

To whom it may concern

We are well aware of the new kid in town ULTRA FM. We rally behind the team that has done this amazing work from the beginning. Our wish is to see this idea coming to life. We are patiently waiting for the time on which ULTRA FM will come to life and go on-air.

We will have a platform to advertise and create more revenue than we used to do. It's also a vital tool for communicating information to relevant kind of audience at a specific time.

We wish ULTRA all the best in their journey.

Kind regards

Anathi Msomi
