Independent Communications Authority of South Africa (ICASA)

Licencing Division

Attention: Peter Mailula

By email ybohale@icasa.org.za

**Dear Mr** Peter Mailula and Mrs Yvone Bohale

**APPLICATION FOR TRANSFER OWNERSHIP OF IECS AND IECNS  
LICECNC: LINKINC TELECOMMUNICATIONS (PTY) LTD**

We act on behalf of LINKINC TELECOMMUNICATIONS (PTY) LTD, which has instructed us to submit the attached applications to transfer of ownership off an Individual Licence 0065/IECS/NOV/2009 and 00065/ICENCs/NOV/2009 from the previous owners to the new owners.

Due to COVID-19 please find the Electronic submission, being the application registration documents with annexures.

Can you, please provide a applications invoice from your finance department. I hope the only outstanding part is the application fee and the POP.

Rubico Consultants (Pty) Ltd

## 9. Substitution of Form G of the Regulations

The following Form of Schedule 1 is hereby substituted for Form G of the Regulations:

### “FORM G

## APPLICATION TO TRANSFER OWNERSHIP AND/OR CONTROL OF AN INDIVIDUAL LICENCE

(Regulation 11)

### INDEPENDENT COMMUNICATIONS AUTHORITY OF SOUTH AFRICA

*Note:*

- (a) *Applicants must refer to the Electronic Communications Act, 2005 (Act No. 36 of 2005) (“the Act”) and any regulations published under that Act with regard to the requirements to be fulfilled by applicants.*
- (b) *Information required in terms of this Form which does not fit into the space provided may be included in an appendix attached to the Form. Each appendix must be numbered with reference to the relevant part of the Form.*
- (c) *Where any information in this Form does not apply to the applicant, the applicant must indicate that the relevant information is not applicable.*

| <b>4. LEGAL FORM OF THE APPLICANT (LICENSEE)</b>                                                                                                                                                                                                                                                              |                                                                     |
| 4.1 Indicate if the applicant is:                                                                                                                                                                                                                                                                             |                                                                     |
| (i) a natural person                                                                                                                                                                                                                                                                                          |                                                                     |
| (ii) a partnership                                                                                                                                                                                                                                                                                            |                                                                     |
| (iii) a juristic person                                                                                                                                                                                                                                                                                       | x                                                                   |
| (iv) other (specify)                                                                                                                                                                                                                                                                                          |                                                                     |
| 4.2 If the applicant is a natural person or a partnership:                                                                                                                                                                                                                                                    |                                                                     |
| 4.2.1 Provide the identity number of the applicants or each partner in the applicant:                                                                                                                                                                                                                         | 1. Phillip Scheal [REDACTED]<br>2. Simone Nickol Halcrow [REDACTED] |
| 4.2.2 Attach a certified copy of the identity document of the applicant or certified copies of the identity document of each partner in the applicant marked clearly as <b>Appendix 4.2.2 of FORM G</b> , indicating that he or she is a citizen of the Republic, as required by section 5(8) (a) of the Act. |                                                                     |
| 4.3 If the applicant is a juristic person:                                                                                                                                                                                                                                                                    |                                                                     |
| 4.3.1 Indicate the legal form of the applicant (e.g. private company incorporated in terms of the Companies Act, 1973):                                                                                                                                                                                       |                                                                     |
| 4.3.2 Registration number of applicant:                                                                                                                                                                                                                                                                       | 2006/031226/07                                                      |
|                                                                                                                                                                                                                                                                                                               |                                                                     |

4.3.3 Attach certified copies of the applicant's certificate of incorporation and memorandum and articles of association or other constitutive documents of the applicant (e.g. memorandum and articles of association, association agreement, constitution) marked clearly as **Appendix 4.3.3 of FORM G**, indicating the applicant's compliance with the requirements of section 5(8) (b) of the Act.

4.4 Where the applicant has been liquidated or sequestrated, provide:

|                                                                                                                                                                                 |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 4.4.1 Liquidator / Executor's postal address:                                                                                                                                   | N/A |
| 4.4.2. Liquidator / Executor's telephone number/s:                                                                                                                              |     |
| 4.4.3. Liquidator/Executor's mobile number/s:                                                                                                                                   |     |
| 4.4.4. Liquidator / Executor's telefax number/s:                                                                                                                                |     |
| 4.4.5. Liquidator / Executor's E-mail address:                                                                                                                                  |     |
| 4.4.6. Attach an affidavit deposed to by the liquidator or executor, indicating the consent to the transfer of the Licence, marked clearly as <b>Appendix 4.4.5 of FORM G</b> . |     |

## 5. LEGAL FORM OF TRANSFEREE

5.1 Indicate if the transferee is:

|                         |   |
|-------------------------|---|
| (i) a natural person    |   |
| (ii) a partnership      |   |
| (iii) a juristic person | X |

|                                                                                        |                                         |
|----------------------------------------------------------------------------------------|-----------------------------------------|
| (iv) other (specify)                                                                   |                                         |
| 5.2 If the transferee is a natural person or a partnership:                            |                                         |
| 5.2.1 Provide the identity number of the transferee or each partner in the transferee: | 3. Sibongile Glenda Khoulalo [REDACTED] |

|                                                                                                                                                                                                                                                                                                                                                                                                                                         |                 |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| 5.2.2 Attach a certified copy of the identity document of the transferee or certified copies of the identity document of each partner in the transferee marked clearly as <b>Appendix 5.2.2 of FORM G</b> , indicating that he or she is a citizen of the Republic, as required by section 5(8) (a) of the Act.                                                                                                                         |                 |
| 5.3 If the transferee is a juristic person:                                                                                                                                                                                                                                                                                                                                                                                             |                 |
| 5.3.1. Indicate the legal form of the transferee (e.g. private company incorporated in terms of the Companies Act, 1973):                                                                                                                                                                                                                                                                                                               | Private Company |
| 5.3.2. CIPC Registration number of transferee:                                                                                                                                                                                                                                                                                                                                                                                          | 2006/031226/07  |
| 5.3.3. Attach certified copies of the transferee's certificate of incorporation and memorandum and articles of association or other constitutive and/or other governing documents of the transferee (e.g. memorandum and articles of association, association agreement, constitution) marked clearly as <b>Appendix 5.3.3 of FORM G</b> , indicating the transferee's compliance with the requirements of section 5(8) (b) of the Act. |                 |
| 5.4. If the transferee is not a juristic person but intends to operate as one if this application is granted:                                                                                                                                                                                                                                                                                                                           |                 |

5.4.1. Provide a written undertaking that the transferee will comply with section 5(8) (b) of the Act marked clearly as **Appendix 5.4.1 of FORM G**.

## **6. OWNERSHIP AND MANAGEMENT OF APPLICANT**

6.1 Provide details of all ownership interests in the applicant and the identity and address of each holder of an ownership interest in the applicant. Where an applicant is a juristic person, only shareholdings (or equivalent) of 5% or more of the total issued shares (or equivalent) in the applicant are relevant. **Attach as Appendix 6.1 of FORM G**

1. Phillip Scheal 50%
2. Simone Nicole Halcrow 50%

6.2 Indicate whether the applicant is listed on any stock exchange, and provide details of any such listing: **Attach as Appendix 6.2 of FORM G**

N/A

6.3 In respect of each holder of any ownership interest in any person holding an ownership interest in the applicant, provide the details required in 6.1 in respect of each such holder: **Attach as Appendix 6.3 of FORM G**

See Attached

6.4 Indicate the extent to which any ownership interest referred to above is held by an historically disadvantaged person

1. Simone Nicole Halcrow 50%

6.5. Indicate whether the holder of any ownership interest in the applicant is a foreign citizen or an entity registered or incorporated in any country other than South Africa:

N/A

6.6. Indicate whether any person holding an ownership interest in the applicant holds a Licence issued in terms of the Act or holds an ownership interest in any other licensee licensed to provide a service similar to that to which this application relates:

N/A

6.7. Provide particulars of any interest held by the applicant in another licensee licensed in terms of the Act:

N/A

6.8. Provide details (including name, nationality, identification or passport number, position and address) of each member of the applicant's:

- (i) board of directors or similar body; and
- (ii) senior management.

