Dear Sir/Madam

Application for Broadcasting Spectrum License

We as Talitha Cumi News Report would like to apply for the live radio license. The application would be 89.7 fm MHZ in Greater Middelburg, Mpumalanga.

Our media wing has been operating online on all media platforms, under our Ngo in serving the community of Middelburg for more than 3 years. We specialize in community development, also in informing the community about the happenings in our area, we cover events and gatherings through our media platform. We engage the youth in our operations by giving them a chance to show case their talents and skills. We are the voice of the community. We offer the community a platform to express their views in whatever that concerns them.

We give people from different backgrounds a sense of belonging including those in grass root level, by performing out reaches even in less fortunate areas. We host kids Christmas parties through our NGO and our media company Talitha Cumi News Report. As a growing organization we believe

that being granted a live community radio station license, will also grant the entire community of Greater Middelburg various opportunities especially our youth, who will be exposed to many diverse opportunities. This will have an immediate effect of our youth, allowing them to voice their concerns and frustrations. We believe that our youth given an opportunity that identifies with them, they can learn to be independent, and gain economic freedom. The license will help Talitha Cumi radio to engage and help the youth in their struggles and their achievements. We believe in community development and self pride as a community.

We as Talitha Cumi radio we appreciate and hope that our application will be successful, thus helping us to achieve our goal. We are looking forward in working with ICASA and abiding to the laws of the Republic.

Yours faithfully

MR L Zwane (Director Talitha Cumi)
