

To whom it may concern

The time has finally come for Kokstad to grow and explore new things. It came to us as a shock but we are more than delighted and hoping for the best. The team has outdone themselves on this project. We believe it will be an amazing piece of art

We can now have a say on what to listen and when. We can choose music we want to listen to. It's a amazing project and we are supporting ULTRA family.

Kind regards