**Attach as Appendix 6.8 of FORM G**

- 1. Phillip Schael [REDACTED] Director
- 2. Simone Nicole Halcrow [REDACTED] Director

## **7. OWNERSHIP AND MANAGEMENT OF TRANSFEREE**

7.1 Provide details of all ownership interests in the transferee and the identity and address of each holder of an ownership interest in the transferee if a natural person. Where a transferee is a juristic person, indicate all the shareholders and the percentage shares held by each shareholder. **Attach as Appendix 7.1 of FORM G**

7.2 Provide a written undertaking indicating the correctness of the information stated in 7.1 signed off by Accounting Officer clearly marked **Appendix 7.1 of FORM G**.

7.3 Indicate whether the transferee is listed on any stock exchange, and provide details of any such listing.

7.4 Provide a written undertaking indicating the stated in 7.3 signed off by Accounting Officer clearly marked **Appendix 7.3 of FORM G**.

7.5 In respect of each holder of any ownership interest in any person holding an ownership interest in the transferee, provide the details required in 7.1 in respect of each such holder.

7.6 Provide a written undertaking indicating the stated in 7.5 signed off by Accounting Officer clearly marked **Appendix 7.5 of FORM G**.

|           |                                                                                                                                                                                                                                                                                                                                |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7.7       | Indicate the extent to which any ownership interest referred to above is held by historically disadvantaged groups.                                                                                                                                                                                                            |
| 7.8       | Provide a written undertaking indicating the stated in 7.7 signed off by Accounting Officer clearly marked <b>Appendix 7.7 of FORM G.</b>                                                                                                                                                                                      |
| 7.9       | Indicate whether the holder of any ownership interest in the transferee is a foreign citizen or an entity registered or incorporated in any country other than South Africa:                                                                                                                                                   |
| 7.10      | Provide a written undertaking indicating the stated in 7.9 signed off by Accounting Officer clearly marked <b>Appendix 7.9 of FORM G.</b>                                                                                                                                                                                      |
| 7.11      | Indicate whether any person holding an ownership interest in the transferee holds a Licence issued in terms of the Act or holds an ownership interest in any other licensee licensed to provide a service similar to that to which this application relates:                                                                   |
| 7.12      | Provide a written undertaking indicating the stated in 7.11 signed off by Accounting Officer clearly marked <b>Appendix 7.11 of FORM G.</b>                                                                                                                                                                                    |
| 7.13      | Provide particulars of any interest held by the transferee in another licensee licensed in terms of the Act:                                                                                                                                                                                                                   |
| 7.14      | Provide a written undertaking indicating the stated in 7.13 signed off by Accounting Officer clearly marked <b>Appendix 7.13 of FORM G.</b>                                                                                                                                                                                    |
| 7.15      | <p>Provide details (including name, nationality, identification or passport number, position and address) of each member of the transferee's:</p> <ul style="list-style-type: none"> <li>i. board of directors or similar body; and</li> <li>ii. senior management.</li> </ul> <p><b>Attach as Appendix 7.15 of FORM G</b></p> |
| <b>8.</b> | <b>SUITABILITY OF TRANSFeree</b>                                                                                                                                                                                                                                                                                               |

|     |                                                                                                                                                                                                       |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8.1 | Provide particulars of any Licence held by the transferee in terms of the Act, which has been revoked. <b>Attach as Appendix 8.1 of FORM G</b>                                                        |
| N/A |                                                                                                                                                                                                       |
| 8.2 | Provide particulars of any application submitted by the transferee for a Licence in terms of the Act, which was rejected: <b>Attach as Appendix 8.2 of FORM G</b>                                     |
| N/A |                                                                                                                                                                                                       |
| 8.3 | Provide particulars of any application submitted by the transferee for a Licence in terms of the Act which is pending before the Authority: <b>Attach as Appendix 8.3 of FORM G</b>                   |
| N/A |                                                                                                                                                                                                       |
| 8.4 | Provide details of any action taken in relation to the transferee by the Authority or any other person due to a breach of the Act and related legislation.<br><b>Attach as Appendix 8.4 of FORM G</b> |

## 1. LICENSEE

The Licence is issued to:

- 1.1 Name of Company : Linkinc Telecommunications (Pty) Ltd
- 1.2 Shareholders: Phillip Scheel 50%  
Simone Nicole Halcrow 50%
- 1.3 Ownership held by persons from historically disadvantaged groups:  
Simone Nicole Halcrow 50%

## 2. CONTACT DETAILS

2.1 The contact person for the Licensee shall be:

2.1.1 Name: Philip John Scheel

2.2 Should the Licensee propose to replace the person so designated, the Licensee shall notify the Authority in writing within seven (7) days after appointing the new designated person.

## 3. NOTICES AND ADDRESSES

The Licensee chooses the following addresses as its principal addresses:

3.1 Postal Address

3.2 Physical Address

*Handwritten signature/initials*

## **SCHEDULE**

### **1. Trading Name**

Linkinc Telecommunications (Pty) Ltd

### **2. Geographic coverage**

The Licensee shall provide national coverage of its electronic communications services.

### **3. Range of numbers from the National Numbering Plan**

The Licensee shall retain a right to apply for numbers subject to the numbering plan and related regulations issued in terms of section 68 of the EC Act.

### **4. Rights and obligations**

4.1 The Licensee is entitled to provide electronic communications services in the Republic.

4.2 The rights and obligations under this licence may be exercised or performed by a third party, including its agents and contractors. The Licensee shall be responsible for the acts or omissions in respect thereof on the basis that –

4.2.1 the liability of the Licensee for any acts or omissions of such third party, including agents or contractors, in relation to the exercise of such rights shall be limited to acts or omissions which constitute a contravention of the conditions of this Licence;

4.2.2 the Licensee shall stipulate adequate provisions in its contracts with such third party, including agents or contractors, to ensure that their exercise of any of the above rights do not contravene any of the conditions of this Licence;

4.2.3 should any such third party, including agents or contractors, commit any act or omission in contravention of a condition of this Licence, the Licensee shall, upon becoming aware thereof, act as expeditiously as is reasonably possible to remedy such contravention and for this purpose the Licensee shall be afforded reasonable time; and

4.2.4 the Authority shall, upon becoming aware of any contravention of this Licence by such third party, including the Licensee's agents or contractors or any complaints lodged with the Authority in relation thereto, forthwith in writing notify the Licensee accordingly.

4.3 The Licensee and any or all of its Subsidiaries shall be entitled by virtue of this Licence to provide all or any of the Services together with all or any other rights granted to it under this Licence.

4.4 Nothing in this Licence shall be construed or understood as to relieve the Licensee or any other party of the obligations to comply with any other applicable statutory prohibition or obligation.

## **5. Force Majeure**

The Licensee shall not be held liable for its inability to perform its obligations in this licence and other regulations due to unforeseen natural causes. However, the Licensee shall advise the Authority as soon as practicable after becoming aware of the existence of any such event or circumstances likely to lead to such event.

Annual Financial Statements for the year ended 28 February 2023

## Director's Responsibilities and Approval

---

The director is required by the South African Companies Act to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is her responsibility to ensure that the annual financial statements satisfy the financial reporting standards as to form and content and present fairly the statement of financial position, results of operations and business of the company, and explain the transactions and financial position of the business of the company at the end of the financial year. The annual financial statements are based upon appropriate accounting policies consistently applied throughout the company and supported by reasonable and prudent judgements and estimates.

The director acknowledges that she is ultimately responsible for the system of internal financial control established by the company and places considerable importance on maintaining a strong control environment. To enable the director to meet these responsibilities, she sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the company and all employees are required to maintain the highest ethical standards in ensuring the company's business is conducted in a manner that in all reasonable circumstances is above reproach.

The focus of risk management in the company is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The director is of the opinion, based on the information and explanations given by management that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss. The going-concern basis has been adopted in preparing the annual financial statements. Based on forecasts and available cash resources the director has no reason to believe that the company will not be a going concern in the foreseeable future. The annual financial statements support the viability of the company.

The compilers are responsible for reporting on the company's annual financial statements. The compilation report is presented on page 3.

The annual financial statements as set out on pages 7 to 14 were approved by the director on 8 March 2023 and were signed by her.

Annual Financial Statements for the year ended 28 February 2023

## Director's Report

---

The director presents her report for the year ended 28 February 2023.

