30 November 2021

REVERENCE TELECOMS' WRITTEN REPRESENTATION IN RESPONSE TO THE ICASA 2ND INFORMATION MEMORANDUM ON THE LICENSING FOR IMT SPECTRUM (GOVERNMENT GAZETTE NUMBER 45496 OF 16 November 2021).

Firstly, we commend ICASA for demonstrating a thorough follow through of the responses by many stakeholders and issuing the 2nd Information Memorandum.

It is our understanding that such amendments will adequately address the needs of the sector to create more employment through stimulating healthy competitiveness and the much-needed empowerment of new entrants, SMEs and MVNOs.

We however, refer to section 6 of the Memorandum pertaining to the **Opt in Lots and Spectrum floors**; seeking clarity regarding the same. Are the opt-in prices determined by the general reserve prices as detailed in section 5.8, or are they determined by other variables? If there are other variables, kindly indicate what they would be to enable us to plan and budget correctly.

Thank you.

Sincerely

Ms Duduzile F. Bogatsu

CEO
