ICASA

Impact Radio instituted review proceedings against ICASA's decision to refuse the granting of a Four-year Community Sound Broadcasting Licence, which was granted to Mams Community Radio. The parties have reached an out of court settlement.

Bay FM v ICASA

Bay FM instituted review proceedings at the Witwatersrand Local Division against ICASA's decision not to grant it a Four-year Community Sound Broadcasting Licence and also applied for interim relief allowing it to continue with its broadcasting activities pending the hearing of the review application. The parties are awaiting the allocation of a hearing date by the registrar of the court.

Telkom Limited v AT&T, ICASA and IBM

The matter was set down for 13 September 2004 and by agreement between the parties, was postponed *sine die*. Telkom also withdrew its application and the relief it sought against IBM. Telkom has, hitherto, not set the matter down for hearing of the review application.

Aerosat cc v ICASA and Two Others

Subsequent to the Port Elizabeth High Court dismissing with costs the application launched by Aerosat, Aerosat applied for leave to appeal against the decision in June 2005. A hearing date into the application for leave to appeal has not yet been allocated by the Registrar. In an attempt to exert pressure on Aerosat, an application to uplift the stay of the operation of execution of the order, and granting ICASA an order to destroy the impounded equipment, was served to the attorneys of Aerosat. The application prompted an immediate response from Aerosat and a proposition was made to the effect that Aerosat is prepared to withdraw its application for leave to appeal. The Port Elizabeth High Court judgement stands, that the equipment seized, be disposed of and that the proceeds of the disposal be kept in an attorneys trust account pending taxation of the bill of costs. The parties are still negotiating the terms.

AMT Trading 109 BK v ICASA

The applicant launched an application to compel the Authority to issue 1 000 labels to affix to Samsung Model E700 cellphones. The cell phone handset in question had already been type-approved by the Authority in favour of Samsung South Africa. The parties agreed to hold the matter in abeyance pending the applicant furnishing the Authority with an Electro-Magnetic report, safety report and Radio Frequency report. The applicant has not provided this information and has been issued with an ultimatum to comply or withdraw its application.

Startrack Communications Africa (Pty) Ltd v ICASA

In 2001 the Authority received an application for a licence from Startrack which was subsequently refused. Startrack then launched an urgent application for interim relief permitting Startrack to use the radio frequencies 1525 to 1559 MHz and 1626.5 to 1660.5 MHz pending the final determination. The application for interim relief was not opposed by the Authority, however the main application was and is still opposed by it. Negotiations between the parties were initiated and it was agreed that the Applicant should apply for a VANS Licence, type-approval of its MT 2000 mobile satellite data gathering system terminal, and a Spectrum Licence and make use of a satellite space segment. Startrack has applied for the necessary licences. The type-approval in respect of its MT 2000 mobile satellite data gathering system terminal as well as the application for a VANS licence have been granted.

Tetramobile Radio v ICASA

Tetramobile brought an urgent application at the Pietermaritzburg High Court for an order interdicting and restraining the Authority from seizing the Applicant's equipment due to its alleged failure to pay outstanding licence fees amounting to R1, 3 million. The matter was due to be heard on 19 August and 21 September 2005 and was postponed at the instance and request of Tetramobile and tendered the costs occasioned by such postponements. The matter was again set down for hearing on 9 December 2005 and the parties reached an out of court settlement which included Tetramobile paying an amount of R1,3 million in outstanding licence fees.

MTN v ICASA and Cell C

MTN launched review proceedings against ICASA's decisions at the Witwatersrand Local Division in respect of Cell C's roll-out plans on its community service telephones in areas it deemed not to be under-served as they were mainly situated in urban areas. ICASA

has by agreement withdrawn its opposition of the matter and has filed the record of the proceedings sought to be reviewed.

Cell C v MTN

Cell C has instituted proceedings against MTN in the Johannesburg High Court for an order declaring *inter alia*; that a call which originates from a Community Service Telephone installed by Cell C in an under-service area in accordance with a roll out plan approved by ICASA constitutes a Community Service Call for the purposes of the interconnection agreement concluded between Cell C and MTN. ICASA has been cited as an interested party.

Vodacom (Pty) Limited v ICASA and Another

Vodacom instituted proceedings to have the regulations, which amongst others, declared it a major operator, set aside as being invalid. The Authority took a decision to oppose the application on the basis that the application has been brought prematurely as the Authority has not as yet taken any decision on declaring the applicant a major operator. Vodacom has proposed a settlement which the Authority is considering.

Newsforce (Globecast) v ICASA and Telkom

Newsforce instituted review proceedings at the Witwatersrand Local Division against ICASA's decision to dismiss its points *in limine* raised against Telkom's complaint that it provided an International Telecommunication Service, without the necessary licence in terms of the Telecommunications Act. Newsforce has filed a further set of affidavits to which the Authority has to respond.

COPASA v ICASA and Cell C

COPASA instituted review proceedings against ICASA's decision to stay the hearing of a complaint pending the outcome of a review application launched by MTN against Cell C in respect of the latter's under-served area roll out of community service telephones. COPASA subsequently withdrew all the relief it sought against ICASA but did so without tendering the costs. The matter was heard from 8 to 11 February 2006, including the question of costs. Judgment has been reserved.

Nothnagel v Raod Accident Fund (RAF) and ICASA

ICASA was served with a third party notice by the RAF, in accordance with the Uniform Rules of the Free State High Court, wherein a spouse of a late ICASA employee sought to join the RAF and ICASA in an action, where she is seeking compensation for loss of support as a result of a motor vehicle accident in which her husband died. The matter was deferred to ICASA's insurers at the time of the accident, who are opposing the matter. A trial date has not yet been allocated.

Len Marshall v ICASA

Mr Marshall instituted action for the purported recovery of an

amount to R95 982 in respect of an alleged over-payment to ICASA for licence fees. ICASA is defending the matter. The matter was set down for trial on 5 December 2005, but was postponed at the request of Mr Marshall and a new date is yet to be allocated by the Clerk of the Court.

ICASA v IMVO Technologies

ICASA has instituted review proceedings to have a tender issued to IMVO Technologies set aside due to several procedural irregularities. IMVO Technologies is opposing the matter.

ICASA v Roswika Digital Solutions (Arbitration)

ICASA terminated a contract it has with Roswika Digital Solutions resulting in the cancellation being referred for arbitration by the parties to the Arbitration Foundation of South Africa. The parties have agreed to suspend the arbitration pending an application by ICASA to have the contract set aside by the court.

ICASA Logo

The Registrar of Trademarks has finally approved the ICASA logo as a trademark. It was published in the journal of trademarks for three months for public comment. No objections were received from members of the public and the registration process is now completed.

Consumer Protection

The 2005/6 financial year was focused at ensuring increased interaction with consumers. The department reached out to the poorest of poor communities.

Public Awareness and Education

The department continues to conduct outreach programmes in connection with the developments that are taking place in the Communications Sector. Partnerships have been built with ICT stakeholders and government departments; youth associations; organisations for people with disabilities and local municipalities in all provinces. Material has been developed and printed in all official languages.

Pamphlets have been distributed among communities and ICASA has now seen a reduction in the numbers of complaints pertaining to commercial mobile payphones.

Braille Material

In order to provide access to information for the blind, some of the education material has been converted to Braille. The pamphlet educates the blind about their rights with regards to the provision of telecommunication services.

Type-approved Phones

The department has developed material informing the public about the importance of ensuring that any telecommunications equipment that they purchase has been type-approved by ICASA. Type-approval ensures that the equipment meets the required safety standards and that there is a guarantee of after sales service. The exercise has resulted in many businesses reporting non-compliance.

Radio Interviews

Interviews were conducted on Community Radio throughout the country on 93 occasions during the financial year. This means of communicating has now become well established and is set to continue.

People with Disabilities

The Department, together with mobile operators and the fixed operator, conducted workshops with organisations representing people with disabilities aimed at educating them about services that are available. The problems that were highlighted were associated with access to assistive devices. This problem has been brought to the attention of the Universal Service Agency, which is charged with the administration of the Universal Service Fund. The Authority and all operators, both broadcasting and telecommunications, signed a Code of Conduct aimed at improving access to services and information to people with disabilities. The signing of the code has been seen as a milestone by the Authority and all other stakeholders.

Road Shows

Road Shows were held in all provinces. The highlight for the past year was a road show in Mount Fletcher in the Eastern Cape. The Department and operators, both telecommunications and broadcasting, were exposed to communities who had still not seen a TV and had never made a telephone call. We hope this area will benefit from the accelerated growth and development initiative. Access to telecommunications services continues to be a problem for communities in rural areas.