### 1. Review of activities

#### Main business and operations

The principal activity of the company is telecommunications & related services and there were no major changes herein during the year.

The operating results and statement of financial position of the company are fully set out in the attached financial statements and do not in my opinion require any further comment.

### 2. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

### 3. Events after reporting date

All events subsequent to the date of the annual financial statements and for which the applicable financial reporting framework require adjustment or disclosure have been adjusted or disclosed.

The director is not aware of any matter or circumstance arising since the end of the financial year to the date of this report that could have a material effect on the financial position of the company.

### 4. Director's interest in contracts

To my knowledge I had no interest in any contracts entered into during the year under review.

### 5. Authorised and issued share capital

No changes were approved or made to the authorised or issued share capital of the company during the year under review.

### 6. Dividends

No dividends were declared nor paid to the shareholder during the year.

### 7. Director

The director of the company during the year and to the date of this report is as follows:

## Accounting Policies

---

### 1. General information

Linkinc Telecommunications (Pty) Ltd is a private company incorporated in South Africa.

### 2. Summary of significant accounting policies

These annual financial statements have been prepared in accordance with the International Financial Reporting Standards for Small and Medium-sized Entities issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa. The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

These financial statements have been prepared under the historical cost convention and are presented in South African Rands.

#### 2.1 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and / or services in the ordinary course of the company's activities. Revenue is shown net of value-added tax, returns, and discounts.

The company recognises revenue when: the amount of revenue can be reliably measured; it is probable that future economic benefits will flow to the entity; and specific criteria have been met for each of the company's activities, as described below:

##### 2.1.1 Services revenue

The service rendered is recognised as revenue by reference to the stage of completion of the transaction at the reporting date.

#### 2.2 Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The residual value, depreciation method and useful life of each asset are reviewed at each annual reporting period if there are indicators present that there has been significant change from the previous estimates.

Depreciation is charged so as to allocate the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The following rates are used for the depreciation of property, plant and equipment:

|                           |       |
|---------------------------|-------|
| Infrastructure - Fibre    | 5.00% |
| Office Equipment          | 5.00% |
| Infrastructure - Wireless | 5.00% |
| Infrastructure - VOIP     | 3.00% |

# Linkinc Telecommunications (Pty) Ltd

(Registration Number 2006/031226/07)

Financial Statements for the year ended 28 February 2023

## Accounting Policies

---

*Summary of significant accounting policies continued...*

### 2.3 Trade and other receivables

Trade receivables are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest rate method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables.

### 2.4 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown under current liabilities on the statement of financial position.

### 2.5 Share capital

Ordinary shares are classified as equity.

Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

### 2.6 Borrowings

Borrowings are recognised initially at the transaction price (that is, the present value of cash payable to the bank, including transaction costs). Borrowings are subsequently stated at amortised cost. Interest expense is recognised on the basis of the effective interest rate method and is included in finance costs.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

### 2.7 Trade payables

Trade payables are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest rate method.

## Accounting Officer's Report

---

### To the Directors

I have compiled the accompanying annual financial statements of Linkinc Telecommunications Pty Ltd based on information you have provided. These annual financial statements comprise the statement of financial position of Linkinc Telecommunications as at the year end, the statement of comprehensive income, the statement of changes in equity and the statement of cashflows for the year then ended, a summary of significant accounting policies and other explanatory information.

I performed this compilation engagement in accordance with International Standard on Related Services 4410 (Revised), Compilation Engagements.

I have applied my expertise in accounting and financial reporting to assist you in preparation and presentation of these financial statements in accordance with the International Financial Reporting Standards for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa. I have compiled with relevant ethical requirements, including principles of integrity, objectivity, professional competence and due care.

The financial statements and the accuracy of completeness of the information used to compile them are your responsibility.

Since a compilation engagement is not an assurance engagement, I am not required to verify the accuracy or completeness of the information you provided to me to compile these financial statements. Accordingly, I do not express an audit opinion or a review conclusion on whether these financial statements are prepared in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa.

## Directors' Responsibilities and Approval.

---

The directors are required by the South African Companies Act to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements satisfy the financial reporting standards as to form and content and present fairly the statement of financial position, results of operations and business of the company, and explain the transactions and financial position of the business of the company at the end of the financial year. The annual financial statements are based upon appropriate accounting policies consistently applied throughout the company and supported by reasonable and prudent judgements and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the company and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the board sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the company and all employees are required to maintain the highest ethical standards in ensuring the company's business is conducted in a manner that in all reasonable circumstances is above reproach.

The focus of risk management in the company is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the company endeavors to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behavior are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss. The going-concern basis has been adopted in preparing the annual financial statements. Based on forecasts and available cash resources the directors have no reason to believe that the company will not be a going concern in the foreseeable future. The annual financial statements support the viability of the company.

The compiler is responsible for reporting on the company's annual financial statements. The compilation report is presented on page 2.

## Accounting Policies

---

### 1 General Information

Linkinc Telecommunications Pty Ltd is a private company incorporated in South Africa.

### 2 Summary of significant accounting policies

These annual financial statements have been prepared in accordance with the International Financial Reporting Standards for Small and Medium-sized Entities issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa. The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

These financial statements have been prepared under the historical cost convention and are presented in South African Rands.

#### 2.1 Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The residual value, depreciation method and useful life of each asset are reviewed at each annual reporting period if there are indicators present that there has been significant change from the previous estimates.

Depreciation is charged so as to allocate the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The following rates are used for the depreciation of property, plant and equipment:

|                                 |        |
|---------------------------------|--------|
| Wireless & Fibre Infrastructure | 33.33% |
|---------------------------------|--------|

#### 2.2 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown under current liabilities on the statement of financial position.

#### 2.3 Share capital

Ordinary shares are classified as equity.

Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

#### 2.4 Trade Payables

Trade payables are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest rate method.

**CODE OF CONDUCT IN TERMS OF SECTION 54**

**Purpose of the regulations**

In accordance with Section 54(1) of the ECA the Authority hereby sets standards according to which Broadcasting Service Licensees will be monitored by the Authority and adjudicated upon in terms of Section 17A-E of the ICASA Act, subject to Section 54(3) of the ECA.

**1. Definitions**

In these regulations, unless the context indicates otherwise, a word or expression to which a meaning has been assigned in the Act has the meaning so assigned.

"Act" means the Electronic Communications Act, Act no 36 of 2005;

"audience" refers to both the viewers and listeners of television and sound broadcasting service licensees;

"broadcasting service licensee" means a broadcasting service licensee as defined in section 1 of the Act;

"child pornography" means any description or visual image, real or simulated, however created, explicitly depicting a person who is or who is depicted as being under the age of 18 years (a) engaged in or participating in sexual conduct; (b) engaged in an explicit display of genitals; or (c) assisting another person to engage in sexual conduct which, judged within context, has as its predominant objective purpose, the stimulation of sexual arousal in its target audience;

"child" means a person under the age of 18 years;

"ICASA Act" means the Independent Communications Authority of South Africa Act 13 of 2000;

"sexual conduct" means: (i) the display of genitals or of the anus; (ii) masturbation; (iii) sexual intercourse including anal sexual intercourse; (iv) in the case of child pornography, the fondling or touching of breasts, genitalia, or the anus; (v) the penetration of a vagina or anus with any object; (vi) oral genital contact; or (vii) oral anal contact;

"watershed period" means the period between 21h00 and 05h00 for free-to-air television Broadcasting service licensees and 20h00 and 05h00 for subscription television Broadcasting service licensees.

(4) Animated programming for children, while accepted as a stylised form of storytelling which may contain non-realistic violence, must not have violence as its central theme, and must not incite dangerous imitation,

(5) Programming for children must with reasonable care deal with themes that could threaten their sense of security when portraying, for example, domestic conflict, death, crime or the use of drugs or alcohol.

(6) Programming for children must with reasonable care deal with themes which could influence children to imitate acts which they see on screen or hear about, such as the use of plastic bags as toys, the use of matches or the use of dangerous household objects as toys.

(7) Programming for children must not contain realistic scenes of violence which create the impression that violence is the preferred or only method to resolve conflict between individuals.

STAATSKOERANT, 6 JULIE 2009 No. 32381 7

(8) Programming for children must not contain realistic scenes of violence which minimise or gloss over the effect of violent acts. Any realistic depictions of violence must portray, in human terms, the consequences of that violence to its victims and its perpetrators.

