Dear Chairperson

**Submission on the second draft National Radio Frequency Plan (NRFP) 2025- Correction of Errors Related to the 3800-4200 MHz Band (GG No.53637, 7 November 2025)**

1. MultiChoice appreciates the opportunity to provide input on the second Draft National Radio Frequency Plan (NRFP) 2025, published in Government Gazette No.53637 on 7 November 2025.
2. We hereby reiterate the contents of our submission dated 28 May 2025 on the first Draft NRFP 2025, published in Government Gazette No.52449 on 4 April 2025, in which we indicated that the frequency bands listed in Column 1 (for example, 3600-3800 MHz and 3800-4200 MHz on pages 246 and 248) should be correctly reflected across Columns 1 to 4.
3. The “Typical Application” column should be aligned with the “ITU Region 1 allocation” column to ensure consistency and regulatory clarity.
4. We appreciate your consideration of this second submission and remain available to provide further clarity as necessary.
5. As this matter relates to a minor administrative error, we do not consider it necessary to participate in the public hearing scheduled for 15-16 January 2026. We would appreciate it if the Authority could kindly correct this error prior to the final publication of the NRFP 2025.

Yours faithfully

  
Willington Ngwepe  
CEO