Research and Complaints Handling

• Research

Call Barring Facility

Research was conducted on the call barring facility service provided by the mobile phone operators. Meetings were held with representatives from mobile phone operators. This was in an effort to get a thorough understanding of how call barring is implemented by the operators after complaints received from the public. A comprehensive report has been prepared in this regard.

Telkom's Public Payphones

Members of the public complained that Telkom telephones did not give change. The problem was first tested randomly and confirmed. The research officer then undertook in-depth research on the matter in all provinces. The outcome of the research were that Telkom public payphones were found to be problematic in all but two provinces. A meeting was then scheduled with Telkom where the problem was discussed. Telkom alluded to there being problems with regard to their public payphones. A proposal on how the problems can be resolved by Telkom is awaited.

• Complaints Handling

Analysis of Complaints Brief Synopsis

Number of complaints received during this financial year: 708

Number of complaints/files closed: 295 (42%)

Number of complaints/files pending: 413 (58%)

Number of complaints/files brought forward from the previous financial year: 79

Total Number of complaints handled during this financial year: 787

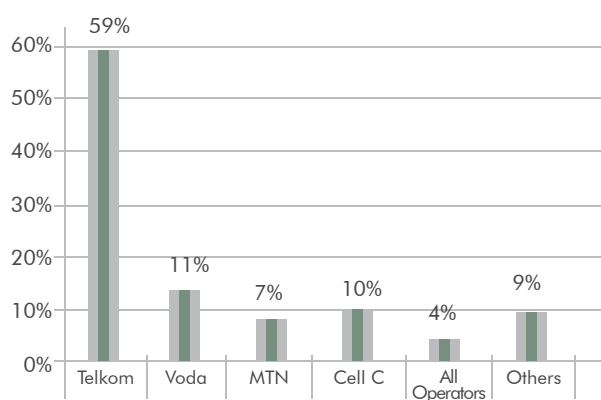

During this financial year the Authority experienced an increase in complaints relating to the following:

- Telkom's Fault Reports which were, according to Telkom's explanation to the department, caused by heavy rains, the latter which also caused delay in fault clearance response time;
- Telkom's inability to meet customer needs for service installation and/or lines transfer within a specific time; and
- Telkom's new pricing methods on ADSL.

The Authority also experienced complaints against Mobile Operators regarding their terms of contracts.

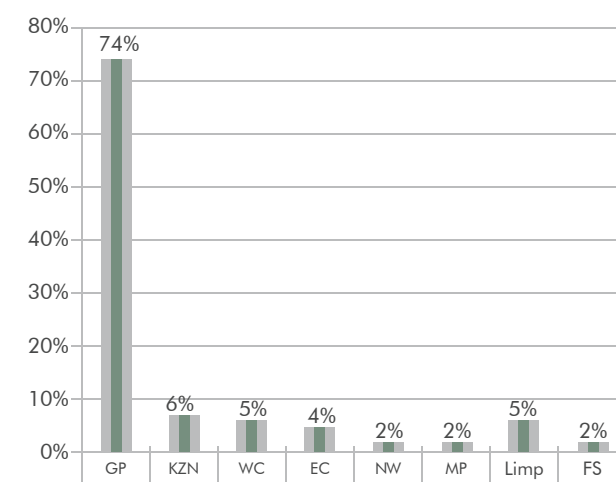

Distribution of complaints across different operators:

Telkom	Vodacom	MTN	Cell C	All Operators	Others
422	79	50	64	30	63
59%	11%	7%	10%	4%	9%

Distribution of complaints across provinces:

GP	KZN	WC	EC	NW	MP	Limp	FS
524	39	37	28	18	16	29	17
74%	6%	5%	4%	2%	2%	5%	2%

Distribution of complaints across the MAIN complaints categories:

Complaint Category	No. of Complaints
1. Telkom's Fault Reports	88
2. Telkom's Service Installation & Line Transfer complaints	64
3. ADSL Pricing	218
4. Misleading Marketing/Advertising Practices (Telkom's Home DSL)	18
5. Contractual Terms (Mobiles)	48

Communications

The Communications Department provides marketing and branding support functions to ICASA, both internally and externally. The department is responsible for stakeholder relations and management.

Councillors bidding farewell to ex-Chairperson Langa

During the year under review, the department was involved in the following activities:

Media Liaison

Media Liaison entailed providing the mainstream and regional media houses with information regarding ICASA's regulatory activities. Key activities included:

- Arranging media interviews for Councillors, Committee Chairpersons and Project Managers;
- Media briefings on contentious regulatory activities such as the Rate Regime determinations for Telkom and the issuing of the SNO licence;
- Media breakfasts such as on the issuing of the SABC's new broadcasting licences for public and commercial services;
- Press releases and responses to media coverage and enquiries;

- Placement of advertorials in industry publications; and
- Placement of advertisements about public hearings, the 2004 General Elections and the 2006 Local Government Elections.

Industry Exhibitions and Events

The Communications Department represented ICASA in industry exhibitions and events and distributed promotional material at the following events:

- Minister's Budget Speech;
- Science, Engineering and Technology Week;
- FUTUREX;
- World Telecoms Day;
- Media Tech;
- SatCom Africa;
- World Summit on the Information Society;
- Sangonet; and
- The DoC Colloquium.

Stakeholder Relations

Stakeholder's meeting

The department hosts stakeholder meetings and functions and maintains a database of telecommunications and broadcasting industry players. Stakeholders are regularly kept abreast of ICASA's activities through invitations to public hearings, press conferences and other events. Highlights of the year include the following:

- The Farewell Function for outgoing Chairperson, Mandla Langa, which also served as a stakeholder meeting for 2005 in which the industry was briefed about the ICASA's projects for the year;
- Presentations about ICASA's activities to international delegations visiting South Africa on fact-finding missions regarding the regulation of telecommunications and broadcasting;
- Receipt of and re-routing of enquiries from licensees and the public regarding ICASA's activities via the telephone or the ICASA website;
- Commissioning the re-design of the ICASA website, and updating content regularly in line with the ICASA's regulatory activities;

- Branding ICASA's public hearings and distributing promotional material at all outside venues across the country; and
- Co-ordinating the photographing and filming of ICASA's regulatory activities for the purposes of developing a gallery, organisational publications and for archives.

Internal Communications and Events

Take a Girl Child to Work Day

The Communications department is responsible for all internal communications and events that contribute to employee wellness and morale through the distribution of corporate gifts, the hosting of functions and events as well as the publication of an internal newsletter. The following events were hosted for the year under review:

- Family Day to facilitate interaction between staff and their colleagues' families, for both the head and regional offices;
- "Take a Girl Child to Work" programme;
- Outgoing Chairperson, Mandla Langa's farewell function for staff members;
- Women's Day celebrations;
- 16 Days of Activism Against Women and Child Abuse;
- World AIDS Day; and
- Year-end function for staff.

Apart from hosting internal events, internal communication activities also included:

- Publishing and distributing an internal Newsletter, Izindaba@ICASA to staff on a quarterly basis;
- Managing subscriptions to newspapers and industry publications for ICASA's Council and management to keep abreast of industry developments both locally and internationally;
- Branding ICASA reception areas and boardrooms, both at head and regional offices; and
- Facilitating interaction between staff and Council and management through the use of suggestion boxes and staff meetings.

International Relations

Zambian Delegation Visit

The core activity of the International Relations department is co-ordination of participation and representation of ICASA at industry related regional and international events, hosting study visits from other regulators and the arrangement of all logistical support.

ICASA plays a key role in African and Southern African regulatory activities. It holds strategic positions in both African Communications Regulatory Authorities Network (ACRAN/RIARC) and Telecommunications Regulatory Association of Southern Africa (TRASA) as Board Members as well as holding positions in Working Committees. During the year under review, Committees worked on changing the constitution of TRASA to align it with the converged environment of the communications industry. As TRASA recognises the importance of acknowledging that dealing with telecommunications issues solely will put it in a precarious position as most of the regulators in the region regulate both broadcasting and telecommunications, it was necessary also to redraft its strategies to accommodate these changes. ICASA is tasked, with four other regulators, to redraft the strategic plan and work on a new vision and mission of the new organisation.

ICASA as a regulator of both Broadcasting and Telecommunications, is also a member of other international organisations such as RIARC, which is a continental organisation, IIC, SABA, CTO and others.