(9) Programming for children must not contain frightening or other excessive special effects not required by the story line.

(10) Offensive language, including profanity and other religiously insensitive material, must not be broadcast in programmes specially designed for children.

(11) No excessively or grossly offensive language should be used before the watershed period on television or at times when a large number of children is likely to be part of the audience on television or radio.

#### 6. Watershed Period

(1) Programming on television which contains scenes of explicit violence and/or sexual conduct and/or nudity and/or grossly offensive language intended for adult audiences must not be broadcast before the watershed period.

(2) Promotional material and music videos which contain scenes of explicit violence and/or explicit threatening violence and/or sexual conduct and/or the fondling or touching of breasts and/or genitalia or the anus and/or nudity and/or offensive language intended for adult audiences must not be broadcast before the watershed period.

(3) Some programmes broadcast outside the watershed period may not be suitable for very young children. Licensees must provide sufficient information, in terms of regular scheduling patterns and audience advisories, to assist parents and de facto or legal guardians to make appropriate viewing choices.

(4) Television broadcasting service licensees may, with the advance of the watershed period, progressively broadcast more adult material.

(2) No film which has an XX classification in terms of the Films and Publications Act may be broadcast.

10. News

(1) Broadcasting service licensees must report news truthfully, accurately and fairly.

(2) News must be presented in the correct context and in a fair manner, without intentional or negligent departure from the facts, whether by:

(a) Distortion, exaggeration, or misrepresentation.

(b) Material omissions; or

(c) Summarisation

(3) Only that which may reasonably be true, having reasonable regard to the source of the news, may be presented as fact, and such fact must be broadcast fairly with reasonable regard to context and importance.

(4) Where a report is not based on fact or is founded on opinion, supposition, rumours or allegations, it must be presented in such manner as to indicate clearly that such is the case.

(5) Where there is reason to doubt the correctness of the report and it is practical to verify the correctness thereof, the report must be verified. Where such verification is not practical, that fact must be mentioned in the report.

(6) Where it subsequently appears that a broadcast report was incorrect in a material respect, it must be rectified forthwith, without reservation or delay. The rectification must be presented with such a degree of prominence and timing as in the circumstances may be adequate and fair so as to readily attract attention.

10 No. 32381 GOVERNMENT GAZETTE, 6 JULY 2009

(7) The identity of rape victims and other victims of sexual violence must not be divulged in any broadcast, whether as part of news or not, without the prior valid consent of the victim concerned.

(8) Broadcasting service licensees must advise viewers in advance of scenes or reporting of extraordinary violence, or graphic reporting on delicate subject matter such as sexual assault or court action related to sexual crimes, particularly during afternoon or early evening newscasts and updates.

(9) Broadcasting service licensees must not include explicit or graphic language related to news of destruction, accidents or sexual violence which could disturb children or sensitive audiences, except where it is in the public interest to include such material.

15. Competitions and Audience Participation

(1) Broadcasting service licensees must make known during a broadcast the full cost of a telephone call or a SMS, where audiences are invited on air to react to a programme or competition.

(2) Broadcasting service licensees must specify the proportion of the cost of the call or SMS which is intended for any specified charitable cause.

(3) Broadcasting service licensees must ensure that audiences who are invited to compete in any competition are made aware on air of the rules of the competition. Such rules must include the closing date and the manner in which the winner is to be determined.

12 No. 32381 GOVERNMENT GAZETTE, 6 JULY 2009

16. Short title and commencement

These regulations are called the ICASA Code of conduct for broadcasting service licensees and will come into force on the 1st of August 2009.

# SWORN AFFIDAVIT - B-BBEE EXEMPTED MICRO ENTERPRISE

I, the undersigned,

|                     |                          |
|---------------------|--------------------------|
| Full name & Surname | Sibongile Glenda Khumalo |
| Identity number     | [REDACTED]               |

Hereby declare under oath as follows:

- The contents of this statement are to the best of my knowledge a true reflection of the facts.
- I am a member / director / owner of the following enterprise and am duly authorised to act on its behalf:

|                     |                                       |
|---------------------|---------------------------------------|
| Enterprise Name     | Kind Ink Telecommunications (PTY) LTD |
| Trading Name        |                                       |
| Registration Number | 2006/031226/07                        |
| Enterprise Address  | [REDACTED]                            |

- I hereby declare under oath that:
  - The enterprise is 100 % black owned;
  - The enterprise is 100 % black woman owned;
  - Based on the management accounts and other information available on the 29/02/2022 financial year, the income did not exceed R10,000,000.00 (ten million rands);
  - Please confirm on the table below the B-BBEE level contributor, by ticking the applicable box.

|                           |                                                  |   |
|---------------------------|--------------------------------------------------|---|
| 100% black owned          | Level One (135% B-BBEE procurement recognition)  | X |
| More than 51% black owned | Level Two (125% B-BBEE procurement recognition)  |   |
| Less than 51% black owned | Level Four (100% B-BBEE procurement recognition) |   |

- The entity is an empowering supplier in terms of the dti Codes of Good Practice.
- I know and understand the contents of this affidavit and I have no objection to take the prescribed oath and consider the oath binding on my conscience and on the owners of the enterprise which I represent in this matter.
- The sworn affidavit will be valid for a period of 12 months from the date signed by commissioner.

## EXECUTIVE SUMMARY

This report has been compiled by Fides Advisory Services Ltd, T/A Networks Anonymous. Networks Anonymous was appointed to provide an independent competition analysis report to comply with Regulation 11(4)(a) and requirement 9.2 of Form G of the “Regulations on processes and procedures in terms of the Electronic Communications Act” as specified in Government Gazette Number 39871, published on the 30<sup>th</sup> of March 2016 (as amended).

The report provides an analysis of the possible markets affected by the proposed change in control of the Individual Electronic Communications Network Services (I-ECNS) licence and the Individual Electronic Communications Services (I-ECS) licence held by Link Inc Telecommunications (Pty) Ltd.

### Methodological approach used for this report

The methodology used in this report follows the guidance to defining markets and assessing competition as outlined by the Independent Communications Authority of South Africa (the “Authority” or “ICASA”) in its “Guideline for Conducting Market Reviews” published on the 8<sup>th</sup> of March 2010 and the 2018 Findings document on Priority Markets.<sup>1</sup>

### Impact of this transaction on competition

Networks Anonymous finds the following:

- 1) The Applicant operates a closed network, owning network infrastructure which it uses for its own purposes to provide retail services to its own customers
- 2) The Applicant has a less than 1% share of the markets in which it operates:

- 3) There is no evidence to suggest that the transaction has any impact on the level of competition in the identified markets.

---

<sup>1</sup> Available at: <https://www.icasa.org.za/uploads/files/findings-document-priority-markets-inquiry.pdf>

## 1. Introduction

This report has been compiled by Fides Advisory Services Ltd T/A Networks Anonymous as an independent competition analysis report to comply with Regulation 11(4)(a) and requirement 9.2 of Form G of the “Regulations on processes and procedures in terms of the Electronic Communications Act” as specified in Government Gazette Number 39871, published on the 30<sup>th</sup> of March 2016 (as amended)

This report provides an analysis of the possible competition impacts of the proposed change in control of the Individual Electronic Communications Network Service licence (#0065/IECNS/JAN/2009) and Individual Electronic Services Licence (0065/IECS/JAN/2009) held by Link Inc Telecommunications (Pty) Ltd (the Applicant)

## 2. Details of the change in ownership

Figure 2-1 below illustrates the proposed change in ownership:

**Figure 2-1: Proposed change in ownership**

Source: Networks Anonymous

According to information provided by the Applicant, a change in Directorship within the country has taken place, whereby:

- Mr Andrew Barber has resigned his Directorship
- Ms Sibongile Khumalo has been appointed as a Director<sup>2</sup>

<sup>2</sup> See CIPRO registration documentation provided by the Applicant.

### 3. Methodology to assess the impact of this transaction on competition

This section outlines the methodology applied to:

- Define the market or markets that may be affected by the change in control; and
- The potential impact this change in control may have on competition in the market or markets.

