ATT: Submission of Application Community Sound Broadcasting Service & Radio Frequency Spectrum licences

Good day.

The above subject refers.

Here with kindly find the application form and relevant addendums.

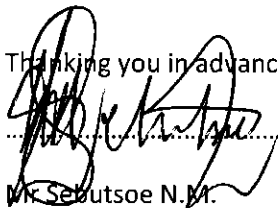

Naledi Community Radio Station which is now called (**PHETOHO FM**) is an existing Station but due to internal politics the license renewal was compromised when additional information that was requested by ICASA was not submitted by former Secretary who was the corresponded.

We hereby request the application to be given priority.

We have employed over the 25 young South Africans who has dependants closing down was a setback.

We trust that the application will be considered and approved, the community want to hear their favourite Radio Station.

Thanking you in advance.