Under the leadership of the DoC, this unit also participates at the ITU meetings. ICASA participated in all the preparatory meetings that preceded the Second Phase of the World Summit on Information Society (WSIS), and the summit itself, which produced the following documents adopted by Heads of State in Tunis:

- Geneva Declaration of Principles;
- Geneva Plan of Action;
- Tunis Agenda for the Information Society; and
- Tunis Commitment.

Under its bilateral relations programme, ICASA hosts study tours from its sister organisations offering technical support to countries which are beginning to form regulators or with technical support in subjects like monitoring and other spectrum related issues.

During the year under review, ICASA participated in the following international/regional activities:

- **TRASA**

- TRASA/Catia Training Workshop;
- TRASA Executive Committee and Nettel@africa Governance Body;
- TRASA and Nettel@Africa;
- Spectrum Management Workshop;
- Policymakers' workshop: co-hosted by the DoC and ICASA;
- TRASA Executive meeting; and
- 9th TRASA AGM.

Chairperson Mashile as a panelist at SatCom Africa 2006

- **International Telecommunications Union (ITU)**

- 6th Forum on Telecommunication Regulation in Africa;
- Regional information meeting in 2006 (RRC-06);
- Regional Preparatory Meeting for the World Telecommunications Development Conference Regional (WTDC);
- Training course for Regulators prepared by the ITU for the Executive level on "Effective Regulation in a Broadband world";
- 6th annual Global Symposium for Regulators (GSR);
- Planning working Group for RRC-06;
- Internet Governance Forum;
- Working Party of Intersessional Planning Group;
- Workshop on interconnection access and price regulation; and
- World Telecommunication Development Conference 2006 (WTDC-06).

- **World Summit on Information Society (WSIS)**

- Second phase of WSIS
- 3rd Prepcom - WSIS

- **Broadcasting related meetings and events**

- 3rd AMARC Africa Pan African Conference;
- IIC 36th AGM and regulators forum;
- SABA, Arusha ; and
- SABA/MISA meeting: Broadcasting and ICT Regulation.

- **RIARC**

- RIARC/ACRAN Conference.

- **Other Meetings**

- Utility regulation and strategic training Programme;
- Wireless Local Area Network (Wlan) Technology Workshop;
- East and Southern Africa Regional Branch of International Council on Archives (ESARBICA) General Conference;
- Equality and Empowerment of Disadvantaged People;
- Third Annual Conference and General Assembly of the African Forum for Utility Regulators (AFUR);
- German Regulatory Authority (RegTP) Conference on flexibility in spectrum management;
- Research trip to Hong Kong;
- German research trip;
- Workshop on Developing and opening up of ICT infrastructure in West and Central Africa; and
- DRC: Covering elections through Community Radio.

- **Bilateral Meetings**

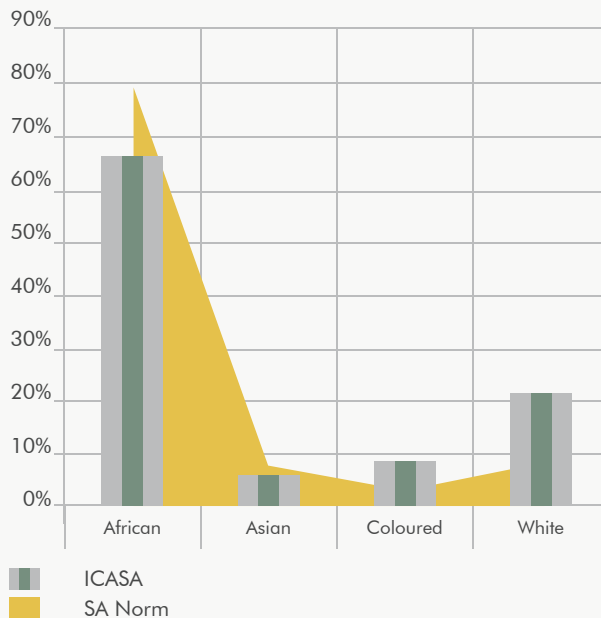

- Ethiopian Broadcasting Authority; and
- Federal Communications Commission.

Human Resources

At the end of March 2006, ICASA employed a total of 284 permanent employees, 14 temporary employees, 14 fixed term contract employees and 4 interns.

A comparative analysis of ICASA's demographics as at 31 March 2006, against the official Census 2001 statistics of race distribution within South Africa, reveals the following:

Figure 1: Comparison of ICASA race statistics to the South African official population statistics

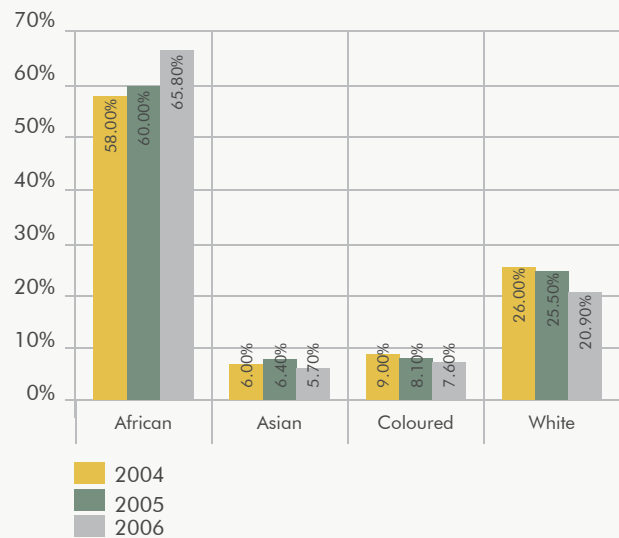

ICASA is endeavouring to achieve a workforce that mirrors the representation of the demographics of South Africa, and as such the Authority continues to concentrate on ensuring diversity and empowerment within the organisation's recruitment practices. It is pleasing to note that permanent staff employed by ICASA during the 2005/2006 financial year were all from the previously disadvantaged targeted groups; 35 Africans (15 females and 20 males), 1 Asian female and 1 White female. Equally pressing is the ability to retain key employees from being absorbed into the industry whilst striving to enhance both gender and race representivity within ICASA.

Table 1: ICASA Demographic profile as at 31 March 2006

Population Group	Total	% In each group		% Variance
		March 2005	March 2006	
African	208	60.0	65.8	5.8
Asian	18	6.4	5.7	(0.7)
Coloured	24	8.1	7.6	(0.5)
White	66	25.5	20.9	(4.6)
Grand Total	316	100.0	100.0	

The above statistics are presented graphically in Figure 2 below, in which the 5.8% upward shift in African representation can be noted, against the 5.8% downward trend of the other population groups.

Figure 2: ICASA Demographic profile as at 31 March 2006 versus March 2005 and 2004

The percentage of staff turnover for the year under review was 8%, compared to 8.12% in the previous year. ICASA therefore continues to face a challenge of retaining skilled staff who exit the organisation, mainly to the industry that it regulates. It is of concern that 38.5% of the above 8% organisational turnover was personnel in the Senior Management and above echelon, which translates to 35.7% of ICASA's Senior Management and above echelon who have exited the organisation during the period under review.

An in depth analysis across the Authority's divisions reflects, the race distribution is not evenly distributed at that level. This analysis is visible in the breakdown of the population group per division in table 2:

Table 2: Comparative Analysis per Race by Division as at March 2006

Division	African	Asian	Coloured	White	Total
Broadcasting	26	0	4	3	33
CEO's Office	3	1	0	0	4
Council	5	1	0	1	7
Council Aides and Support	12	1	2	1	16
Engineering and Technology	53	7	10	49	119
OFBS	63	2	6	9	80
Internal Audit	3	1	1	0	5
Legal, Communications and Consumer Support	22	3	1	2	28
Tele-communications	21	2	0	1	24
Grand Total	208	18	24	66	316

From the above, it is clear that under-representation of the targeted groups is still evident in the technically advanced area of Engineering and Technology. This is an area which has remained historically white male dominated and the availability of appropriately qualified and experienced previously disadvantaged individuals remains a challenge. The Authority is actively recruiting previously disadvantaged individuals into this technologically advanced division and has also embarked on training in this field.

An analysis of gender representation in ICASA reveals that, as shown in figure 3 and table 3, women constitute 46.2% of ICASA's workforce, which is an increase from 44.8% in the previous year.