#### 3.1. Market definition

The correct definition of the market is crucial to determine the impact this application may have on the South African electronic communications markets. The following documents have been used as reference points to guide the methodology used in this report:

- Electronic Communications Act, no. 36 of 2005, where Chapter Eight of the Act outlines certain steps and factors that the Authority must follow when defining markets;
- The Authority's "Guideline to Conducting Market Reviews"<sup>3</sup> which provides a more detailed list of factors to be considered when assessing the level of effective competition in a market;
- The Call Termination Market Reviews of 2010<sup>4</sup> and 2014<sup>5</sup> which provide practical examples as to how the Authority has approached defining markets;
- The National Integrated ICT Policy White Paper (the White Paper) published in Government Gazette Number 40325 on the 3<sup>rd</sup> of October 2016. The White Paper defines the following markets:
  - *International segment: The international market includes undersea cables and satellite.*
  - *Backbone infrastructure: the backbone infrastructure market is the network that connects the cities, towns and villages.*
  - *Metro infrastructure: The metro network is a regional network comprising a number of interconnected aggregation/switching centres.*
  - *Last Mile (local loop) infrastructure: The White Paper segments this into two markets:*
    - *Fibre-based last mile broadband market*
    - *Wireless last mile broadband market*<sup>6</sup>
- The Findings Document on Priority Markets Inquiry (the "Findings Document") in the electronics communications sector, published by ICASA on the 17<sup>th</sup> of August 2018. This publication provides ICASA's definition of the various markets operating in South Africa to date as well as the likely level of competition in these markets.

Table 3-1 below lists the markets defined by ICASA during its Inquiry into Priority Markets. The table lists the identified retail, wholesale and upstream markets and their related interdependencies.

ICASA further provides a list of markets, which it believes should be prioritised for review. These markets are illustrated in Table 3-2 below:

**Table 3-2: List of markets prioritised for market reviews**

| MARKET NAME                            | MARKET SEGMENTS                                                                 |
|----------------------------------------|---------------------------------------------------------------------------------|
| <b>Mobile services</b>                 | R1: Retail market for mobile services                                           |
|                                        | W3: Wholesale supply of mobile network services, including relevant facilities. |
| <b>Wholesale fixed access</b>          | W6: Wholesale supply of asymmetric broadband origination                        |
|                                        | U4: Fixed access services and relevant facilities                               |
| <b>Upstream infrastructure markets</b> | U2: National transmission services and relevant facilities                      |
|                                        | U3: Metropolitan connectivity and relevant facilities                           |

Networks Anonymous shall apply ICASA's market definitions to ascertain the impact this application may have on the market or markets.

### 3.2. Information gathering process

The Applicant has completed a questionnaire that is designed to extract relevant information to assess the potential impact of this application on any market. This includes:

1. The type of service the transferee intends to offer;
2. Who the Applicant and the Transferee are/intend to compete against;

3. Potential barriers to competition in the market that may prevent other licensees from competing against the Applicant or the Transferee;
4. Financial considerations of both parties to the transaction, such as Assets and Liabilities (to test against the Competition Commission Guidelines for the size of any merger or acquisition);
5. How end-users are to receive services; and
6. The geographic scope of services.

The information received from the Applicant is then compared to information available from other sources, including ICASA's various "State of the ICT Sector" reports (available at:

<https://www.icasa.org.za/pages/sector-forecasting>), Annual Financial Statements of operators, media reports and direct engagement with industry players.

#### 4. Assessing the impact of the application on competition in the relevant market

##### 4.1. Identifying the markets where the applicant is present

Table 4-1 below indicates the markets in which the Applicant:

- Sells services
- Provides its own network infrastructure
- Purchases network services

**Table 4-1: Markets where the Applicant sells and buys services**

| MARKET # | MARKET DESCRIPTION                                             | SERVICES SOLD BY THE APPLICANT | SERVICES SELF-PROVIDED BY THE APPLICANT | SERVICES PURCHASED BY THE APPLICANT |
|----------|----------------------------------------------------------------|--------------------------------|-----------------------------------------|-------------------------------------|
|          | Retail MARKETS                                                 |                                |                                         |                                     |
| R 1      | Retail supply of mobile services                               |                                |                                         |                                     |
| R 2      | Retail supply of voice telephony at fixed locations            | X                              |                                         |                                     |
| R 3      | Retail supply of access to the internet from fixed locations   | X                              |                                         |                                     |
| R 4      | Retail supply of managed data network services                 |                                |                                         |                                     |
|          | Wholesale MARKETS                                              |                                |                                         |                                     |
| W1       | Wholesale supply of mobile termination services                |                                |                                         |                                     |
| W2       | Wholesale supply of international roaming services             |                                |                                         |                                     |
| W3       | Wholesale supply of mobile network services                    |                                |                                         |                                     |
| W4       | Wholesale supply of fixed termination services                 |                                | X                                       |                                     |
| W5       | Wholesale supply of fixed call access, origination and transit |                                | X                                       |                                     |
| W6       | Wholesale supply of asymmetric broadband origination           |                                |                                         |                                     |
| W7       | Wholesale supply of internet connectivity                      |                                | X                                       |                                     |
|          | Upstream MARKETS                                               |                                |                                         |                                     |

Source: Networks Anonymous

The Applicant operates a closed network, meaning that the Applicant sells those services in Markets U4, W4, W5 & W7 to itself in order to provide services in Markets R2 and R3.

## 4.2. Competition in Upstream Markets

This section of the report provides an assessment of competition in the ICASA-identified upstream markets.

### 4.2.1. Market U1: International transmission services

The Applicant, like all other licensees in South Africa, is dependent on access to sub-sea cables to provide access to the global Internet. Given the number, scope and scale of the installed sub-sea cables, this market is not currently scheduled for a review by ICASA.

Table 4-2 below lists those operators from whom the Applicant may purchase such services:

**Table 4-2: International sub-sea transmission cables with landing stations in South Africa**

| CABLE NAME                                                                         | ACRONYM    | LANDING STATION |                           | DATE OF OPERATIONS | CAPACITY (Tbps) |
|------------------------------------------------------------------------------------|------------|-----------------|---------------------------|--------------------|-----------------|
|                                                                                    |            | West Coast      | East Coast                |                    |                 |
| South Africa Far East                                                              | SAFE       |                 | Mtunzini                  | 2002               | 12.8            |

| SOUTH ATLANTIC EXPRESS                                                             | SAEx1      | Cape Town       |                           |                    | 108             |
| Equiano                                                                            | Equiano    | Melkbosstrand   |                           |                    | 150             |
| 2Africa                                                                            | 2Africa    | Duynfontein     |                           |                    | 180             |

Source: <https://www.submarinenetworks.com> and RTI International, 2020.

The Applicant is a price-taker in the purchasing of services in this market and the change in ownership therefore has no impact of competition.

### 4.2.2. Market U2: National transmission services & U3: Metropolitan connectivity

The Applicant purchases both national transmission services and metropolitan connectivity (through connectivity at a datacentre). There is no single player in the South African market who owns infrastructure and provides services exclusively in either of these two markets. Rather, different players have targeted different geographic areas, with Telkom Group South Africa being the only market player with a geographic footprint that connects to (almost) all towns and cities in South Africa.

Table 4-3 below lists the major primary asset owners who currently operate in the national connectivity and/or the metropolitan connectivity services markets:

**Table 4-3: Main infrastructure owners in the National transmission services and metropolitan connectivity markets**

| Licensee that own infrastructure in both national transmission services and metropolitan services markets | Licensees that own infrastructure in Metropolitan services market |
|-----------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------|
| Openserve                                                                                                 | MetroFibre Networks                                               |

Source: Networks Anonymous research and analysis

Based on available information, Figure 4-1 below illustrates that although there are at least 12 players in the combined National Transmission and Metropolitan Connectivity markets, Telkom Group South Africa holds a significant market position (based on km of installed infrastructure).

**Figure 4-1: Combined National Transmission and Metropolitan Connectivity market shares of primary asset owners (by km of fibre installed)**

Source: Digital Council Africa, 2021: Africa Digital Infrastructure Market Analysis 2021 Report

The table below outlines known secondary network asset ownership in the National Transmission market

**Table 4-4: Secondary asset owners in the National Transmission market**

| LICENSEE | DISTANCE OF NETWORK OWNED | MARKET SHARE |
|----------|---------------------------|--------------|
| Vodacom  | 33,000                    | 53%          |
| MTN      | 21,000                    | 34%          |
| Frogfoot | 8,649                     | 14%          |
| Total    | 62,649                    | 100%         |

Source: confidential information

The Applicant is a price-taker in the purchasing of services in this market and the change in ownership therefore has no impact of competition.

#### 4.2.3. Market U4: Fixed access services

The Applicant has deployed its own access network infrastructure to up to 3000 end-points (through a mixture of last mile fibre in Multi-Dwelling Units and Fixed Wireless Access services). Table 4-5 below provides an indication of market shares in this market:

**Table 4-5: Market share of various operators in the Fixed Access Market, latest figures**

| Fibre network operator (FNO)      | Homes passed                                               | Homes connected                                   | Connectivity rate                                                 | Market Share |                 |
|-----------------------------------|------------------------------------------------------------|---------------------------------------------------|-------------------------------------------------------------------|--------------|-----------------|
|                                   | Households that have access to a particular network        | Households that use that network for connectivity | Percentage of homes with access to particular network that use it | Homes Passed | Homes Connected |
| Vumatel                           | 2,000,000 (Aug 2023)                                       | 600,000 (June 2023)                               | 30.00%                                                            | 45%          | 40%             |

| Evotel                            | 141,000 (March 2023)                                       | 39,000 (March 2023)                               | 27.66%                                                            | 3%           | 3%              |
| Zoom Fibre                        | 130,000 (October 2022)                                     | 27,000 (October 2022)                             | 20.76%                                                            | 3%           | 2%              |
| <b>Applicant (fibre plus FWA)</b> | <b>approx. 3000 (Oct 2023)</b>                             | <b>approx. 3000 (Oct 2023)</b>                    | <b>95%</b>                                                        | <b>0%</b>    | <b>0%</b>       |
| <b>Total</b>                      | <b>4,491,921 (includes overlapping homes / overbuilds)</b> | <b>1,502,316 (excludes Herotel)</b>               | <b>33%</b>                                                        |              |                 |

Source: Networks Anonymous, annual reports and mybroadband.co.za

Table 4-5 indicates that the Applicant has a negligible presence in the market for Upstream Fixed Access Services. The change in ownership shall not have any material impact on the level of competition in the market.

### 4.3. Competition in Wholesale Markets

The licensees listed in Table 4-5 provide access to their last mile infrastructure at Layer 2 of the OSI stack, i.e. at the wholesale layer in Market W7: Wholesale supply of internet connectivity. These statistics may therefore be used to assess the level of competition in the wholesale market as well.

As the table shows, the Applicant has a negligible market share and therefore the change in ownership has no direct or indirect impact on the level of competition in Market W7

### 4.4. Competition in Retail Markets

Table 4-6 below provides the Applicant's presence and market shares of the relevant retail markets:

**Table 4-6: Applicant market shares in relevant retail markets**

| MARKET # | MARKET DESCRIPTION                                           | APPLICANT CLIENT VOLUMES | TOTAL MARKET* | APPLICANT MARKET SHARE |
|----------|--------------------------------------------------------------|--------------------------|---------------|------------------------|
|          | Retail MARKETS                                               |                          |               |                        |
| R 2      | Retail supply of voice telephony at fixed locations          | 20                       | 1,426,994     | <0.1%                  |
| R 3      | Retail supply of access to the internet from fixed locations | 3000                     | 1,365,429     | <0.1%                  |

\*Statistics sourced from Graph 29 and Graph of the ICASA March 2023 "State of the ICT Sector Report in South Africa" report

The above table indicates that the Applicant has a negligible market share in its two retail markets and therefore the change in ownership may not have any impact on the level of competition in the identified markets.

## **5. Concluding statement**

The Applicant provides services to a total of 3000 clients/network end-points, or has a <1% share of the markets in which it participates. The Applicant is also wholly dependent on the Upstream Markets of International Transmission, National Transmission and Metropolitan Connectivity to provide services. There is no available evidence indicating that this application for a change in control will have any impact on the level of competition in the relevant markets.

## **APPENDIX 9.3 OF FROM G**

## 1. Introduction

This report is an independent consumer analysis report to comply with Regulation 11(4)(a) and requirement 9.2 of Form G of the “Regulations on processes and procedures in terms of the Electronic Communications Act” as specified in Government Gazette Number 39871, published on the 30<sup>th</sup> of March 2016 (as amended). The report was compiled by Fides Advisory Services Ltd T/A Networks Anonymous on behalf of Link Inc Telecommunications (Pty) Ltd.

## 2. Services offered Link Inc Telecommunications

Link Inc Telecommunications offers services in the following two ICASA-defined markets:

- Retail supply of voice telephony at fixed locations
- Retail supply of access to the internet from fixed locations

The licensee operates in Johannesburg and Cape Town, providing services to approximately 3000 fixed locations.

## 3. Details of the change in ownership

Figure 3-1 below illustrates the proposed change in ownership:

**Figure 3-1: Proposed change in ownership**

Source: Networks Anonymous

According to information provided by the Applicant, a change in Directorship within the country has taken place, whereby:

- Mr Andrew Barber has resigned his Directorship
- Ms Sibongile Khumalo has been appointed as a Director<sup>1</sup>

<sup>1</sup> See CIPRO registration documentation provided by the Applicant.

#### **4. How a change in ownership may impact consumers**

This section outlines the methodology used to determine the manner in which consumers may be affected by the proposed change, by taking into account:

1. The requirements under the End-user and Subscriber Service Charter Regulations published in Government Gazette 39898 on the 1st of April 2016, as amended, and
2. The impact of this change in control for existing end-users of the Applicant.

Questions explored to assess the impact of the change in control on consumers include whether:

1. The existing service will remain available.
2. The end-user will receive lower or increased prices post the transfer.
3. The end-user will receive the same, worse or better quality of service from the Transferee compared to the existing Quality of Service it receives from the Applicant?
4. The end-user will have access to a greater or less range of future Electronic Communications Services if the transfer were to be approved?
5. The end-user will be adversely affected by any billing and accounts migration process.

The Applicant provided a response to these questions via a written questionnaire as well as email communication.

#### **5. The impact of this transfer on consumer interests**

The Applicant has confirmed that the change in ownership has no impact on the current operations of the licensee, meaning the following:

1. Quality of service offered to consumers shall remain the same;
2. Current pricing trends remain the same;
3. Technical support contact details and availability of support desks do not change;
4. There are no changes in contract terms and conditions that impinge on consumer welfare;  
and
5. The licensee shall retain the same level of staff post approval of the transaction.

#### **6. Concluding statement**

The Applicant has confirmed that the change in control of the licence shall not change any of the operating procedures of the business, meaning that quality of services and billing mechanisms shall remain the same. Therefore the proposed change in control has a neutral impact on consumer welfare.

## EXECUTIVE SUMMARY

This report has been compiled by Fides Advisory Services Ltd, T/A Networks Anonymous. Networks Anonymous was appointed to provide an independent competition analysis report to comply with Regulation 11(4)(a) and requirement 9.2 of Form G of the “Regulations on processes and procedures in terms of the Electronic Communications Act” as specified in Government Gazette Number 39871, published on the 30<sup>th</sup> of March 2016 (as amended).

The report provides an analysis of the possible markets affected by the proposed change in control of the Individual Electronic Communications Network Services (I-ECNS) licence and the Individual Electronic Communications Services (I-ECS) licence held by Link Inc Telecommunications (Pty) Ltd.

### Methodological approach used for this report

The methodology used in this report follows the guidance to defining markets and assessing competition as outlined by the Independent Communications Authority of South Africa (the “Authority” or “ICASA”) in its “Guideline for Conducting Market Reviews” published on the 8<sup>th</sup> of March 2010 and the 2018 Findings document on Priority Markets.<sup>1</sup>

### Impact of this transaction on competition

Networks Anonymous finds the following:

- 1) The Applicant operates a closed network, owning network infrastructure which it uses for its own purposes to provide retail services to its own customers
- 2) The Applicant has a less than 1% share of the markets in which it operates:

#### Applicant's market share in relevant retail markets

| MARKET # | MARKET DESCRIPTION                                           | APPLICANT CLIENT VOLUMES | TOTAL MARKET* | APPLICANT MARKET SHARE |
|----------|--------------------------------------------------------------|--------------------------|---------------|------------------------|
| R 2      | Retail supply of voice telephony at fixed locations          | 20                       | 1,426,994     | <0.1%                  |
| R 3      | Retail supply of access to the internet from fixed locations | 3000                     | 1,365,429     | <0.1%                  |

\*Statistics sourced from Graph 29 and Graph of the ICASA March 2023 “State of the ICT Sector Report in South Africa” report

- 3) There is no evidence to suggest that the transaction has any impact on the level of competition in the identified markets.