Figure 3: Staff complement at 31 March 2006 by Gender

Table 3: Comparative Gender Status by Division as at March 2006

Division	Female	Male	Total	% Female		% Variance
				2005	2006	
Broadcasting	19	14	33	58.0	57.6	(4)
CEO's office	4	0	4	100	100	0
Council	3	4	7	42.8	42.8	0
Council Aides and Support	12	4	16	65.4	75.0	9.6
Engineering and Technology	34	85	119	28.6	28.6	0
OFBS	46	34	80	57.5	57.5	0
Internal Audit	3	2	5	60	60	0
Legal, Communications and Consumer Support	16	12	28	50	57.1	7.1
Tele-communications	9	15	24	52.9	37.5	(15.4)
Grand Total	146	170	316			

An area for concern, as reported above, is within the environment of Engineering and Technology, which will have to be addressed by means of interventions to attract females to the technical environment which has been a predominantly pursued by males as a career in the past.

Training and Development

ICASA's ongoing focus has been on the development of soft skills as well as technical training in the Engineering and Technology division. Priority was given to Project Management Training for managers.

It is foreseen that the emphasis for the coming year will be placed on developing the leadership and managerial competencies of the respective managers/supervisors within the organisation.

Study Assistance in the form of bursaries was also made available to employees and substantial focus was placed on the development of employees with no tertiary qualifications as well as on the development of specialist qualifications.

Overview of Performance against Objectives 2005 – 2006

Business Activity	KPIs	Outputs	Tentative Timelines	Progress to date
BROADCASTING				
<i>Policy Development and Research</i>				
Review of Local Content Quotas: ICASA published its position paper on SA Content in February 2002 .	Review of the Content quotas.	Revised Content quotas.		Amended regulations to include commercial subscription broadcasting issued November 2005 .
Enquiry into Children and Woman's Programming: Conducting research to ascertain whether the needs of children, women, the youth and people with disabilities are currently being met through broadcast material by broadcasting licensees.	Enquiry completed	Compliance with applicable legislation.	Ongoing.	Analysis of the broadcasting licence conditions. The project has begun; it is expected to be completed by October 2006 .
Review of Commercial Free-to-Air Television and enquiry into commercial free-to-air satellite broadcasting	Review of commercial terrestrial free-to-air TV policy, and the development of satellite free-to-air TV policy.	Revised rules setting the guidelines and procedures for regulating terrestrial free-to-air TV broadcasting and new rules for regulating satellite free-to-air TV broadcasting.	Project Start time: June 2006 Appointment of Consultants : August 2006	Recommendations for the appointment of a provider to work on the project were approved by the Tender Committee and Executive Management. Subject to Council approval.
Review Policy in accordance with the ECA	Policies issued in terms of new legislative framework.	Revised policies.	1st phase: August 2006 2nd and 3rd phase: July 2008	This project is subject to the promulgation of the Electronic Communication Act. The effective date of the Electronic Communication Act was 19 July 2006 .

Business Activity	KPIs	Outputs	Tentative Timelines	Progress to date
BROADCASTING				
<i>Licensing, Monitoring and Complaints</i>				
Ad hoc Licence Amendments, Transfers and Renewals: Ad hoc amendments, transfers and renewals are conducted in terms of sections 52, 74 and 44 of the IBA Act.	Number of requests for licence amendments and renewals.	Licensees seeking amendments or renewals of their licenses.	Ongoing and recurring.	The Department issued 36 licences in the last financial year. This is an ongoing function. The Department is working on improving turn around times.
BMCC: Standing Committee of ICASA established in terms of the ICASA and IBA Acts.	BMCC hearings and decisions on complaints.	Rulings on complaints lodged and imposing fines in instances of non-compliance.	Ongoing and recurring.	The BMCC held 5 formal hearings in the 2005/2006 financial year. The BMCC has held two meetings in the 2006/2007 financial year. In terms of the ICASA Amendment Act, the BMCC will be replaced by the Compliance and Complaints Committee (CCC). It is envisaged that all future complaints will be considered by the CCC.
Monitoring Workshops: Workshops with broadcasters to assist with the understanding and compliance of the Broadcasting Act.	<ul style="list-style-type: none"> Quarterly workshops to check level of compliance with Regulatory rules and licence conditions. Annual assessment reports on the performance of Radio Stations. 	<ul style="list-style-type: none"> Monitor broadcasters' compliance with the Acts, Regulations and licence conditions. Publish annual and licence term monitoring reports. 	Ongoing and recurring.	The Department visited 32 broadcasters in the last financial year. This is an ongoing activity. The Unit has conducted 14 visits so far and there are about 50 visits planned for the current financial year.
Licensing of Subscription Broadcasting Services: ICASA will, after a public enquiry to be conducted in Financial Year 2003/2004 into this market, licence Subscription Broadcasters.	Licensing of Subscription Broadcasting Services <ul style="list-style-type: none"> Issuance of ITA. Gazetting of applications. Analysis of application. Hearings. Reasons. 	Publication of reasons for decisions and issuance of subscription licences and conditions attached thereto.	Project commences: April 2005 Invitation to apply: January 2006 Gazetting of applications: August 2006 Analysis of applications: September-October 2006 Hearings: December 2006-January 2007 Reasons: March 2007.	ITA and Subscription Broadcasting Services Regulations published on January 2006. Deadline for submission of applications is July 2006. A draft project plan has been prepared.

Business Activity	KPIs	Outputs	Tentative Timelines	Progress to date
BROADCASTING				
<i>Licensing, Monitoring and Complaints</i>				
Licensing of Primary Markets: ICASA after enquiry into primary markets, will licence commercial sound broadcasting services in the primary markets namely Gauteng, KZN and Western Cape.	<ul style="list-style-type: none"> • Issuance of invitation to apply. • Gazetting of application. • Analysis of application. • Hearings. • Publication of reasons. 	Publication of reasons for decisions and issuance of primary market sound broadcasting licences with conditions attached thereto.	<ul style="list-style-type: none"> • Project commences: November 2006 • Invitation to apply: May 2005 • Gazetting of applications: July 2005 • Analysis of applications: August 2005 • Hearings: September 2005 • Reasons: November 2005 	This project was deferred due to lack of funds.
Local Government Elections: ICASA is empowered in terms of sections 58, 59, 60 and 61 of IBA Act to monitor political adverts and Party Political broadcasts during the election period	<ul style="list-style-type: none"> • Quality and regulation of reports flowing from monitoring centres. • Broadcaster compliance. • Number of complaints and speed at which complaints are processed. • Declaration whether election was free and fair. • Quality of final compliance and assessment report. 	Issuance of elections broadcasting monitoring report and prosecuting broadcasters who fail to comply with the IBA Act.	<ul style="list-style-type: none"> • Project commences: April 2005 • Trial run for the elections monitoring system and procedures: April 2005 • Drawing of party political advertising lots for Public sound broadcasting services: February 2006 • Monitoring of Local elections: February-March 2006 • Report: August 2006 	Monitoring finalised. The Department is now finalising the report on the project.

Systems Reviews: Review validity and currency of systems.	Up to date systems applicable to Regulator.	Ongoing efficiencies in computing resources.	December 2006	Knowledge management – TRIM system. Project management software evaluation in progress.
Technology Refresh: Refresh of hardware (PCs, servers and peripherals).	Ability of applications to perform adequately.	Continued ability to work at optimum.	Completed: June 2005	New lease negotiated – renewal due June 2008.

Annual Financial Statements

ICASA Annual Report 2006

Statement of Responsibility

For the year ended 31 March 2006

The Acting Chief Executive Officer, in his capacity as accounting officer, under the direction and control of Council is responsible for the preparation and integrity of the annual financial statements and related information included in this annual report.

In order for the Council to discharge its responsibilities, management has developed and continues to maintain a system of internal control for which the Council has ultimate responsibility. The Council reviews its operations primarily through internal audit activities and the Audit Committee.

The internal controls include a risk-based system of internal accounting and administrative controls designed to provide reasonable, but not absolute, assurance that assets are safeguarded and that transactions are executed and recorded in accordance with generally accepted business practices and the entity's policies and procedures.

To review the system of internal control, an internal audit function conducts operational, financial and specific audits and co-ordinates audit coverage with the Auditor-General. The Auditor-General is responsible for reporting on the annual financial statements.

The annual financial statements are prepared in accordance with Generally Recognised Accounting Practice (GRAP) and incorporate responsible disclosure in line with the accounting philosophy of the entity. The annual financial statements are based on appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The Council believe that the entity will be a going concern in the year ahead. For this reason they continue to adopt the going concern basis in preparing the annual financial statements.

The annual financial statements for year ended 31 March 2006, set out on pages 67 to 92, have been approved by the Council and are signed on its behalf by:

Bruce Jooste

Acting Chief Executive Officer

31 July 2006

Report of the Audit Committee

For the year ended 31 March 2006

Introduction

The Audit Committee has pleasure in presenting to Parliament its report for the financial year ended 31 March, 2006 as required by the Treasury Regulations issued in terms of the Public Finance Management Act, 1999 (Act No.1 of 1999) as amended (PFMA).