## 1. Introduction

This report has been compiled by Fides Advisory Services Ltd T/A Networks Anonymous as an independent competition analysis report to comply with Regulation 11(4)(a) and requirement 9.2 of Form G of the “Regulations on processes and procedures in terms of the Electronic Communications Act” as specified in Government Gazette Number 39871, published on the 30<sup>th</sup> of March 2016 (as amended)

This report provides an analysis of the possible competition impacts of the proposed change in control of the Individual Electronic Communications Network Service licence (#0065/IECNS/JAN/2009) and Individual Electronic Services Licence (0065/IECS/JAN/2009) held by Link Inc Telecommunications (Pty) Ltd (the Applicant)

## 2. Details of the change in ownership

Figure 2-1 below illustrates the proposed change in ownership:

**Figure 2-1: Proposed change in ownership**

Source: Networks Anonymous

According to information provided by the Applicant, a change in Directorship within the country has taken place, whereby:

- Mr Andrew Barber has resigned his Directorship
- Ms Sibongile Khumalo has been appointed as a Director<sup>2</sup>

<sup>2</sup> See CIPRO registration documentation provided by the Applicant.

### 3. Methodology to assess the impact of this transaction on competition

This section outlines the methodology applied to:

- Define the market or markets that may be affected by the change in control; and
- The potential impact this change in control may have on competition in the market or markets.

#### 3.1. Market definition

The correct definition of the market is crucial to determine the impact this application may have on the South African electronic communications markets. The following documents have been used as reference points to guide the methodology used in this report:

- Electronic Communications Act, no. 36 of 2005, where Chapter Eight of the Act outlines certain steps and factors that the Authority must follow when defining markets;
- The Authority's "Guideline to Conducting Market Reviews"<sup>3</sup> which provides a more detailed list of factors to be considered when assessing the level of effective competition in a market;
- The Call Termination Market Reviews of 2010<sup>4</sup> and 2014<sup>5</sup> which provide practical examples as to how the Authority has approached defining markets;
- The National Integrated ICT Policy White Paper (the White Paper) published in Government Gazette Number 40325 on the 3<sup>rd</sup> of October 2016. The White Paper defines the following markets:
  - *International segment: The international market includes undersea cables and satellite.*
  - *Backbone infrastructure: the backbone infrastructure market is the network that connects the cities, towns and villages.*
  - *Metro infrastructure: The metro network is a regional network comprising a number of interconnected aggregation/switching centres.*
  - *Last Mile (local loop) infrastructure: The White Paper segments this into two markets:*
    - *Fibre-based last mile broadband market*
    - *Wireless last mile broadband market*<sup>6</sup>
- The Findings Document on Priority Markets Inquiry (the "Findings Document") in the electronics communications sector, published by ICASA on the 17<sup>th</sup> of August 2018. This publication provides ICASA's definition of the various markets operating in South Africa to date as well as the likely level of competition in these markets.

Table 3-1 below lists the markets defined by ICASA during its Inquiry into Priority Markets. The table lists the identified retail, wholesale and upstream markets and their related interdependencies.

ICASA further provides a list of markets, which it believes should be prioritised for review. These markets are illustrated in Table 3-2 below:

**Table 3-2: List of markets prioritised for market reviews**

| MARKET NAME                            | MARKET SEGMENTS                                                                 |
|----------------------------------------|---------------------------------------------------------------------------------|
| <b>Mobile services</b>                 | R1: Retail market for mobile services                                           |
|                                        | W3: Wholesale supply of mobile network services, including relevant facilities. |
| <b>Wholesale fixed access</b>          | W6: Wholesale supply of asymmetric broadband origination                        |
|                                        | U4: Fixed access services and relevant facilities                               |
| <b>Upstream infrastructure markets</b> | U2: National transmission services and relevant facilities                      |
|                                        | U3: Metropolitan connectivity and relevant facilities                           |

Networks Anonymous shall apply ICASA's market definitions to ascertain the impact this application may have on the market or markets.

### 3.2. Information gathering process

The Applicant has completed a questionnaire that is designed to extract relevant information to assess the potential impact of this application on any market. This includes:

1. The type of service the transferee intends to offer;
2. Who the Applicant and the Transferee are/intend to compete against;

3. Potential barriers to competition in the market that may prevent other licensees from competing against the Applicant or the Transferee;
4. Financial considerations of both parties to the transaction, such as Assets and Liabilities (to test against the Competition Commission Guidelines for the size of any merger or acquisition);
5. How end-users are to receive services; and
6. The geographic scope of services.

The information received from the Applicant is then compared to information available from other sources, including ICASA's various "State of the ICT Sector" reports (available at:

<https://www.icasa.org.za/pages/sector-forecasting>), Annual Financial Statements of operators, media reports and direct engagement with industry players.

## 4. Assessing the impact of the application on competition in the relevant market

### 4.1. Identifying the markets where the applicant is present

Table 4-1 below indicates the markets in which the Applicant:

- Sells services
- Provides its own network infrastructure
- Purchases network services

**Table 4-1: Markets where the Applicant sells and buys services**

| MARKET # | MARKET DESCRIPTION                                             | SERVICES SOLD BY THE APPLICANT | SERVICES SELF-PROVIDED BY THE APPLICANT | SERVICES PURCHASED BY THE APPLICANT |
|----------|----------------------------------------------------------------|--------------------------------|-----------------------------------------|-------------------------------------|
|          | Retail MARKETS                                                 |                                |                                         |                                     |
| R 1      | Retail supply of mobile services                               |                                |                                         |                                     |
| R 2      | Retail supply of voice telephony at fixed locations            | X                              |                                         |                                     |
| R 3      | Retail supply of access to the internet from fixed locations   | X                              |                                         |                                     |
| R 4      | Retail supply of managed data network services                 |                                |                                         |                                     |
|          | Wholesale MARKETS                                              |                                |                                         |                                     |
| W1       | Wholesale supply of mobile termination services                |                                |                                         |                                     |
| W2       | Wholesale supply of international roaming services             |                                |                                         |                                     |
| W3       | Wholesale supply of mobile network services                    |                                |                                         |                                     |
| W4       | Wholesale supply of fixed termination services                 |                                | X                                       |                                     |
| W5       | Wholesale supply of fixed call access, origination and transit |                                | X                                       |                                     |
| W6       | Wholesale supply of asymmetric broadband origination           |                                |                                         |                                     |
| W7       | Wholesale supply of internet connectivity                      |                                | X                                       |                                     |
|          | Upstream MARKETS                                               |                                |                                         |                                     |
| U1       | International transmission services                            |                                |                                         | X                                   |
| U2       | National transmission service                                  |                                |                                         | X                                   |
| U3       | Metropolitan connectivity                                      |                                |                                         | X                                   |
| U4       | Fixed access services                                          |                                | X                                       |                                     |

Source: Networks Anonymous

The Applicant operates a closed network, meaning that the Applicant sells those services in Markets U4, W4, W5 & W7 to itself in order to provide services in Markets R2 and R3.

## 4.2. Competition in Upstream Markets

This section of the report provides an assessment of competition in the ICASA-identified upstream markets.

### 4.2.1. Market U1: International transmission services

The Applicant, like all other licensees in South Africa, is dependent on access to sub-sea cables to provide access to the global Internet. Given the number, scope and scale of the installed sub-sea cables, this market is not currently scheduled for a review by ICASA.

Table 4-2 below lists those operators from whom the Applicant may purchase such services:

**Table 4-2: International sub-sea transmission cables with landing stations in South Africa**

| CABLE NAME                                                                         | ACRONYM    | LANDING STATION |                           | DATE OF OPERATIONS | CAPACITY (Tbps) |
|------------------------------------------------------------------------------------|------------|-----------------|---------------------------|--------------------|-----------------|
|                                                                                    |            | West Coast      | East Coast                |                    |                 |
| South Africa Far East                                                              | SAFE       |                 | Mtunzini                  | 2002               | 12.8            |

| Equiano                                                                            | Equiano    | Melkbosstrand   |                           |                    | 150             |
| 2Africa                                                                            | 2Africa    | Duynfontein     |                           |                    | 180             |

Source: <https://www.submarinenetworks.com> and RTI International, 2020.

The Applicant is a price-taker in the purchasing of services in this market and the change in ownership therefore has no impact of competition.

### 4.2.2. Market U2: National transmission services & U3: Metropolitan connectivity

The Applicant purchases both national transmission services and metropolitan connectivity (through connectivity at a datacentre). There is no single player in the South African market who owns infrastructure and provides services exclusively in either of these two markets. Rather, different players have targeted different geographic areas, with Telkom Group South Africa being the only market player with a geographic footprint that connects to (almost) all towns and cities in South Africa.

Table 4-3 below lists the major primary asset owners who currently operate in the national connectivity and/or the metropolitan connectivity services markets:

**Table 4-3: Main infrastructure owners in the National transmission services and metropolitan connectivity markets**

| Licensee that own infrastructure in both national transmission services and metropolitan services markets | Licensees that own infrastructure in Metropolitan services market |
|-----------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------|
| Openserve                                                                                                 | MetroFibre Networks                                               |
| Liquid                                                                                                    | DFA                                                               |
| DFA                                                                                                       | Link Africa                                                       |
| Seacom                                                                                                    | City of Cape Town                                                 |
| MTN                                                                                                       | COMSOL                                                            |
| Vodacom                                                                                                   | City of eThekweni                                                 |

Source: Networks Anonymous research and analysis

Based on available information, Figure 4-1 below illustrates that although there are at least 12 players in the combined National Transmission and Metropolitan Connectivity markets, Telkom Group South Africa holds a significant market position (based on km of installed infrastructure).

**Figure 4-1: Combined National Transmission and Metropolitan Connectivity market shares of primary asset owners (by km of fibre installed)**

Source: Digital Council Africa, 2021: Africa Digital Infrastructure Market Analysis 2021 Report

The table below outlines known secondary network asset ownership in the National Transmission market

**Table 4-4: Secondary asset owners in the National Transmission market**

| LICENSEE | DISTANCE OF NETWORK OWNED | MARKET SHARE |
|----------|---------------------------|--------------|
| Vodacom  | 33,000                    | 53%          |
| MTN      | 21,000                    | 34%          |
| Frogfoot | 8,649                     | 14%          |
| Total    | 62,649                    | 100%         |

Source: confidential information

The Applicant is a price-taker in the purchasing of services in this market and the change in ownership therefore has no impact of competition.

#### 4.2.3. Market U4: Fixed access services

The Applicant has deployed its own access network infrastructure to up to 3000 end-points (through a mixture of last mile fibre in Multi-Dwelling Units and Fixed Wireless Access services). Table 4-5 below provides an indication of market shares in this market:

**Table 4-5: Market share of various operators in the Fixed Access Market, latest figures**

| Fibre network operator (FNO)      | Homes passed                                               | Homes connected                                   | Connectivity rate                                                 | Market Share |                 |
|-----------------------------------|------------------------------------------------------------|---------------------------------------------------|-------------------------------------------------------------------|--------------|-----------------|
|                                   | Households that have access to a particular network        | Households that use that network for connectivity | Percentage of homes with access to particular network that use it | Homes Passed | Homes Connected |
| Vumatel                           | 2,000,000 (Aug 2023)                                       | 600,000 (June 2023)                               | 30.00%                                                            | 45%          | 40%             |
| Openserve                         | 1,022,011 (December 2022)                                  | 492 819 (December 2022)                           | 45.94%                                                            | 23%          | 33%             |
| Metrofibre                        | 440,000 (February 2023)                                    | 126,000 (February 2023)                           | 28.63%                                                            | 10%          | 8%              |
| Frogfoot                          | 350,000 (December 2022)                                    | 135,000 (December 2022)                           | 38.57%                                                            | 8%           | 9%              |
| Herotel                           | 345,000 (December 2022)                                    | Unknown                                           | Unknown                                                           | 8%           |                 |
| Octotel                           | 300,000 (December 2022)                                    | 100,000 (December 2022)                           | 33.33%                                                            | 7%           | 7%              |
| Vodacom                           | 163,910 (December 2022 — including businesses)             | 155,760 (December 2022 — including businesses)    | 95.03%                                                            | 4%           | 10%             |
| Evotel                            | 141,000 (March 2023)                                       | 39,000 (March 2023)                               | 27.66%                                                            | 3%           | 3%              |
| Zoom Fibre                        | 130,000 (October 2022)                                     | 27,000 (October 2022)                             | 20.76%                                                            | 3%           | 2%              |
| <b>Applicant (fibre plus FWA)</b> | <b>approx. 3000 (Oct 2023)</b>                             | <b>approx. 3000 (Oct 2023)</b>                    | <b>95%</b>                                                        | <b>0%</b>    | <b>0%</b>       |
| <b>Total</b>                      | <b>4,491,921 (includes overlapping homes / overbuilds)</b> | <b>1,502,316 (excludes Herotel)</b>               | <b>33%</b>                                                        |              |                 |

Source: Networks Anonymous, annual reports and mybroadband.co.za

Table 4-5 indicates that the Applicant has a negligible presence in the market for Upstream Fixed Access Services. The change in ownership shall not have any material impact on the level of competition in the market.

### 4.3. Competition in Wholesale Markets

The licensees listed in Table 4-5 provide access to their last mile infrastructure at Layer 2 of the OSI stack, i.e. at the wholesale layer in Market W7: Wholesale supply of internet connectivity. These statistics may therefore be used to assess the level of competition in the wholesale market as well.

As the table shows, the Applicant has a negligible market share and therefore the change in ownership has no direct or indirect impact on the level of competition in Market W7

### 4.4. Competition in Retail Markets

Table 4-6 below provides the Applicant's presence and market shares of the relevant retail markets:

**Table 4-6: Applicant market shares in relevant retail markets**

| MARKET # | MARKET DESCRIPTION                                           | APPLICANT CLIENT VOLUMES | TOTAL MARKET* | APPLICANT MARKET SHARE |
|----------|--------------------------------------------------------------|--------------------------|---------------|------------------------|
|          | Retail MARKETS                                               |                          |               |                        |
| R 2      | Retail supply of voice telephony at fixed locations          | 20                       | 1,426,994     | <0.1%                  |
| R 3      | Retail supply of access to the internet from fixed locations | 3000                     | 1,365,429     | <0.1%                  |

\*Statistics sourced from Graph 29 and Graph of the ICASA March 2023 "State of the ICT Sector Report in South Africa" report

The above table indicates that the Applicant has a negligible market share in its two retail markets and therefore the change in ownership may not have any impact on the level of competition in the identified markets.

## **5. Concluding statement**

The Applicant provides services to a total of 3000 clients/network end-points, or has a <1% share of the markets in which it participates. The Applicant is also wholly dependent on the Upstream Markets of International Transmission, National Transmission and Metropolitan Connectivity to provide services. There is no available evidence indicating that this application for a change in control will have any impact on the level of competition in the relevant markets.

## EXECUTIVE SUMMARY

This report has been compiled by Fides Advisory Services Ltd, T/A Networks Anonymous. Networks Anonymous was appointed to provide an independent consumer analysis report to comply with Regulation 11(4)(a) and requirement 9.2 of Form G of the “Regulations on processes and procedures in terms of the Electronic Communications Act” as specified in Government Gazette Number 39871, published on the 30<sup>th</sup> of March 2016 (as amended).

The report provides an analysis of the possible consumer impacts of the proposed change in control of the Individual Electronic Communications Network Services (I-ECNS) licence and the Individual Electronic Communications Services (I-ECS) licence held by Link Inc Telecommunications (Pty) Ltd.

The findings of this report are the following:

1. The Applicant has confirmed that the change in control shall have no impact on the current operations of the business; and
2. Current customers shall continue to experience the same level of technical support, quality of service and pricing.

In summary: consumers shall continue receiving the same services in the same form post approval of this application and there are no negative impacts on consumer welfare.