Audit Committee Members and Attendance

In accordance with its charter, the Audit Committee has met five times since its 2005 report (dated: 29 July 2005). The membership and attendance at those meetings was as follows;

Meetings	Meetings attended
Graham Rosenthal (Chairperson)	5
Ismail Mamoojee (External Member)	5
Lily Zondo (External Member – resigned 23/11/2005)	-
Jacqueline Huntley (External Member – resigned 03/02/2006)	1
Paris Mashile (Chairperson of ICASA)	3
Nadia Bulbulia (Councillor of ICASA – resigned 21/11/2005)	1
Jackie Manche (CEO of ICASA –suspended 22/11/2005)	-
Zolisa Masiza (Councillor of ICASA – appointed 21/11/2005)	1
Eric Nhlapo (Acting CEO – resigned 30/06/2006)	3
Bruce Jooste (Acting CEO – appointed 01/07/2006)	1
Rene Kenosi (External Member – appointed 28/07/2006)	1

Audit Committee Responsibility

The Audit Committee has:

- complied with its responsibilities and obligations as set out in section 38(1)(a) of the PFMA and Treasury Regulation 3.1.13; and
- complied with and discharged all its responsibilities according to the Audit Committee charter, which regulates its formal terms of reference .

The Effectiveness of Internal Control

In its 2005 report the Audit Committee noted the need for improvement in internal controls as well as compliance with prescribed policies and procedures and regulations. Aggravated by the absence on suspension and vacancies in key permanent senior management positions for extended periods of time, the necessary action to achieve these improvements has not been given attention. As a result internal controls and compliance with prescribed policies and procedures have weakened.

The above is evidenced by the qualification and emphasis of matters paragraphs in the Auditor-General's report on the annual financial statements, the issues identified in internal audit reports and the management letter of the Auditor-General. Many of the matters so raised were repeats of those identified in 2005. The focus of attention of the internal auditors has deviated from their plan as a result of their requirement to undertake many ad-hoc investigations caused by, inter-alia, internal control weaknesses.

The above matters have frustrated the workings of the Audit Committee in being able to monitor the effectiveness of internal controls and the entire risk management process. There is an urgent need for all permanent senior management positions to be filled and internal controls to be strengthened, with compliance with policies and procedures being monitored and implemented by those incumbents.

Evaluation of the Financial Statements

The Audit Committee has reviewed:

- the audited annual financial statements and discussed them with the Auditor-General and the acting Chief Executive Officer (in his capacity as accounting officer);
- the Auditor-General's management letter and related management responses; and
- the accounting policies and practices.

A number of significant adjustments resulting from the audit have been given effect in the annual financial statements. The Audit Committee is satisfied that the annual financial statements comply in all material respects with the requirements of the Public Finance Management Act, 1999 (Act No. 1 of 1999) as amended.

The Audit Committee concurs and accepts the conclusion of the Auditor-General on the annual financial statements and is of the opinion that the audited annual financial statements be accepted and read together with the report of the Auditor-General.

Graham Rosenthal
Chairperson
Audit Committee
31 July 2006.

Report of the Auditor-General

For the year ended 31 March 2006

1. Audit Assignment

The financial statements as set out on pages 67 to 92 for the year ended 31 March 2006, have been audited in terms of section 188 of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996), read with sections 4 and 20 of the Public Audit Act, 2004 (Act No. 25 of 2004) and section 16(1)(b)(iii) of the Independent Communications Authority of South Africa Act, 2000 (Act No. 13 of 2000). These financial statements are the responsibility of the accounting authority. My responsibility is to express an opinion on these financial statements, based on the audit.

2. Scope

The audit was conducted in accordance with the International Standards on Auditing read with General Notice 544 of 2006, issued in Government Gazette no. 28723 of 10 April 2006 and General Notice 808 of 2006, issued in Government Gazette no. 28954 of 23 June 2006. Those standards require that I plan and perform the audit to obtain reasonable assurance that the financial statements are free of material misstatement.

An audit includes:

- examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements
- assessing the accounting principles used and significant estimates made by management
- evaluating the overall financial statement presentation.

I believe that the audit provides a reasonable basis for my opinion.

3. Basis of Accounting

The entity's policy is to prepare financial statements on the basis of accounting determined by the National Treasury, as described in Note 1 to the financial statements.

4. Qualification

4.1 Deficit from operations and roll-over funds

In terms of section 38 of the PFMA, the accounting officer is required to manage available working capital effectively and economically, however the following was identified:

- 4.1.1** A deficit from operations of R33 876 809 for the 2005-06 financial year, and a net deficit of R5 883 078 was reported.
- 4.1.2** Deferred grants amounting to R16 733 579 were released into income in the current year. This was not in compliance with Treasury Regulation 6.4.1 and IAS20 as R10 171 427 of the funds earmarked for capital projects were utilised to defray operating expenditure. The roll-over of unspent funds could only be authorised by National Treasury to finalise projects or asset acquisitions still in progress.

4.2 Supply Chain Management

Due to irregularities identified in the procurement and tender processes which were contrary to section 76(4)(c) of the PFMA and Treasury Regulation 16A, it was not possible to determine whether goods and services were procured in a fair, transparent, competitive and cost effective manner. The following weaknesses were identified:

- (a) The bid specifications were not always approved by the Bid Committee.

- (b) A contract was awarded to a company on a monthly basis even though documentation obtained during the tender process clearly indicated that the company was not fully accredited to render the required services.
- (c) Contracts subject to the bid process were not always awarded timeously.
- (d) A contract of R4 million was awarded without a proper audit trail to support the decision. Furthermore, the contract was not signed and the service level agreement was not entered into with the service provider. Subsequently, the contract was cancelled due to poor service delivery by the service provider after a total cost of R1.2 million was incurred.
- (e) Another contract of R500 000 was awarded contrary to the Bid Committee's recommendation. The actual amount spent was R312147.
- (f) The Bid Committee did not always document the evaluation process in recommending awarding of contracts.
- (g) The required quotations to procure goods and services were not always obtained.

4.3 Control environment

The following issues contributed to a weak control environment:

- 4.3.1** The CEO was suspended in November 2005 with full pay. To date the case was not finalised. An acting CEO was appointed on 24 November 2005 but resigned on 30 June 2006. A second acting CEO was appointed on 1 July 2006.

The CFO had resigned on 14 November 2005. From November 2005 to year-end two contracted acting CFO's were appointed. To date, the position was not permanently filled.

The senior manager positions of IT and Human Resources were vacant during the year.

Consultants were utilised extensively to make up for the high vacancy rate.

- 4.3.2** Due to a lack of adequate training of staff on the general ledger system, numerous journals were passed to correct errors.

- 4.3.3** Internal audit performed many *ad hoc* investigations during the year which suggested further weaknesses in the control environment, as well as irregularities.

5. Qualified Audit Opinion

In my opinion, except for the effect on the financial statements of the matters referred to in paragraph 4, the financial statements present fairly, in all material respects, the financial position of the Independent Communications Authority of South Africa at 31 March 2006 and the results of its operations and its cash flows for the year then ended in accordance with the basis of accounting determined by the National Treasury of South Africa as described in Note 1 to the financial statements, and in the manner required by the Public Finance Management Act, 1999 (Act No. 1 of 1999) as amended (PFMA).

6. Emphasis of Matter

Without further qualifying the audit opinion expressed above, attention is drawn to the following matters:

6.1 Non-compliance with laws and regulations

- 6.1.1** Ac□
the annual financial statements.

- 6.1.2** An insurance premium amounting to R973 927 (2004-05: R821 957) was paid by ICASA in the year under review contrary to Treasury Regulation 12.1.2, which allows for a maximum of R250 000. Exemption was applied for but not yet approved.

6.2 *Human resource management*

- 6.2.1** The performance evaluation system was not implemented properly to measure individual performance against predetermined objectives. This resulted in performance bonuses totaling R2.4 million paid to all staff members in equal proportions.
- 6.2.2** The budget for employee costs was exceeded mainly due to long-service awards of R2 093 000 paid in comparison to the budget of R39 000, and leave payouts of R1 991 691 million not budgeted for.
- 6.2.3** Numerous weaknesses were identified in the human resource department including lack of reconciliations and accurate payslips.

6.3 *Insurance of assets*

While management has started the process to determine the replacement cost of all significant fixed assets, so as to ensure that these assets are insured at the correct value, it appeared that ICASA might be over-insured.

ICASA was insured for R200 747 086 relating to fixed assets, whilst the net book value of fixed assets disclosed in the financial statements was R14 735 607. The assets disclosed in the renewal review of the insurance policy did not agree to the fixed assets register.

6.4 *Asset management*

Regular reconciliations between the fixed asset register (FAR) and the general ledger were not performed since October 2005, except at year end. As a result the following was found:

- (a) A difference of R117 423 existed between the FAR and the general ledger.
- (b) Some assets in the fixed asset register had no cost but were depreciated. Consequently these assets had negative carrying amounts of R114 508 at year-end.
- (c) Some assets were not recorded on the fixed asset register.
- (d) Certain assets disposed of during the year were not removed from the FAR.

6.5 *General controls surrounding the information technology environment*

Most of the prior year audit recommendations pertaining to change control, password and logical access controls on the operating system and user account management were not yet implemented.

6.6 *Administered revenue*

- 6.6.1** ICASA was responsible for the administration and collection of fees on behalf of the National Revenue Fund (NRF). Although in terms of the accounting policy only cash received was disclosed, accountability and disclosure would be enhanced if separate administered revenue annual financial statements were presented. Refer to the accounting officer's report relating to a settlement of a dispute between ICASA and a licensee.
- 6.6.2** The Frequency Spectrum licence accounting system was not integrated into the general ledger accounting system. This gave rise to problems with the completeness of collection and accounting of revenue.

6.6.3 □
could not be ascertained due to incomplete records transferred from Independent Broadcasting Authority (IBA) and South African Telecommunications Regulatory Authority (SATRA). A reconciliation on the bank balance was not performed to obtain an explanation as to what this amount related to. The only reconciliation performed during the year was on the movement in the account.

6.6.4 Approved policies and procedures for administered revenue did not exist.

6.7 Performance information

ICASA did not submit performance information in time to the auditors for review. This resulted in non-compliance with section 20(2)(c) of the Public Audit Act, 2004 (Act No. 25 of 2004).

7. Appreciation

The assistance rendered by the staff of ICASA during the audit is sincerely appreciated.

MMA Masemola for Auditor-General

Johannesburg

31 July 2006

AUDITOR - GENERAL

Report of the Accounting Officer

For the year ended 31 March 2006

Report by the Accounting Officer to Parliament

I hereby present to Parliament the Independent Communications Authority of South Africa's (ICASA) sixth annual report. The report covers the period 1 April 2005 to 31 March 2006. As required by section 16(1)(b)(i) of the ICASA Act, 2000, the Authority has prepared a detailed annual report of the activities during the year.

Background

ICASA is the regulator of telecommunications and the broadcasting sectors. It was established in July 2000 in terms of the Independent Communications Authority of South Africa Act No.13 of 2000, as amended.

ICASA's key functions are to:

- make regulations and policies that govern the broadcasting and telecommunications industry;
- issue licences to providers of telecommunication and broadcasting services;
- monitor the environment and enforce compliance with rules, regulations and policies;
- hear and decide on disputes and complaints brought by industry or members of the public against licensees; and
- plan, control and manage the Frequency Spectrum and protect consumers from unfair business practices, poor quality services and harmful or inferior products.

During the year under review the Chief Executive Officer, Ms Jackie Manche, was suspended with full pay on 22 November 2005 and the formal disciplinary process is still ongoing. The General Manager - Broadcasting, Mr Eric Nhlapo, was appointed as Acting Chief Executive Officer with effect from 24 November 2005. Mr Nhlapo resigned effective 30 June 2006 and Mr Bruce Jooste was appointed as Acting Chief Executive Officer with effect from 1 July 2006.

The Chief Financial Officer, Ms Bridget Mohlala, resigned on 14 November 2005. Ms Lauren Fullerton was appointed as acting CFO on a five month contract basis effective 27 March 2006. The recruitment process to fill this vacancy is ongoing.

For the year under review three Councillors, Ms Nadia Bulbulia, Ms Mamodupi Mohlala and Mr Lumko Mtimde's term of office ended on 30 June 2006. In accordance with relevant legislation two Councillors namely, Ms Bulbulia and Ms Mohlala agreed to extend their term of office by 45 days to 14 August 2006. Five new Councillors have yet to be appointed in terms of the ICASA Amendment Act, which came into effect on 19 July 2006.

Applicable legislation

ICASA derives its mandate from various statutes. The Electronic Communications Act (Act No. 36 of 2005) and the Independent Communications Authority of South Africa Amendment Act (Act No. 3 of 2006) came into effect on 19 July 2006. The Independent Broadcasting Act of 1993, and the Telecommunications Authority Act of 1996 have been repealed with effect from this date.

General review of the state of financial affairs

The Authority has prepared annual financial statements in accordance with South African Statements of Generally Recognised Accounting Practice and in the manner required by the Public Finance Management Act (Act No. 1 of 1999) as amended.

The Authority's revenue comprises government grants appropriated by Parliament and interest income earned on cash balances. Government grants received amounted to R144,5 million (2005 - R141,6 million) in the year under review.

Due to various amendments to the VAT Act, notice was given that the Authority's VAT registration would be cancelled with effect from 1 April 2005. Therefore, transactions from this date and future activities and resulting transactions will be accounted for inclusive of VAT for inputs. Government grants received are therefore no longer subject to VAT.

During the previous financial year National Treasury issued a Circular whereby the Authority was granted permission to retain interest e□

In terms of section 15(3) of the Independent Communications Authority Act (Act no. 13 of 2000), the Authority is required to collect licence fees on behalf of the National Revenue Fund. The Authority collected R1 486 million (2005 – R1 256 million) of which an amount of R43,3 million (2005 – R27,0 million) represents amounts due to the National Revenue Fund at year end.

The financial position and results of operations are fully dealt with in the annual financial statements on pages 67 to 92. The annual financial statements have been prepared on the going concern basis. However, the Statement of Financial Position indicates that the total liabilities of the Authority exceed the total assets by R16,2 million (2005 – R10,3 million). This situation has arisen as a result of the restatement of comparative information to take account of the change in accounting treatment of operating leases to comply with South African Generally Accepted Accounting Practice (SA GAAP). Refer to note 17 for more detailed information. Excluding the impact of these adjustments the total assets exceed the total liabilities.

Councillors' and Executive Management's remuneration

Details of Councillors' and Executive Management's remuneration are set out in note 24 to the annual financial statements.

Events after the reporting date

Subsequent to 31 March 2006, Council agreed to a R2,4 million across the board payment in lieu of an annual performance bonus. Full provision has been made for this as per note 21 in the financial statements.

A dispute reported in previous years regarding licence fees due by a licensee has been resolved as a result of a Broadcasting and Complaints Committee (BMCC) ruling. The net effect of the ruling is that the licensee has overpaid an amount of R7,8 million, based on an independent expert's opinion. The final amount of the claim is the subject of ongoing negotiation.

It should be noted that the annual financial statements were submitted to the Auditor-General for audit on 31st May 2006, in accordance with the requirements of the Public Finance Management Act. However, due to events subsequent to the reporting date and audit adjustments requested by the Auditor-General, the financial statements have been adjusted accordingly and signed by the Accounting Officer on 31 July 2006.

Notes to the Annual Financial Statements

For the year ended 31 March 2006

1. Accounting policies

Basis of preparation

The financial statements have been prepared in accordance with the South African Statements of Generally Accepted Accounting Practices (GAAP) including any interpretations of such Statements issued by the Accounting Practices Board, with the prescribed Standards of Generally Recognised Accounting Practices (GRAP) issued by the Accounting Standards Board replacing the equivalent GAAP Statement as follows:

Standard of GRAP	Replaced Statement of GAAP
GRAP 1: Presentation of financial statements	AC101: Presentation of financial statements
GRAP 2: Cash flow statements	AC118: Cash flow statements
GRAP 3: Accounting policies, changes in accounting estimates and errors	AC103: Accounting policies, changes in accounting estimates and errors

The recognition and measurement principles in the above GRAP and GAAP Statements do not differ or result in material differences in items presented and disclosed in the financial statements. The implementation of GRAP 1, 2 & 3 has resulted in the following significant changes in the presentation of the financial statements:

Terminology differences:

Standard of GRAP	Replaced Statement of GAAP
Statement of financial performance	Income statement
Statement of financial position	Balance sheet
Statement of changes in net assets	Statement of changes in equity
Net assets	Equity
Surplus/deficit for the period	Profit/loss for the period
Accumulated surplus/deficit	Retained earnings
Reporting date	Balance sheet date

The annual financial statements have been prepared on the historical cost basis, except for certain financial assets and liabilities which are stated at fair value or amortised cost.

The currency of presentation is South African Rand. The annual financial statements incorporate the following principal accounting policies, which are consistent in all material respects with those applied in the previous year, except where stated otherwise.

The annual financial statements have been prepared on a going concern basis. It is noted that the total liabilities exceed the total assets by R16 171 087 (2005: R10 288 009). The impact of compliance with IAS17 (AC105) Accounting for Leases has contributed R22,4 million to this position. Refer to notes 15 and 17 for more detailed information.

1.1 Government grants/subsidies

The Authority is financed from money appropriated by Parliament. Government grants to cover operating expenses are recognised when it is probable that future economic benefits will flow to the Authority and these benefits can be measured reliably. The grant is recognised to the extent that there are no further obligations arising from the receipt of the grant.

Government grants relating to specific long-term projects are deferred, where appropriate, to recognise them as revenue in the same period as the relevant expense, so as to match them with costs for which they are granted.

Government grants relating to the purchase of property, plant and equipment are included in current liabilities as deferred income and are recognised as revenue over the periods and in the proportions in which depreciation on the property, plant and equipment is charged.

1.2 Property, plant and equipment

Property, plant and equipment are stated at historical cost, less accumulated depreciation. Costs include all costs directly attributable to bring the assets to working condition for their intended use. Depreciation is calculated on historical cost using the straight-line method over the estimated useful lives of the assets. The estimated asset residual values and useful lives are reviewed and are adjusted, if appropriate, at reporting date. This equates to the following rates per annum:

Office equipment	20%
Computer equipment	33.33%
Monitoring equipment	20%
Furniture and fittings	16.70%
Motor vehicles	20%
Test equipment	20%
PABX	20%
Computer software	50%
Other equipment	20%
Leasehold improvements	over the period of the lease

Expenditure on capital projects in progress is capitalised as Capital Work-in-Progress and only allocated to the relevant asset category when the property, plant and equipment is commissioned and brought into use. Such assets are only depreciated once the asset is brought into use.

Purchases of property, plant and equipment less than R5 000 are expensed during the financial period in which they are incurred.

Repairs and maintenance are generally expensed during the financial period in which they are incurred. However, major renovations are capitalised and included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Authority. Major renovations are depreciated over the remaining useful life of the related asset.

The gain or loss arising from the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset.

1.3 Impairment of assets

At each reporting date, the Authority reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets may be impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Where it is not possible to estimate the recoverable amount for an individual asset, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset (cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. Impairment losses are immediately recognised as an expense, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under the standard.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised as revenue immediately, unless the relevant asset is carried at a revalued amount under another standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that other standard.

1.4 Revenue recognition

Interest received

In accordance with a National Treasury communication (dated 12 July 2004) all interest earned on surplus funds and funds collected on behalf of National Revenue Fund during the year are recognised as revenue.

1.5 Taxation

No provision has been made for income tax as the Authority is exempted in terms of section 10(1) (cA) (1) of the Income Tax Act, 1962 (Act No. 58 of 1962).

1.6 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks and bank current accounts.

1.7 Leases

Rentals payable under operating leases are amortised on a straight line basis. In the previous financial years the rentals payable were charged to revenue as and when incurred. In order to comply with IAS17 (AC105) the prior year rentals have been restated. Refer to notes 15 and 17 for additional detail in this regard.

1.8 Provisions

Provisions are recognised when the Authority has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees as at the reporting date.

1.9 Retirement benefits

The Authority operates defined contribution plans, the assets of which are generally held in trustee-administered funds. Pension benefits are provided for employees by means of separate pension funds to which contributions are made by employees and the Authority. The Authority's contributions to defined contribution benefit plans are charged to the statement of financial performance in the year to which they relate.

1.10 Start-up fund

In terms of section 20(1) of the Independent Communications Authority of South Africa Act (Act No.13 of 2000), "All assets, rights and obligations, which immediately before the establishment date (of ICASA), vest in the former authorities pass to the Authority on that date." Accordingly this start-up fund, which arose from the transfer of assets to the SA Telecommunications Regulatory Authority by the Department of Communications (DoC) with effect from 1 April 1997, transferred to ICASA on 1 July 2000.

1.11 Irregular and fruitless and wasteful expenditure

Irregular expenditure means expenditure incurred in contravention of, or not in accordance with, a requirement of any applicable legislation, including:

- The Public Finance Management Act (PFMA), and
- Regulations issued in terms of the PFMA by National Treasury.

Fruitless and wasteful expenditure means expenditure that was made in vain and would have been avoided had reasonable care been exercised.

All irregular and fruitless and wasteful expenditure is charged against revenue in the period in which it is incurred.

1.12 Financial instruments

Financial assets and financial liabilities are recognised on the statement of financial position when the Authority becomes a party to the contractual provisions of the instrument.

Measurement

Financial instruments are initially measured at cost, which includes transaction costs. Subsequent to initial recognition these instruments are measured as set out below.

Financial assets

The Authority's principle financial assets are accounts receivable, deposits and cash and cash equivalents.

Trade receivables

Trade a□

Financial liabilities

The Authority's principle financial liabilities are accounts payable, accruals and provisions.

All financial liabilities are measured at amortised cost, comprising original debt less principle payments and amortisations.

Trade payables

Trade and other payables are stated at their nominal value.

1.13 National Revenue Fund (NRF)

In terms of section 15(3) of the Independent Communications Authority Act (Act No. 13 of 2000), the Authority is required to pay all fees received and held on their behalf to the NRF within 30 days after receipt of such revenue.

Separate bank accounts are held for the purpose of collecting these revenues and paying them across to the NRF. The Authority has an obligation in terms of statute to administer these funds on behalf of National Treasury and to pay them across within a prescribed time limit.

Accordingly, the licence fees received and banked are accounted for on a cash receipts basis and the balance of licence fees received not yet paid across to the NRF are separately disclosed as administered assets under current assets in the statement of financial position. The corresponding obligation to pay these funds across to the NRF is reflected as a creditor under current liabilities in the statement of financial position.

1.14 Restatement of comparative figures

Where necessary, comparative figures have been re-classified to conform with changes in presentation in the current year and in order to comply with GRAP.

	31 March 2006	Restated 31 March 2005

		1 671 700	576 956

		31 March 2006	Restated 31 March 2005
	Notes	R	R
10.3 Potential irregular expenditure			
Insurance	(h)	723 927	571 957
Security costs	(i)	556 239	-
Printing costs	(j)	312 147	-
Consulting fees	(k)	1 200 000	-
		2 792 313	571 957

Notes

- (a) Leased assets were sold to staff for cash, on behalf of the lessor. Portion of the proceeds of this sale were stolen.
- (b) A final settlement of a labour dispute dating back to the former Independent Broadcasting Authority resulted in a severance package paid to a former employee.
- (c) A contract for maintenance of office equipment was cancelled due to its onerous nature. This is the subject of ongoing internal investigation and potential litigation.
- (d) Recruitment fees were paid for positions not filled.
- (e) Certain services were charged for by a company for event management services that were not rendered.
- (f) Interest costs incurred on late payment to suppliers.
- (g) PAYE payments are due on the 7th of the ensuing month. Certain payments were made after that date. Provision for penalties has been made. Negotiations with SARS are ongoing.
- (h) Insurance premiums incurred exceed the allowable amount of R250 000 as stipulated in the Treasury Regulations. Application for exemption from this regulation has been made to National Treasury.
- (i) A month to month contract has been awarded to a security company without formal confirmation that the company has been accredited to provide security services to a public sector organisation.
- (j) Inconsistencies with the bid award process for these costs incurred were identified.
- (k) A contract for professional services for organisation realignment was cancelled due to non-performance by the consultants. This was a settlement paid to the consultants for work already performed.

11. Trade and other Receivables

Fundamental error – provision for VAT penalty reversed in error

(b) - (4 651 924)

Balance at 31 March

(49 902 429) (44 019 351)

Net Accumulated Deficit at 31 March

(16 171 807) (10 288 009)

- (a) The comparative information has been restated for the change in the basis of recognition of operating lease costs. The Authority previously accounted for operating leases in a manner commonly regarded as accepted practice within South Africa. The policy applied in the past involved expensing and recording operating lease expenses as and when incurred. Subsequent to the South African Institute of Chartered Accountants issuing Circular 7/2005 on 3 August 2005, which detailed past practices and the revised interpretation, the Authority adopted the accounting treatment of recognising lease payments under operating leases as an expense on a straight-line basis over the lease term, taking any escalation clauses into account. Comparative information has been restated retrospectively and the appropriate prior year adjustments are disclosed herein.
- (b) The estimation of the amount due by SA Revenue Services (SARS) in respect of value added tax (VAT) at 31 March 2005 was based on incomplete information from SARS. In addition penalties paid in February 2005 were not set off against a provision of R4 651 924 which arose in the 2003/2004 financial year. Instead the provision was reversed to revenue in error during the 2004/2005 financial year. Comparative information for the 2005 financial year has been restated for this fundamental error. In addition a further prior year adjustment of R2 394 503 is required to ensure the amount due from SARS is reflected as the correct amount.
- (c) The Department of Communications (DoC) advanced funds to the Authority to fund a VAT liability in prior years. Final statements and assessments received from SARS during the current financial year have indicated that the calculation of the amount due to the DoC was calculated incorrectly. Accordingly the adjustment required to correct this prior year fundamental error has been made as a prior year adjustment.

17 (b) Effect of prior year adjustments on accumulated deficit:

The effect of the changes as detailed in 17(a) are as follows:

	Accumulated deficit	Lease commitment	VAT due from SARS	Provision for Penalty on VAT	Due to Dept. of Communication
Effect on prior year					
Balance at 31 March 2004 –as previously reported	24 451 434	-	8 964 174	(4 651 924)	-
Operating lease restatement	15 995 836	(15 995 836)	-	-	-
Balance at 31 March 2004 - as restated	40 447 270	(15 995 836)	8 964 174	(4 651 924)	-
Deficit as restated	10 090 735	(7 372 974)	(4 651 924)	4 651 924	-
Surplus as previously reported	(1 934 163)	-	-	-	-
Operating lease adjustment	7 372 974	(7 372 974)	-	-	-
Fundamental error – provision for VAT reversed in error	4 651 924	-	(4 651 924)	4 651 924	-

		31 March 2006	Restated 31 March 2005
	Notes	R	R

18. Capital Commitments

Commitments for the acquisition of property, plant and equipment

- Contracted for but not provided in the annual financial statements

- Authorised but not contracted for

(a)	12 727 000	3 783 646
	12 125 000	35 200 000
	24 852 000	38 983 646

The capital expenditure is to be financed as follows:

- Subsidies received/rolled over from DoC

(b)	24 852 000	38 983 646
-----	-------------------	-------------------

(a) This contract is the subject of a dispute and notice of intention to cancel the contract has been served on the other party.

(b) As noted in note 16 above requests for roll over of the above funds has been made to National Treasury. R6 million thereof has been approved. Approval for the remaining R18,8 million is pending additional motivation to be submitted by the Authority to National Treasury. There is a possibility that National Treasury will require R12,7 million of this to be repaid before the end of the 2006/2007 financial year if it is not spent.

19. Operating lease arrangements

As Lessee

At 31 March 2006 outstanding commitments existed under non-cancellable operating leases which fall due as follows:

Up to 1 year

1 to 5 years

29 069 569	23 244 792
78 348 900	98 660 339
107 418 469	121 905 131

The operating leases entered into represent arrangements to lease office premises and certain computer equipment. The operating lease commitments comprise cash flow commitments. These commitments do not take account of the straight line basis of accounting required by IAS17 Leases. The commitments are mainly in respect of property leases for ICASA's Head Office in Sandton and regional offices in Cape Town, Durban, Bloemfontein and Port Elizabeth. The terms of the leases vary with expiry dates between 31 October 2007 and 31 October 2010. Escalation clauses range between 8 and 15 percent depending on the lessor and the location of the premises.

At 31 March 2006 the Authority had no commitments under non-cancellable operating leases as lessor.

20. Property, plant and equipment

The leave pay and bonus provisions relate to the existing liabilities arising as a result of services rendered by employees. The leave pay provision is provided for based on cost-to-company packages. Included in the leave pay provision is a debit balance of R56 903 (2005: R260 460) being amounts owed by employees for leave taken in excess of their entitlement.

The bonus provision comprises three months pro-rata remuneration in respect of the 13th cheque liability, which is paid in December. In addition an amount of R2,4 million has been provided for Performance Bonuses, payable to employees based on negotiations between management and staff, represented by the Commercial Workers Union. These payments were made subsequent to the reporting date.

The legal provision is in respect of an onerous contract for maintenance of office equipment. The supplier has been informed of ICASA's intention to cancel the contract, which may lead to litigation.

	31 March 2006	Restated 31 March 2005
Notes	R	R

22. National Revenue Fund creditor

The amount held on behalf of the National Revenue Fund is represented by the following cash and cash equivalents, which although under the control and administration of the Authority, do not represent its owned assets or liabilities.

Balance outstanding at the beginning of the year	24 598 126	29 665 371
Licence, application and annual fees received	1 461 784 654	1 226 444 192
Broadcasting	39 086 676	35 243 647
Telecommunications	1 282 341 837	1 051 303 909
Frequency Spectrum	140 356 141	139 896 636
	1 486 382 780	1 256 109 563
Paid to NRF	(1 444 432 413)	(1 231 511 437)
Revenue received to be paid to NRF	41 950 367	24 598 126
Unallocated receipts and other payables	1 379 690	2 423 713
Represented by cash and cash equivalents	43 330 057	27 021 839

R33,4 million of the amount owing to the National Revenue Fund has been paid over subsequent to year end. The amount disclosed as unallocated receipts and other payables relates to amounts received in the licence fee bank accounts, which have not been allocated to the relevant licensee by year end. This is merely a timing issue and ongoing reconciliation of these accounts is performed. Once the origin of the receipt is established it is transferred to the account of the relevant licensee and paid across to the National Revenue Fund.

23. Reconciliation of deficit to cash utilised in operations

Deficit for the year	(5 883 078)	(10 090 735)

25. Contingent liabilities

Litigation	2 320 000	-
------------	-----------	---

The Authority's decisions are often challenged through the legal system. There are a number of ongoing legal cases which the Authority is in the process of defending or instituting. The final outcome cannot be reliably determined as it is dependent on the strength of both parties' case and the Judiciary's findings. A contingent liability has been noted for legal cases that may have unfavourable decisions. An estimate of final costs has been made based on time spent by attorneys and legal counsel to date on the cases plus estimated time to finalise the cases.

26. Related party relationships and transactions

During the year the Authority entered into the following arm's length transactions with related parties. All transactions are interest free. There are no fixed terms of repayment.

	Notes	Related party			
		Department of Communications		National Revenue Fund Creditor	
		2006	2005	2006	2005
		R	R	R	R
Subsidies received from related parties (note 2)		150 489 000	186 927 833	-	-
Payments made to related parties (note 22)		-	-	1 444 432 413	1 231 511 437
Amounts due to related parties (note 14 and 22)		2 436 479	2 436 479	43 330 057	27 021 839

27. Financial instruments

Forward foreign exchange contracts

No foreign exchange contracts were entered into during the current year under review.

Loans receivable and bank loans

There were no loan receivables or bank loans during the current year under review.

Credit risk

Financial assets which potentially subject the Authority to concentrations of credit risk consist principally of cash, short-term deposits and receivables. The cash equivalents and short-term deposits are placed with high credit quality financial institutions. Receivables are presented net of the allowance for doubtful receivables. The Authority has no significant concentration of credit risk.

Interest rate risk

Cash and short-term deposits have maturities less than three months and are not subject to significant interest rate risk.

Fair values

At 31 March 2005 and 2006, the carrying amounts of cash and cash equivalents, other receivables and trade payables approximated their fair values due to the short-term maturities of these assets and liabilities.

Risk management policies

There is no significant exposure to foreign currency risk, interest rate risk, market risk, credit risk and liquidity risk.

28. Post reporting date events

In terms of the Public Finance Management Act (PFMA), the Authority is required to submit its annual financial statements for audit to the Auditor General by 31 May 2006. This deadline was complied with. However, the following events subsequent to year end have resulted in adjustments to the annual financial statements as presented:

- Agreement regarding the amount of the refund due to ICASA from SARS with regards to Value Added Tax has been reached. A reversal of a provision for penalties in the year ended 31 March 2005 was processed in error. This has been accounted for as a fundamental error and adjusted in terms of GRAP 3 - Accounting policies, changes in accounting estimates and errors. Refer note 17 for further information;
- Provision for a once off performance bonus for staff and management based on negotiations with staff and union representatives subsequent to 31 May 2006 has been made. Payment has been made subsequent to year end. Refer note 21 for further information.
- Various accruals and adjustments required as a consequence of the completion of the external audit by the Auditor General.
